After her husband's change of fortune, she tries in many ways to help him and her daughter in their sad plight, but all her attempts are resisted. She still tries for reconciliation in various ways but her husband and daughter although they fully believe in her innocence and purity, stubbornly refuse her help for social reasons. Dacca, the 26th July 1940.

A. AHMAD, for Director of Agriculture, Bengal.

**DEPARTMENT OF AGRICULTURE,
BENGAL.**

Dacca, the 24th July 1940.

**Forecast of the Summer Til (Sesamum) Crop
of Bengal, 1940-41.**

(Note.—On an average of the five years ending 1937-38, the area under *til* in Bengal has represented some 3.5 per cent. of the total area under *til* in India.)

Character of the season.—Rainfall in February and March was sufficient for preparatory tillage and the sowings commenced generally in the normal time. Dry weather is reported

to have hindered the growth of the crop at places in some districts. On the whole the season has been a fair one for the crop.

Area.—The area sown this year is estimated at 127,100 acres as against 134,900 acres last year.

Outturn.—From the District Officers' estimates, the average outturn of the crop for the Province works out at 72 per cent. of the normal this year as against 69 per cent. last year.

Taking the normal yield at 7 1/20th maunds per acre, the gross outturn of the crop for the Province is estimated at about 23,700 tons this year as against 24,100 tons last year.

A. AHMAD, *Personal Assistant,*
for *Director of Agriculture, Bengal.*

NOTIFICATION.

No. 8371.—7th August 1940.—The Governor having been pleased to order, under rule 48 of the Bengal Legislative Council Procedure Rules, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information.

**THE BENGAL LEGISLATURE (REMOVAL OF
DISQUALIFICATIONS AMENDMENT) BILL,

A

BILL

*to amend the Bengal Legislature (Removal of
Disqualifications) Act, 1937.*

WHEREAS it is expedient to amend the Bengal Legislature (Removal of Disqualifications) Act, 1937 for the purposes and in the manner hereinafter appearing; Ben. Act
III of
1937.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Legislature (Removal of Disqualifications Amendment) Act, 1940.

Amendment of
section 2 of Ben.
Act III of 1937.

2. After clause (c) of section 2 of the Bengal Legislature (Removal of Disqualifications) Act, 1937 the following clause shall be added, namely:—

“(d) an office in any of His Majesty’s military, naval or air forces in India or connected with the equipment or administration of any of those forces or otherwise connected with defence—

(i) in time of war, for any purpose whatever, or

(ii) at any other time, for any purpose connected with the maintenance of the internal security of Bengal.”

STATEMENT OF OBJECTS AND REASONS.

By virtue of the provision of clause (b) of section 2 of the Bengal Legislature (Removal of Disqualifications) Act, 1937, a person is not debarred from becoming or being a member of either Chamber of the Bengal Legislature by reason only of the fact that as a part-time member of any of His Majesty’s Naval, Military or Air Forces, he holds an office of profit under the Crown in India. When however such a member of the Legislature holds such an office as a full-time member of any of such Forces, he is disqualified for being a member and his seat in the Legislature falls vacant automatically. The object of this amending Bill is to enable such a member to retain his seat in the Legislature even if he so holds such an office in time of war for any purpose or in time of peace for any purpose connected with internal security.

To—The Director of Public Instruction, Bengal.

I am directed to convey the sanction of Government to the creation of a trust fund to be called "the Bimala Churn Law Free-studentships" in the Bethune College, Calcutta, with 3½ per cent. Government Promissory Notes as detailed below of the face value of Rs. 6,300, presented by Dr. Bimala Churn Law, M.A., B.L., Ph.D., of 43, Kailas Bose Street, Calcutta, for creating two free-studentships in the above institution on the conditions set forth in the attached statement:—

No. 260868 for Rs. 1,000
No. CA006254 for Rs. 100
No. CA006255 for Rs. 100
No. CA006256 for Rs. 100
No. CA006257 for Rs. 5,000

Total Rs. 6,300

The donor has endorsed the Government Promissory Notes in favour of the Manager, Reserve Bank of India, Calcutta, and has deposited them with that officer.

The Principal of the College who will be the administrator of the fund will draw the interest regularly, open a post office savings bank account, deposit therein the income of the fund and credit to Government the amount payable by the holder of the free-studentships.

The Manager, Reserve Bank of India, Calcutta, has been informed.

Condition.

1. The donor or his heir or heirs shall have the right to nominate for admission into the Bethune College two poor female students who are, under the rules of the College, eligible for admission in the ordinary way. If necessary, the donor or his heir or heirs shall have the right to ask from the Principal a list of poor and meritorious students admitted by her with remarks as to the financial condition of the parents or guardians of those students so that the donor or his heir or heirs may be in a position to make his or their own selection among the students so admitted and inform the Principal accordingly. If in any year, a deserving candidate is not available, no nomination for the free-studentships should be made for the year and the interest on the donation

should continue to accumulate and should be utilised in future in awarding more than two free-studentships, if funds permit, subject to the approval of the donor or his heir or heirs. The Trust Fund should be called "Bimala Churn Law Free-studentships Fund". The Principal of the College should be the administrator of the Fund, who will draw interest on the notes regularly, open a post office savings bank account, deposit therein the income of the Fund and credit to Government the amount payable by the holders of the free-studentships.

2. The donor or his heir or heirs shall have the right to cancel the nomination of the candidate who has failed to pass any examination and to nominate a new candidate who may be found deserving of such free-studentships. The free-studentships shall entitle the holders thereof to exemption from payment of admission fee, tuition fee, examination fee, common-room fee, magazine fee, bus fee and college union fee, but the exemption should be operative to the extent of the amount available as the net income of the fund.

3. These free-studentships should be named as "BIMALA CHURN LAW FREE-STUDENTS- SHIPS" and are open to all female students without any distinction of caste and creed.

4. The Principal of the College shall furnish the donor or his heir or heirs with an annual report of the progress of study of the students concerned and the donor or his heir or heirs shall intimate to the Principal his or their intention of allowing the candidates to continue to hold the free-studentships, if the progress report be found satisfactory. In the event of the progress report being found unsatisfactory, the right of the donor or his heir or heirs shall be limited to withdrawing the free-studentships, but shall not extend to prohibiting the holders of the free-studentships from prosecuting their studies.

5. These free-studentships shall be published in the *Calcutta Gazette*, in the prospectus issued by the Bethune College, Calcutta.

6. The said two free-studentships shall be awarded for one year in the first instance, and will be continued unless for unsatisfactory progress or otherwise the concession is withdrawn. No free-studentship will be awarded while two are already in existence or until sufficient surplus is available for the creation of additional free-studentships.

7. If a student or students selected for a free-studentship or free-studentships is or are a boarder or boarders of the hostel attached to the College, she or they will be entitled to the amount set apart for the bus fee and this amount shall be deducted from the hostel charges incurred by her or them and the balance of the hostel charges shall be borne by her or them.

8. After the death of the donor, his heir or if there be more than one heir, the eldest heir shall have the right to nominate free-students. If no nomination is received from the heir or heirs of the donor within a month from the date of intimation by the administrator, the administrator shall have the

right to nominate a candidate or candidates for free-studentship or free-studentships. Necessary reminder should be sent to the heir or heirs within the said period. Due precaution should be taken to ensure safe delivery of the intimation to the heir or heirs of the donor.

 - (b) that the receiver shall have power to expend on the repair of any property of such nature as would not ordinarily be let, such amount as may be decided on at a meeting convened in his office after service of notice to the parties, if appearing in person, or their attorneys, as the case may be and, in the event of there being any disagreement between the receiver and the parties or their attorneys or any of them, the receiver shall apply to the Judge for directions on notice to the parties, the costs of such application being in the discretion of the Judge.

6. A receiver, other than the Official Receiver, shall be allowed such remuneration as the Court or a Judge shall direct. A receiver may, in special cases, be allowed the necessary expenses of management.

7. The order appointing a receiver shall be in Form No. 1, or as the Court or a Judge may direct.

8. The establishment, clerical or otherwise, required by a receiver and the cost thereof chargeable to the estate or property of which he is appointed receiver, shall, if possible, be detailed in the order.

9. A receiver shall, normally, not be allowed to make any charge on account of establishment, but if the receiver is of opinion that it is necessary in the interests of an estate that he should engage durwans, aircars, or other servants he shall be at liberty to do so, but in that event he shall within seven days of any such engagement give notice to the attorneys for the parties, or to the parties themselves if appearing in person, that such engagements have been made. The notice shall contain the names of each and every servant so engaged and the purpose, and the terms, of his or their engagement. The receiver shall with such notice include notice of a meeting to be held at his office (not later than 14 days from the date of the notice) when the question of the engagement of the servant or servants will be discussed.

10. If at the meeting convened in accordance with the last mentioned rule it shall be decided that the employment of such servant or servants is unnecessary, the receiver shall forthwith dispense with the services of the servant or servants so engaged. In the event of there being any disagreement between the receiver and the parties, or should any party object to the engagement of the said servant or servants, or any of them and the receiver should still be of the opinion that the retention of the servant or servants is necessary in the interests of the estate, the receiver shall forthwith make an application to the Judge on notice, to the parties for permission to employ such servant or servants.

11. At the hearing of the said application the Judge shall determine whether the engagement of such servant or servants is necessary and should the Judge be of the opinion that the objection to the same has been made on insufficient grounds, the Judge may direct that the party so objecting shall bear the costs of the application.

12. In the event of no objection being made to the employment of the servant or servants so engaged as aforesaid, the receiver shall prepare a statement for submission to the Judge setting out the particulars mentioned in rule 9 and such statement shall be submitted through the Registrar to the Senior Judge sitting on the Original Side for his confirmation of the engagement of the servant or servants.

13. A receiver shall be entitled to pay out of the estate the wages and other expenses of, and incidental to, the engagement of the servant or servants, and also the costs of any application which may be made to the Judge, unless the Judge is of the opinion that the engagement of such servant or servants has been unreasonable, in which case the Judge may direct that the receiver shall personally bear such costs as have been incurred and the wages of the servant or servants engaged by him.

14. An application for directions relating to the management and disposal of property in the possession of a receiver may be made by him, where such directions have been agreed to between him and the parties if appearing in person, or their attorneys, as the case may be, at a meeting convened by him, by a letter addressed to the Registrar stating full particulars and annexing thereto a copy of the minutes of such meeting certified to be a true copy by him under his hand. Upon receipt of such letter, the Registrar shall submit the same to the Judge, who may make such orders thereon as to him shall seem fit, or may direct an application to be made in Chambers on notice to the parties. In the event of there being any disagreement between the receiver and the parties or their attorneys, or any of them with regard to such directions, an application shall be made by the receiver to the Judge on notice to the parties.

15. Every order appointing a receiver shall, unless otherwise ordered contain a direction that the receiver do file and submit for passing half-yearly accounts in the office of the Registrar. Such accounts shall be

made out as at the end of the months of June and December in every year, and shall be filed during the months of July and January respectively. In the event of it appearing to the Court or the Judge that annual accounts would be sufficient, the Court or the Judge may direct that the receiver shall file annual accounts only which shall be made up to the 31st day of December in every year and be filed in the succeeding month of January.

16. In the event of a receiver being appointed of any zemindary or other property in the mofussil, the receiver shall be responsible only to the extent of the sum or sums of money actually received by him. The receiver shall only be entitled to charge his commission on the sum or sums so received by him. Nothing herein contained shall be construed as exempting the receiver from being sued or proceeded against in respect of claims for loss or damage to the estate arising from negligence on the part of the receiver, or failure on his part to collect or recover assets, which by the exercise of due care and attention, ought to have been recovered.

17. Unless otherwise ordered every such account shall show what the balance in hand is, whether any, and if any, what portion thereof is required for the purposes of the estate, and how much may be paid into Court, and shall be filed in the Account Department of the Registrar's office, together with an affidavit verifying the same in Form No. 2.

18. Every such account, before being submitted to the Judge, shall be examined and vouched by such officer, ordinarily one of the Assistant Registrars of the Court, as the Registrar may either generally from time to time, or particularly with reference to a particular estate or account, appoint for that purpose. Such officer shall have all the powers of officers of the Court to whom references are made, and may require the attendance of the receiver or his explanations, or his evidence upon oath or affirmation, or the production of any document by him, and shall embody the result of his examination in a certificate.

19. After the officer shall have completed his examination under the last rule, he shall obtain an appointment from the Judge in Chambers for passing such accounts, of which appointment, notice shall be given to the parties and to the receiver.

20. Objections to an account shall be filed in the Account Department of the Registrar's office, one week before the day fixed for the passing of the accounts, or within such further time as may be allowed by the Judge. They shall contain in a concise form the nature of the objections, and shall be signed and verified in the form prescribed for the signing and verification of pleadings.

21. Where no objections are filed, or taken by the examining officer, the Judge shall, where otherwise satisfied, pass such accounts. Where objections are filed or taken by the examining officer, the Judge, upon hearing such objections, shall make such order as may be proper.

22. The Judge, on the passing of the accounts, may make such order as to the payment of the balance, appearing due on the accounts, or any part thereof, either into Court, or in such other manner as may seem proper.

23. The Judge may, from time to time, adjourn the hearing of any objections, or may either hear such objections or refer them to an officer of the Court or to any other person, with such directions as may to the Judge seem fit.

24. Where any receiver shall neglect to file his accounts, or to pass the same, or to pay the balance or any part thereof as ordered, the matter shall be reported by the officer mentioned in rule 18 to the Registrar, who may of his own motion, or shall, on the application of any of the parties interested, certify to the Judge such neglect, and the Judge may, from time to time, when the accounts of such receiver are produced to be examined and passed, not only disallow the remuneration therein claimed by such receiver, but also charge him with interest at the rate of six per cent. per annum upon the balance, if any, so neglected to be paid by him during the time the same shall appear to have remained in the hands of such receiver.

25. Where any receiver fails to file any account or affidavit, or to pass such account, or to make any payment, or otherwise the receiver or the parties, or any of them may be required by notice to attend before the Judge to show cause why such account or affidavit has not been left, or such account passed, or such payment made, or any other proper proceeding taken, and thereupon such directions as shall be proper may be given including the discharge of any receiver and appointment of another and payment of costs.

26. Rules 15 and 17 to 25 shall apply to a manager or guardian of the estate of a minor, and a manager of the property of a lunatic appointed by the Court.

27. Where any estate or share of an estate situate outside Calcutta has been sold by a receiver, such sale shall be notified by such receiver to the Collector of the district in which such estate or share of estate is situated.

The number of vacancies in each service will be announced later.

Each candidate will be required to specify in his application the service or services for which he desires to compete, placing them in the order of his preference, and the choice thus indicated will be final. Candidates will not be allowed to alter their choice of services ; only in exceptional cases such applications may be considered provided they reach the Secretary, Public Service Commission, Bengal, before the examination begins. Appointments will be assigned to successful competitors with due consideration to their choice and the number of vacancies in the services.

3. **Qualifications.**—The indispensable qualifications of a candidate are—

- (i) that he is a native of Bengal or has a permanent domicile within the Presidency of Bengal ;
- (ii) that he is a natural born subject of His Majesty, or of an Indian State in respect of whom the Governor-General in Council has made a declaration under section 282 of the Government of India Act, 1935 ;
- (iii) that he shall have attained the age of 22 and shall not have attained the age of 25 on the 1st October 1940.
- (iv) that he is a graduate of a recognised University ;

The Scheduled Caste candidates are required to furnish also a certificate from the District Magistrates of their districts, or from the Commissioner of Police, Calcutta (in case of Calcutta candidates) testifying to their belonging to one of the Scheduled Castes recognised by Government. Excepting the original Matriculation Certificate other certificates will not be returned. The age limits can in no case be relaxed.

4. **Applications—Method of submission of fee, etc.**—(i) A person desiring to be admitted to the examination shall apply before the 20th August 1940 to the head of the college from which he passed his examination for the degree of Bachelor of Arts, Science, Commerce, etc. A candidate who passed the examination as a non-collegiate student shall send in his application to the Registrar, Calcutta University together with a certificate of character signed by the Principal of his College if he was connected with one, and by the Magistrate of the district in which he is resident in other cases ; candidates from the Dacca University shall apply to the Registrar, Dacca University. All other candidates (not included in the previously mentioned categories) shall apply to the Director of Public Instruction, Bengal, Writers' Buildings, Calcutta :

Provided that in no case shall a candidate apply to more than one of these authorities, and that such applications shall always be made through their Durbars by persons resident in a State in India.

(ii) Applications shall be made, in the form shown in Schedule I, copies of which may be obtained from the heads of Colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction, Bengal.

(iii) No application will be taken into consideration by the nominating authority unless it is accompanied, by a chalan showing payment into a Government treasury in Bengal, or Reserve Bank of India, Calcutta, of the sum of Rs. 5. This payment is obligatory whether such application is subsequently rejected or not and no claim for a refund of this fee will be entertained. *Applications stamped with postage or other stamps will not be accepted.*

(iv) No allegation that an application form or letter respecting such form, has been lost or delayed in the post will be considered unless the person making such allegation produces a Post Office registration receipt or certificate of posting. Candidates who delay their applications until a late date will do so at their own risk.

5. **Nomination.**—The heads of Colleges, the Registrars of the Calcutta and Dacca Universities and the Director of Public Instruction, Bengal, shall forward to the Secretary, Public Service Commission, Bengal, before the 25th August 1940, the applications of candidates nominated in accordance with the allotment of nominations shown in Schedule II and shall certify the moral character,

of each candidate so nominated. The applications of non-collegiate students nominated by the Registrar of the Calcutta University should be supported by the character certificates mentioned in paragraph 3 above. In making these nominations, due regard should be paid to the desirability of different classes and communities being represented in the public service and four lists should be made separately for the four different categories of (1) Muslims, (2) Scheduled Castes, (3) Minority Communities and (4) Hindus. Care should be taken to nominate only such candidates as are likely to pass the medical examination since experience shows that a considerable number of candidates successful in the literary examination fail to pass the medical test.

6. **Selection certificates.**—The Public Service Commission will issue certificates of selection to such a number of the nominated candidates as they consider desirable. The selection or rejection of a candidate by the Commission shall be final, and no candidate shall be admitted to the examination unless he holds such a certificate :

In making their selection the Public Service Commission will have consideration to the resolution of Government fixing the communal ratio according to which all appointments to Government services will be made.

7. **Particulars of candidates.**—The Public Service Commission may require such further proof or particulars from the candidates as they may consider necessary, and may make enquiries regarding their character and domicile.

8. **Examination fee and time-table.**—Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit into a Government treasury in Bengal or Reserve Bank of India, Calcutta, a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary, Public Service Commission, Bengal. Under no circumstances will the fee paid be refunded. Delay in this respect may render a candidate's name liable to removal from the list of examinees. On complying with this requirement, the candidates will receive from the Secretary a time-table for the examination. The examination will be held in February 1941 at Calcutta. The dates and place of the examination will be communicated to the candidates separately.

9. **Canvassing.**—Any attempt on the part of a candidate to enlist support for his application through persons of influence or officials of Government will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

10. **Disclosure of identity.**—Candidates should not write their names or roll numbers anywhere except in the space provided for the purpose on the answer books. Any paper containing a mark or a hint revealing the identity of a candidate will be rejected without further scrutiny.

11. **Ineligibility of Government servants.**—No person holding a substantive appointment in Government service or an appointment on probation against a substantive vacancy under Government will ordinarily be eligible to appear at the competitive examination. Persons holding purely temporary posts under Government should submit their applications in the manner prescribed in paragraph 4 above.

12. **Syllabus of examination and marks.**—The examinations will be held in the subjects and according to the syllabus shown in Schedule III which also indicates the numerical value to be attached to each paper at the examination.

As the possession of a knowledge of a provincial vernacular is an essential condition of appointment, candidates, whose ordinary spoken and written language is not Bengali, must take up translation from English into one of the provincial vernaculars named below :—

- (i) Bengali,
- (ii) Hindi,

- (iii) Urdu,
- (iv) Nepali,

and *vice versa* in the compulsory paper. Until further notice European and Anglo-Indian candidates may however also take up Latin, French or German instead of a Vernacular from those mentioned above. Successful candidates, however, who have offered any language other than Bengali in that paper and are appointed to a service for which there is a Departmental Examination, will be required to pass completely the Departmental Examinations in Bengali within two years of the date of their appointment to the service.

13. **Medical Examination.**—As soon as the result of the examinations are ready, a proportion of the candidates who have qualified will be called upon to appear before a Medical Board for a certificate of their fitness for Government service in form A of Schedule IV of the Bengal Provincial Services Recruitment Rules. An order to appear before the Medical Board must not however be understood to mean that the candidate, if found fit, will necessarily receive an appointment as the number of candidates who will be summoned for medical examination will be slightly in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole. Regulations governing the physical examination of candidates are set forth in Schedule IV of the Bengal Provincial Services Recruitment Rules and intending candidates are advised before they apply for admission to the examination to satisfy themselves that they are likely to qualify as physically fit under those regulations, for experience has shown that a considerable number of the candidates at the competitive examinations are subsequently rejected by the Medical Board as unfit.

F. AHMAD,

Secretary, Public Service Commission, Bengal.

STATEMENT OF OBJECTS AND REASONS.

Secondary Education is in Bengal at present uncontrolled. There is no authority with power to regulate development according to a planned scheme or to insist upon certain standards being maintained. The University of Calcutta has a certain amount of authority over schools desiring to send up candidates for Matriculation. Government have a certain amount of influence over those schools which receive grant-in-aid. Expansion in an unplanned manner has been rapid and in the interests of good teaching, the maintenance of standards and the provision of facilities it is essential that there should be established an authority with power to plan and legislate in the interests of education throughout the Province. The establishment of such an authority was strongly recommended by the Sadler Commission over twenty years ago. Since that time many attempts have been made to establish a Board of Secondary Education. These have failed owing to the impossibility of reconciling the points of view of the University of Calcutta and Government. The development of Secondary Education cannot be allowed to drift indefinitely upon dangerous currents aimless and uncontrolled. The present Bill proposes to establish one Board with authority over Secondary Schools of all types throughout the Province. The general plan of control is that of a large body exercising general supervision and determining policy and a smaller executive body consisting of experienced educationists to give executive effect to that policy. Statutory Committees are created to deal with special problems. The representation of various communities is guaranteed and interested bodies such as the Universities are adequately represented. The establishment of a Board of Secondary Education will make possible a planned efficient development and control of Secondary Schools and Secondary Education.

**THE BENGAL MARRIAGE DOWRY PREVENTION BILL,
1939.**

**A
BILL**

*to abolish the practice of taking dowries in marriages in
Bengal.*

WHEREAS it is expedient to abolish the dowry system in marriages for the prevention of cruelties in marriages in Hindus, Muhammadans and any other societies domiciled in Bengal and for making the marriage ceremony easier and happier in those societies, it is hereby enacted as follows :—

1. (1) This Act may be called the Bengal Marriage Dowry Prevention Act, 1939.

(2) It extends to the whole of Bengal and is applicable to the Hindus, Muhammadans and all other societies domiciled in Bengal.

(3) It shall come into force on such date as the Provincial Government may, by notification in the *Calcutta Gazette*, appoint.

2. In this Act unless there is anything repugnant in the object or context—

(1) The term "Bridegroom's party" means and includes the party of the bridegroom, his relations, friends, and other persons who are connected with the marriage settlement of the bridegroom, and "bride's party" means and includes parents of the bride, her relations who are connected with her marriage settlement.

(2) "Dowry" means and includes any amount in cash, any ornament for bride or bridegroom or any other property moveable or immoveable or any valuable security, i.e., a document whereby a legal right to any such property is created, extended, transferred, restricted, extinguished, or released or whereby any person acknowledges that he is under any legal liability or has not a legal right in respect of any such property given or executed in consideration of marriage.

3. If any bridegroom, anyone of his party receives or in any way appropriates any dowry from the bride or her party or if a bride or any of bride's party receives or in any way appropriates any dowry from the bridegroom or his party, or if a bridegroom or bride refuses to marry or his or her party refuses to consent to the marriage only on the ground of inability of the other party to pay dowry, he or she shall be punished with imprisonment of either description which may extend to three months or with fine which may extend to five hundred rupees or with both :

Provided that no gift of any ornaments, cloths or garments or any other thing which are ordinarily used by females of that class of society to which the bride belongs and which are given to the bride out of affection without any demand from the bridegroom or bride or any of his or her party, is a dowry within the meaning of this section.

The Bengal Marriage Dowry Prevention Bill, 1939.

(Clauses 4, 5.)

4. If a husband gives pressure to or ill-treats his wife in order to exact or thereby exacts any dowry after marriage from her or her father, mother or brother or if he insults or threatens to insult or to forsake her for the exaction of any such dowry from her or her father, mother, or brother, he shall be punished with imprisonment of either description which may extend to three months or with fine which may extend to five hundred rupees or with both.

5. No Magistrate shall take cognizance of such a case except on the complaint of the bride or wife or on the complaint of her father, mother or brother or the bridegroom as the case may be and the offence shall be bailable and compoundable.

STATEMENT OF OBJECTS AND REASONS.

A nefarious practice of extorting heavy dowry from the bride's parents has grown amongst the educated communities of Hindus and Muhammadans in Bengal, so much so, that many families have been heavily indebted and ruined and many others are going to be ruined under the pressure of the brutal dowry system. We hear now and then and find also in newspapers, reports of unmarried girls committing suicide to relieve their parents from the heavy expenses of their marriages. In illiterate classes on the other hand the practice of payment of bride's price has assumed such shape that a poor man cannot marry till he grows old or remains unmarried for want of necessary funds for bride's price. So generally the poor man marries only to leave a widow behind him soon after his marriage. These show how this evil practice is eating in the vital part of the societies especially of Hindu and Muhammadan societies. If this pernicious practice is not checked in time, it will create havoc in the communities concerned.

2. The dowry system is bad upon principle as in these days of equality, it is fully injudicious and unjust that man and woman should be treated differently in marriages.

3. In these days of economic difficulties it is suicidal to the societies to indulge in unnecessary expenses. For these and other reasons it is absolutely necessary that this evil practice be immediately stopped by legislation.

THE BENGAL MEDICAL (AMENDMENT) BILL, 1937.

**A
BILL**

further to amend the Bengal Medical Act, 1914.

Preamble.

WHEREAS it is expedient further to amend the Bengal Medical Act, 1914, for the purpose hereinafter appearing ;

Ben. Act
VI of
1914.

AND WHEREAS the previous sanction of the Governor has been obtained under sub-section (1) of section 119 of the Government of India Act, 1935, to the passing of this Act ;

26 Geo. 5,
Ch. 2.

It is enacted as follows :—

Short title.

1. (i) This Act may be called Bengal Medical (Amendment) Act, 1937.

**Extent and
commencement.**

(ii) It extends to the whole of Bengal.

(iii) It shall come into force on the day on which it is published in the *Calcutta Gazette* after having received the assent of the Governor.

2. (i) After section 17 add the following proviso :—

Provided that the Local Government may, after consulting the Council, permit registration of—

(a) any person who shall furnish to the Registrar proof that he is possessed of a medical degree, diploma or certificate of any University, Medical College or School approved by the Council other than those described in the Schedule and is such as was actually practising the western (modern scientific system of Allopathic) medicine before 27th May, 1914,

(b) any person who shall furnish to the Registrar proof that he has obtained proper training in any medical institution approved by the Council and has joined medical profession before the enforcement of the Bengal Medical (Amendment) Act, 1937, provided that he passes a special examination such as the Council may hold for the purpose of granting registration.

(ii) In proviso to section 17 between the word "provided" and the words "that the Council" the word "further" shall be added.

STATEMENT OF OBJECTS AND REASONS.

The Bengal Medical Act (Act VI of 1914) was passed in 1914. But unlike similar Acts in the Punjab, the United Provinces, Burma, Bombay and even in England it did not provide for the permanent relief of the then medical practitioners actually practising in the province. In lieu of this the Government of Bengal only provided temporarily for a limited number of trained men to obtain the registrable qualifications by passing examination. This transitory provision is, however, quite inadequate. Many of the medical practitioners, who lived abroad at that time or who remained in the remotest corners of the interior villages and were not aware of the privilege, had been left out. These unregistered practitioners are not now deemed qualified and are not even considered fit to certify their patients' illness or to procure requisite medicines for their patients. Thus the present All-India Medical Mission have come into existence. It was through their efforts that legislation on the subject was tried several times without success. It is now time to consider the matter afresh and some permanent relief is to be given to these poor medical practitioners.

The Medical Act (Act VI of 1914), while restricting the registration of medical practitioners did not restrict the establishment of private medical institutions. Some of these unrecognised institutions have since been recognised. But the students who completed their course of education therein and began to practise before such recognition have been left in the lurch. Therefore it is found that there are two sets of good doctors trained at the same institutions, one set of whom are unqualified for want of registration, while another set are qualified by registration. It is but fair and equitable that such students should be given another opportunity of being qualified.

Other medical institutions still unrecognised are producing medical practitioners. In order to qualify them they should also be given a chance to appear in another Licentiate examination similar to that of 1916.

It is to do away with the disabilities of these medical practitioners and to enable them to get their names entered in the "Register of Registered Practitioners" that this amendment to the Bengal Medical Act (Act VI of 1914) is required.

STATEMENT OF OBJECTS AND REASONS.

It is a fact that the Permanent Settlement was granted to the landlords (samindars) not merely for their own benefit but also for the benefit of *raiya*s of all grades. But the *raiya*s of Bengal have been still suffering in ways more than one. The Bengal Tenancy Act was passed in 1885 with the intention of protecting the *raiya*s from all unjust claims or exactions, but it is an irony of fate that many of the provisions of this very Act with all its past amendments militate against the principles and the intentions of the Permanent Settlement. Among the many grievances the rates of rents strike the most. The rents payable by the *raiya*s to-day are much beyond their economic capacity. Rents have increased to such exorbitant extent that the lands of the cultivators are rapidly passing away from their hands. As an instance, the revenue or *sadar-jama* of Aila Tearkhali and Fuljhuri estate in the district of Bakarganj is Rs. 372-3-8 while the total demands of rents from *raiya*s of this estate amount to Rs. 92,987-7-5. From such an instance one can very well realise the extent of demands on the *raiya*s in this province. This Bill has been drafted to mitigate many of the standing evils. The Bill provides that in the vast permanently-settled areas a landlord's claim of rent upon his tenant should not exceed, by more than 50 per cent. the revenue or rent which he himself pays to Government or his superior landlord and that the rates of rents in lands not subject to the Permanent Settlement should also be readjusted and reduced wherever required, according to the rates of rents payable for similar lands in the vicinity in permanently-settled area; and that rates of rents payable by all grades of tenants should be made permanent. Another feature of this Bill is that if the rates of rent are reduced on this basis the landlords should be exempted from paying any cesses whatsoever and the cultivating *raiya*s should pay such cesses in future on acreage basis instead of rupee basis. The Bill, among others, deals with the following salient points :—

Section 1 to be amended to extend the operation of this Act to all municipal and *chandina* lands in mufassal areas.

Sections 6-9 to be repealed to stop enhancement of rents of tenures.

Section 18 to be repealed as redundant.

Section 19 to be amended to make provision that every *raiya*t and under-*raiya*t should have occupancy right.

Sections 20-21 to be repealed as redundant.

Section 23A to be amended to extend the rights of *raiya*s and under-*raiya*s and to enable them to make all sorts of improvements on their lands including the erection of masonry houses and buildings for religious, educational and charitable purposes.

Sections 26D, 26F, 26G, 26H and 26J to be repealed to abolish the landlord's transfer fee and the right of pre-emption.

Sections 27-39 to be repealed as being inconsistent with Chapter VIII.

Sections 41-47 to be repealed to abolish non-occupancy right.

Sections 51A and 51B (new) to be inserted to reduce the excessive rents by proposing a new method of settling rates of rent for all grades of tenants in a permanently-settled area.

Section 51D (new) to be inserted to reduce the excessive rent by proposing a new method of settling rates of rent for all grades of tenants in areas not subject to Permanent Settlement.

Section 51E (new) to be inserted to make the rates of rent of all grades of tenants permanent.

Section 51F (new) to be inserted to exempt landlords from paying any cesses, if the rates of rent are reduced on the basis suggested in this Bill.

Section 51H (new) to be inserted for publishing the average rate of revenue per acre in each estate or *pargana* as ascertained from the settlement records.

Section 58 to be amended to penalise landlords refusing to grant rent-receipts.

Sections 76-83 to be repealed to abolish the provisions for enhancement of rent for improvements made by landlords.

Section 88 to be amended to abolish heavy mutation fee and simplify the present complicated procedure for having a division of tenure or holding or distribution of rent thereof.

Sections 140B to 140D to be repealed as the rates of rent will be so much reduced that a table showing different rates of rents for different classes of land will not be necessary.

Sections 179, 180A-180C to be repealed as redundant and inconsistent.

Section 181 to be amended to give the holder of service-tenure the status of occupancy right.

Sections 182, 183 and 191 to be repealed as inconsistent.

Section 195A to be repealed as it deals with unjust landlord's fee or landlord's transfer fee.

(3) The Collector shall, as soon as possible after the expiry of the period specified in the notice published under sub-section (2), proceed in the prescribed manner to consider any objections received in regard to the preliminary list of apportionment.

- (c) the total expenditure incurred by the Authorised Officer in connection with the scheme, inclusive of any preliminary inquiry and the apportionment of cost and its recovery ;

Amendment of
section 23.

4. In sub-section (2) of section 23 of the said Act—

- (a) in clause (a) after the words "a general notice" the words, figures, letter and brackets "under sub-section (2) of section 13A or" shall be inserted, and
- (b) in clause (d) after the figures "13" the figures and letter "13A" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The crops of certain tracts of this province are devastated by water-hyacinth largely because there is lack of co-operation and organisation among the people for constructing and maintaining protective fences and barriers to prevent the influx and divert the movement of water-hyacinth in those areas. To remedy this, amendment of the Bengal Water-Hyacinth Act, 1936, is considered necessary. The object of the Bill is to amend the Bengal Water-Hyacinth Act, 1936, so as to enable Collectors or Authorised Officers to prepare schemes, make estimates of the cost, and carry out the work of construction and maintenance of fences and barriers, etc., and to recover the cost proportionately from the persons benefited. Certain consequential changes arising out of this amendment have also been incorporated in the Bill.

Dacca, the 26th July 1940.

A. AHMAD, for Director of Agriculture, Bengal.

**DEPARTMENT OF AGRICULTURE,
BENGAL.**

Dacca, the 24th July 1940.

**Forecast of the Summer Til (Sesamum) Crop
of Bengal, 1940-41.**

(Note.—On an average of the five years ending 1937-38, the area under *til* in Bengal has represented some 3.5 per cent. of the total area under *til* in India.)

Character of the season.—Rainfall in February and March was sufficient for preparatory tillage and the sowings commenced generally in the normal time. Dry weather is reported

to have hindered the growth of the crop at places in some districts. On the whole the season has been a fair one for the crop.

Area.—The area sown this year is estimated at 127,100 acres as against 134,900 acres last year.

Outturn.—From the District Officers' estimates, the average outturn of the crop for the Province works out at 72 per cent. of the normal this year as against 69 per cent. last year.

Taking the normal yield at 7 1/20th maunds per acre, the gross outturn of the crop for the Province is estimated at about 23,700 tons this year as against 24,100 tons last year.

A. AHMAD, *Personal Assistant,*
for *Director of Agriculture, Bengal.*

NOTIFICATION.

No. 837L.—7th August 1940.—The Governor having been pleased to order, under rule 48 of the Bengal Legislative Council Procedure Rules, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information.

**THE BENGAL LEGISLATURE (REMOVAL OF
DISQUALIFICATIONS AMENDMENT) BILL,
1940.**

A

BILL

*to amend the Bengal Legislature (Removal of
Disqualifications) Act, 1937.*

WHEREAS it is expedient to amend the Bengal Legislature (Removal of Disqualifications) Act, 1937 for the purposes and in the manner hereinafter appearing; Ben. Act
III of
1937.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Legislature (Removal of Disqualifications Amendment) Act, 1940.

Amendment of
section 2 of Ben.
Act III of 1937.

2. After clause (c) of section 2 of the Bengal Legislature (Removal of Disqualifications) Act, 1937 the following clause shall be added, namely:—

“(d) an office in any of His Majesty’s military, naval or air forces in India or connected with the equipment or administration of any of those forces or otherwise connected with defence—

(i) in time of war, for any purpose whatever, or

(ii) at any other time, for any purpose connected with the maintenance of the internal security of Bengal.”

STATEMENT OF OBJECTS AND REASONS.

By virtue of the provision of clause (b) of section 2 of the Bengal Legislature (Removal of Disqualifications) Act, 1937, a person is not debarred from becoming or being a member of either Chamber of the Bengal Legislature by reason only of the fact that as a part-time member of any of His Majesty’s Naval, Military or Air Forces, he holds an office of profit under the Crown in India. When however such a member of the Legislature holds such an office as a full-time member of any of such Forces, he is disqualified for being a member and his seat in the Legislature falls vacant automatically. The object of this amending Bill is to enable such a member to retain his seat in the Legislature even if he so holds such an office in time of war for any purpose or in time of peace for any purpose connected with internal security.

34. In every case in which the memorandum of appeal under section 27 is presented by the party in person or by his recognised agent, not being a pleader, and a pleader is afterwards retained by such party to support his appeal, the pleader, before being allowed to appear to support the appeal, shall subscribe and file before the appellate authority the following statement, which shall be annexed to the memorandum of appeal:—

“I certify that I have examined the record and the grounds of appeal in this case, and that, in my opinion, the grounds of appeal are good, and I undertake to appear and support them before the appellate authority.”

35. Unless for sufficient reasons to be recorded in writing the appellate authority dismisses the appeal summarily, he shall admit the appeal and call for the records of the case and a report with regard to the grounds set forth in the memorandum of appeal from the authority against whose orders the appeal has been preferred.

36. When a report is called for under rule 35 such report shall always contain a clear narrative of facts so as to enable the appellate authority to understand the allegations and the answers which follow.

37. (1) The Collector of the district, the Commissioner or the Board of Revenue, as the case may be, shall not interfere in appeal with the order appealed against until the notice mentioned in this rule has been served on the respondents who are entitled to be heard in appeal and such respondents have been given an opportunity to be heard. * Alternative pattern for use where hot water is available.

N. B.—The apparatus and materials are to comply in all respects with the specifications and standard patterns. The standard patterns, except No. XXI are held by the Deputy Warden of the Standards, Board of Trade. Pattern No. XXI is held by H. M. Inspectors of Explosives, Home Office.

SPECIFICATIONS OF MATERIALS.

Specification A. Acid, acetic.—The acetic acid is to be clear, colourless, and free from all impurities, and is not to contain less than 96 per cent. CH₃COOH. When 1 c.c. of N/10 potassium permanganate solution is added to 100 c.c. of the acetic acid maintained at 15° C., the distinctive colour is to remain for not less than 15 minutes.

One drop of the diluted acetic acid—one volume of acetic acid diluted with four volumes of distilled water—when placed by means of a glass rod on freshly-prepared potassium iodide-starch paper is to produce no colour.

Specification B. Chalk, French.—The French chalk is to be equal in colour to the standard sample, and is not to contain more than 0.5 per cent. of moisture.

The bulk of the French chalk is to be such that a volume of 50 c.c. will weigh 23.5 ± 1.0 grammes. This is to be determined as follows:—A glass funnel the stem of which is 11 cm. in length, tapering internally from 8 mm. at the top to 5 mm. at the end, is to be clamped vertically above a 50 c.c. cylinder so that the mouth of the latter is 7 cm. below the lowest point of the funnel. The cylinder is to be 2.5 cm. in internal diameter, with a ground edge. The French chalk is to be poured gradually into the funnel and allowed to flow into the cylinder until the latter overflows. This should take one minute. The surface of the chalk is then to be levelled off, without tapping or shaking the cylinder, by drawing a straight edge over the mouth of the cylinder. The cylinder and contents are then to be weighed.

The fineness of the French chalk is to be such that it will all pass, without rubbing, through a 0.075 mm. wire sieve of 6,400 meshes per square centimetre.

The French chalk is not to contain more than 0.1 per cent. of soluble alkali salts calculated as CaCO_3 . This is to be determined as follows:—

10 grammes of the chalk are to be boiled with 250 c.c. of water for one minute, filtered, washed, and the filtrate titrated with N/10 hydrochloric acid.

The French chalk, when warmed with hydrochloric acid is not to give off more than 1 per cent. and not less than 0.25 per cent. of carbonic acid gas.

The French chalk is not to absorb more than 0.5 per cent. of moisture after being dried at 100°C . till constant in weight, and then exposed under a bell-jar to a saturated atmosphere at 15°C . to 20°C . for 24 hours.

Note.—Before use in heat test experiments the French chalk is to be carefully washed with distilled water, dried in a water oven at 65 – 70°C ., and exposed to a saturated atmosphere for 24 hours. It is to be kept in a well-stoppered bottle.

Specification C. Glycerine.—The glycerine is to comply with the British Pharmacopoeia Specification in all respects.

Specification D. (tentative). Paper filter.—The paper for making heat test paper is to consist entirely of pure normal cotton cellulose of strongly resistant quality and free from any loading or sizing.

During manufacture, the paper is not to be submitted to artificial heat of any kind.

The paper is to have a smooth white surface, and both sides are to be as nearly alike as possible.

The average length of the fibres is to be 2 ± 0.5 mm.

Ten sheets, when measured with a Ciceri Smith's patent fixed pressure micrometer are to have a thickness of 1.8 ± 0.2 mm.

The weight of the paper per cubic centimetre is to be.....gramme.

The last treatment in its preparation is to be a thorough washing with pure distilled water and subsequent airdrying in a pure atmosphere.

The paper is to be free from all traces of chemical or other impurity, particularly acids, chlorine and peroxides.

The ash in the paper is not to exceed.....per cent.

On boiling with 3 per cent. caustic soda solution for 60 minutes, the paper is not to lose more than 7.5 per cent. of its weight.

When heated for 15 minutes at 100°C . with Fehlings solution, diluted with twice its volume of boiling water, it is not to produce more than 1.25 per cent. of its weight of cuprous oxide (Cu_2O).

It is to be supplied in sheets 50 cm. long by 15 cm. wide, and each 100 sheets packed separately in a hermetically sealed tin case closed by a tear-off strip.

For use in the extraction of nitro-glycerine from dynamite it is to be supplied in circles 5.5 cm. in diameter, each 100 papers being packed separately.

Papers, standard tint.—The standard tint papers are to be made by the method described in, and are to conform to the conditions laid down in Appendix I.

Specification E. Papers, test.—The papers are to be prepared and tested by the method laid down in Appendix II.

Each batch of papers is to be tested by carrying out four consecutive tests of four papers on each of two days. The mean test obtained is to be 18.5 ± 0.75 minutes, and the mean deviation from the mean not more than ± 0.5 minutes. A test differing from the mean by more than two minutes is to be considered abnormal, and is to be disregarded unless there are more than one of such abnormal tests amongst the 32 papers tested, in which case the batch is to be condemned.

II.—Preparation of the sample to be tested.

All the operations in preparing a sample for testing are to be carried out as expeditiously as possible, avoiding exposure to light, as far as practicable, and the test is to be carried out as soon as the sample is prepared.

In weighing out heat test quantities, an accuracy of ± 0.05 grammes is sufficient. These quantities are to be weighed out into test tubes which have been fitted with rubber rings, the lower surface of which coincides with the bottom line etched on the test tube.

Explosives of Class 3, Nitro-compound, Division 1:—

1. *Dynamite and other nitro-glycerine preparations from which the nitro-glycerine can be conveniently extracted with water in the manner described for dynamite:—*

- (a) The 5.5 cm. glass funnel is to be placed in a hole of the heat test tube stand and 5.5 cm. filter paper, folded in the usual way, placed in it.
- (b) A cartridge of the sample to be tested is to be opened at one end and rotated with one hand, while with the other the contents of the cartridge are to be loosened by means of pressure between the thumb and forefinger. The first half inch of the sample so loosened is to be rejected.
- (c) The cartridge is then to be inverted over the scoop, and the loosening operation continued so as to transfer a portion of the explosive to the scoop.
- (d) When the weight of the sample in the scoop has been adjusted to 13 grammes, the sample is to be transferred to the funnel and pressed down fairly tightly with the flat-headed glass rod until the surface is level.
- (e) The funnel is then to be placed in the heat test tube supported in the heat test tube stand and filled up with distilled water. The stem of the extraction funnel is not to touch the side of the heat test tube.
- (f) When 2 c.c. of nitro-glycerine have been collected in the test tube the extraction funnel is to be removed. The sample is then ready to be heat tested.
- (g) In the event of any water going through with the nitro-glycerine a fresh sample of dynamite is to be extracted.

2. *Carbonite, Monobel Powder, and similar friable nitro-glycerine preparations from which the nitro-glycerine cannot be conveniently extracted with water:—*

- (a) A cartridge of the sample to be tested is to be opened at one end and rotated with one hand, while with the other the contents of the cartridge are to be loosened by means of pressure between the thumb and forefinger. The first half inch of the sample so loosened is to be rejected.
- (b) The cartridge is then to be inverted over the scoop and the loosening operation continued so as to transfer a portion of the explosive to the scoop.

- (c) When the weight of the sample in the scoop has been adjusted to 3.2 grammes, the sample is to be transferred by means of the aluminium funnel, to a heat test-tube, collected at the bottom by gently tapping the side of the tube with the fingers, and pressed down to a height of 3 centimetres by means of the flat-headed glass rod. The sample is then ready to be heat tested.

3. *Blasting Gelatine, Gelatine Dynamite, Gelignite, and analogous preparations:—*

- (a) The wrapper of the cartridge is to be opened out and half an inch of the sample is to be removed with the spatula and rejected. A piece weighing 3.2 grammes as nearly as can be judged is then to be cut off for the test. The sample is to lie on its own wrapper during these operations, and direct contact of the operator's hands with the sample is to be avoided.
- (b) The portion of the sample removed is to be weighed in the scoop and pieces added to, or removed from, it until 3.2 grammes are obtained. This quantity is then to be transferred to the mortar. 6.5 grammes of French chalk are to be weighed out using the spatula and scoop, and also transferred to the mortar.
- (c) The sample is to be incorporated with the French chalk by repeatedly squeezing it with the end of the pestle, until it is in a condition in which it can be ground. The times for normal samples should generally be as follows:—

Blasting gelatine	1½ minutes.
Gelatine dynamite	1 minute.
Gelignite and similar explosives containing less than 63 per cent. of nitro-glycerine	½ minute.

The mixture is then to be ground by a circular movement of the pestle for a further period of half a minute, and should then be homogeneous in appearance.

- (d) The mixture is to be transferred to a test-tube by means of the horn spatula and the aluminium funnel, and gently pressed down to a height of 5 centimetres with the flat-headed glass rod. The sample is then ready to be heat tested.
- (e) The pestle and mortar after each grinding are to be thoroughly washed with tap water, rinsed with distilled water, dried with a clean towel, and finally dried in a bath at 100°C. The pestle and mortar are to be allowed to cool to the ordinary temperature before being used again.

4. *Cordite, Ballistite and other propellants of Class 3, Nitro-compound, Division 1:—*

(1) *Explosives in the form of sticks or tubes:—*

- (a) The operator is to wash his hands carefully, thoroughly rinse them in distilled water, and dry them with a clean towel.
- (b) The sticks or tubes to be tested are to be wiped with clean filter paper.
- (c) The sample is to be reduced to a condition suitable for grinding in the cordite mill by being cut into small pieces about one-eighth inch long by means of the cordite knife, half an inch being rejected from each end of the sticks or tubes to be tested.
- (d) The set of sieves with the lid removed is to be placed under the mill so as to allow the ground material to fall directly on to the top sieve.
- (e) The cut sample is to be transferred from the cordite tray to the mill and ground. The first portion passing through the mill is to be rejected. A sufficient quantity of the sample is to be taken to ensure that enough material is obtained on the second sieve without grinding the whole quantity introduced into the mill.

- (f) The lid is to be replaced on the set of sieves and the sample is sieved for one minute. The material which remains on the second sieve is to be taken for heat test, except in the case of powder in sticks or tubes, the nominal diameter of which is less than 0.08 inch; in this case, the material in the bottom compartment is to be taken for heat test.
- (g) 1.6 grammes of the ground and sieved sample are to be weighed out in the scoop, transferred by means of the aluminium funnel to a heat test tube and collected at the bottom by gently tapping the side of the tube with the fingers. Three such test quantities are to be so weighed out. The sample is then ready to be heat tested.
- (h) The set of sieves and the cordite mill are to be cleaned with the cleaning brush before and after the preparation of each sample.

2. *Explosives in the form of grains for small-arms:—*

- (a) 1.6 grammes of the sample is to be weighed out in the scoop, transferred by means of the aluminium funnel to a heat test tube and collected at the bottom by gently tapping the side of the tube with the fingers. Three such test quantities are to be weighed out. The sample is then ready to be heat tested.

Explosives of Class 3, Nitro-compound, Division 2:—

1. *Nitro-cellulose Pulp:—*

- (a) The operator is to wash his hands carefully, thoroughly rinse them with distilled water, and dry them with a clean towel.
- (b) Six thicknesses of filter paper are to be laid on top of one another. Sufficient of the sample to be tested, to give about 5.6 grammes after the final pressing, is to be spread on the top sheet. Six other thicknesses of filter paper are to be similarly laid over the sample. The whole is then to be placed under pressure as, for instance, in a hand screw press, and pressure applied for three minutes. On removal from the press, the sample is to be rubbed up by hand on the filter paper and again pressed for three minutes on fresh filter paper. The sample is then to be transferred to the rectangular sieve and rubbed through it with the hand.
- (c) 5 grammes of the sieved sample are to be weighed out in the scoop and spread evenly on an aluminium tray.
- (d) The oven is to have been brought to, and is to be maintained at, a temperature of 120° F. (48.9° C.). The tray is to be placed in the oven and kept there for 15 minutes with the door closed.
- (e) The tray is to be removed from the oven and the sample transferred to the top sieve of the set of sieves. The lid is to be replaced, and the sample sieved for two minutes. For this operation the second sieve is not to be used.
- (f) The portion of the sample which passes through the top sieve is again to be spread evenly on an aluminium tray and exposed to the air of the room for four hours.
- (g) 1.3 grammes of the exposed sample are to be weighed out in the scoop and transferred by means of the aluminium funnel to a heat test tube. Two such test quantities are to be so weighed out. The material in each is to be gently pressed down with the flat-headed glass rod to a height of three centimetres. The sample is then ready to be heat tested.
- (h) The wire sieve and the set of sieves are to be cleaned with the cleaning brush before and after each sample has been sieved.

2. *Compressed Guncotton:—*

- (a) About 10 grammes of guncotton are to be removed from the centre of the primer or slab by scraping with the horn spatula.
- (b) The scrapings so obtained are to be placed in the glass beaker two-thirds full of cold distilled water. The sample is to be frequently stirred up in the water during 15 minutes with the flat-headed glass rod, and then allowed to settle. The

water is to be poured off and replaced by a similar quantity of distilled water in which the sample is to be frequently stirred up as before during 15 minutes. After settling, the second wash water is to be poured off.

- (c) The operator is to wash his hands carefully, thoroughly rinse them with distilled water, and collect the sample by hand—squeezing out the excess of water.
- (d) Six thicknesses of filter paper are to be laid on top of one another. The washed guncotton is to be spread on the top sheet. Six other thicknesses of filter paper are to be similarly laid over the sample. The whole is then to be placed under pressure as, for instance, in a hand-screw press, and pressure applied for three minutes. On removal from the press, the sample is to be rubbed up on the filter paper by hand and again pressed for three minutes on fresh filter paper. The sample is then to be transferred to the rectangular sieve and rubbed through it by hand.
- (e) 5 grammes of the sieved sample are to be weighed out in the scoop and spread evenly on an aluminium tray.
- (f) The oven is to have been brought to, and is to be maintained at, a temperature of 120° F. (48.9° C.). The tray is to be placed in the oven and kept there for 15 minutes, with the door closed.
- (g) The tray is to be removed from the oven and the sample transferred to the top sieve of the set of sieves. The lid is to be replaced, and the sample sieved for two minutes. For this operation the second sieve is not to be used.
- (h) The portion of the sample which passes through the top sieve is to be again spread evenly on an aluminium tray and exposed to the air of the room for four hours.
- (i) 1.3 grammes of the exposed sample are to be weighed out in the scoop and transferred by means of the aluminium funnel to a heat test tube. Two such test quantities are to be so weighed out. The material in each is to be gently pressed down with the flat-headed glass rod to a height of three centimetres. The sample is then ready to be heat tested.
- (j) The wire sieve and the set of sieves are to be cleaned with the cleaning brush before and after each sample has been sieved.

3. *Tonite and analogous compressed nitro-cellulose preparations:—*

- (a) The operator is to wash his hands carefully, thoroughly rinse them with distilled water, and dry them with a clean towel.
- (b) The sample is to be held over the rectangular sieve and a sufficient quantity for the tests required is to be removed from the centre of the cartridge by scraping with the horn spatula.
- (c) The explosive on the sieve is then to be rubbed through with the hand and the sieved material spread evenly on an aluminium tray.
- (d) The oven is to have been brought to, and is to be maintained at, a temperature of 120° F. (48.9° C.). The tray is to be placed in the oven and kept there for 15 minutes with the door closed.
- (e) The tray is to be removed from the oven and the sample transferred to the top sieve of the set of sieves. The lid is to be replaced and the sample sieved for two minutes. For this operation the second sieve is not to be used.
- (f) The portion of the sample which passes through the top sieve is to be again spread evenly on an aluminium tray and exposed to the air of the room for four hours.
- (g) 1.3 grammes of the exposed sample are to be weighed out in the scoop and transferred, by means of the aluminium funnel, to a heat test tube. Two such test quantities are to be so weighed out. The material in each is to be gently pressed down with the flat-headed glass rod to a height of three centimetres. The sample is then ready to be heat tested.
- (h) The wire sieve and the set of sieves are to be cleaned with the cleaning brush before and after each sample has been sieved.

4. *Nitro-cellulose Propellants:—*

(1) *Explosives in the form of sticks or tubes:—*

- (a) The operator is to wash his hands carefully, thoroughly rinse them in distilled water, and dry them with a clean towel.
- (b) The sticks or tubes to be tested are to be wiped with clean filter paper.
- (c) The sample is to be reduced to a condition suitable for grinding in the cordite mill by being cut into small pieces about one-eighth inch long by means of the cordite knife, half-an-inch being rejected from each end of the sticks or tubes to be tested.
- (d) The set of sieves, with the lid removed, is to be placed under the mill so as to allow the ground material to fall directly on to the top sieve.
- (e) The cut sample is to be transferred from the cordite tray to the mill and ground. The first portion passing through the mill is to be rejected. A sufficient quantity of the sample is to be taken to ensure that enough material is obtained on the second sieve without grinding the whole quantity introduced into the mill.
- (f) The lid is to be replaced on the set of sieves and the sample is to be sieved for one minute. The material which remains on the second sieve is to be taken for heat test, except in the case of powder in sticks or tubes, the nominal diameter of which is less than 0.03 inch; in this case, the material in the bottom compartment is to be taken for heat test.
- (g) 1.6 grammes of the ground and sieved sample are to be weighed out in the scoop, transferred by means of the aluminium funnel to a heat test tube, and collected at the bottom by gently tapping the side of the tube with the fingers. Three such test quantities are to be so weighed out. The sample is then ready to be heat tested.
- (h) The set of sieves and the cordite mill are to be cleaned with the cleaning brush before and after the preparation of each sample.

(2) *The explosives in the form of grains for small-arms:—*

- (a) A quantity of the sample sufficient for the test required is to be spread evenly on an aluminium tray.
- (b) The oven is to have been brought to, and is to be maintained at, a temperature of 120°F. (48.9°C.). The tray is to be placed in the oven and kept there for 15 minutes, with the door closed.
- (c) The tray is to be removed from the oven and exposed to the air of the room for 4 hours.
- (d) 1.3 grammes of the exposed sample are to be weighed out in the scoop and transferred by means of the aluminium funnel to a heat test tube. Three such test quantities are to be so weighed out. The sample is then ready to be heat tested.

5. *Ammonite, Bellite, Roburite and analogous preparations:—*

- (a) A cartridge of the sample to be tested is to be opened at one end and rotated with the one hand, while with the other the contents of the cartridge are to be loosened by means of pressure between the thumb and forefinger. The first half inch of the sample so loosened is to be rejected.
- (b) The cartridge is then to be inverted over the scoop and the loosening operation continued.
- (c) When the weight of the sample in the scoop has been adjusted to 1.3 grammes, the sample is to be transferred by means of the aluminium funnel to a heat test tube, and collected at the bottom by gently tapping the side of the tube with the fingers. The sample is then ready to be heat tested.

III.—Application of the Test.

(a) The water bath is to be fitted up and is to be levelled and filled with water up to the outflow. It is to be placed on a table of convenient height in such a position that the heat test tint can readily be observed by reflected light. No part of the apparatus is to be exposed to direct sunlight.

(b) The thermometer, fixed in the rubber stopper, is to be inserted in the wire cage provided for the purpose on the under side of the lid of the water bath to a depth of 3 inches. The water is to be heated to the required temperature and maintained at a constant temperature and depth. The temperatures for the various explosives are given in Table I.

(c) The glass rod with platinum wire hook is to be inserted in the rubber stopper. A test paper is then to be removed from the brown glass bottle by means of the forceps, placed on the glass plate so that its edges coincide with the lines on the plate, and pierced by passing the needle through the paper and the hole in the plate. The test paper is then to be held by means of the forceps, and a mixture of equal volumes of distilled water and glycerine is to be applied to the upper edge of the test paper by means of the glass rod of the dropping bottle in sufficient quantity to moisten the upper half of the test paper by the time the test is complete. The platinum wire hook of the glass rod is then to be passed through the hole in the paper. At no time is the operator to touch the paper with his fingers.

(d) The rubber stopper carrying the glass rod and test paper is at once to be firmly pressed into the test-tube containing the explosive to be tested, until the bottom of the stopper coincides with the top line etched on the test-tube, and the position of the glass rod is to be adjusted so that the lower edge of the wet portion of the test paper, which edge is to be approximately horizontal, coincides with the middle etched line on the test-tube. The test-tube is then to be inserted in one of the wire cages of the lid of the water bath, so that the bottom line etched on the test-tube coincides with the upper surface of the lid. The rubber ring is to be pressed down on to the bath and the cap placed in position over the tube.

The quantities of the various explosives to be placed in the test-tube are given in Table I.

The test paper is not to be inspected by lifting the cap until shortly before the time the explosive ought to stand the test as given in Table I.

(e) The test is completed when the faint brown line, which after a time makes its appearance at the margin between the wet and the dry portions of the test paper, equals in depth of tint the brown line on the standard tint paper.

For any given explosives to pass the test, the time elapsing between the introduction of the tube into the bath and the production of a tint equal to the standard must not be less than the time given in Table I.

After the test is finished, the explosive is to be carefully removed from the tubes, and the tubes thoroughly washed out with tap water by means of the test-tube brush. They are then to be rinsed out and allowed to drain for a few minutes. The washing is repeated with distilled water, the tubes rinsed, allowed to drain, and finally dried in a bath at 100° C. The tubes are to be allowed to cool to the ordinary temperature before being used again.

IV.—Exudation and Liquefaction Test for Blasting Gelatine, Gelatine Dynamite and analogous Preparations.

TEST FOR LIQUEFACTION.

A cylinder of blasting gelatine is to be cut from the cartridge to be tested, the length of the cylinder to be about equal to its diameter and the ends being cut flat.

The cylinder is to be placed on end on a flat surface without any wrapper, and secured by a pin passing vertically through its centre.

In this condition the cylinder is to be exposed for one hundred and forty-four (144) consecutive hours (six days and nights) to a temperature ranging from 85° to 90° Fahr. (inclusive), and during such exposure the cylinder shall not diminish in height by more than one-fourth of its original height, and the upper cut surface shall retain its flatness and the sharpness of its edge.

NOTE.—If the blasting gelatine and the gelatine dynamite to be tested be not made up in a cylindrical form, the above test is to be applied with the necessary modifications.

TEST FOR LIABILITY TO EXUDATION.

There shall be no separation from the general mass of the blasting gelatine or gelatine dynamite of any nitro-glycerine under any conditions of storage, transport or use, or when the material is subjected three times in succession to alternate freezing and thawing, or when subjected to the liquefaction test hereinbefore described.

V.—Picric Acid.

(1) The material shall contain not more than 0·3 part of mineral or non-combustible matter in 100 parts by weight of the material dried at 160° Fahr.

(2) It should not contain more than a minute trace of lead.

(3) One hundred parts of the dry material shall not contain more than 0·3 part of total (free and combined) sulphuric acid, of which not more than 0·1 part shall be free sulphuric acid.

(4) Its melting point should be between 248° and 253° Fahr.

VI.—Testing Chlorate-Mixtures.

The material must not be too sensitive* and must show no tendency to increase in sensitiveness on keeping.

The material must contain nothing liable to reduce the chlorate.

Chlorides calculated as potassium chloride must not exceed 0·25 per cent.

The material must contain no free acid, or substance liable to produce free acid.

Explosives of this Class containing nitro-compounds will be subject to the heat test as if they belonged to Class 3.

*They will be considered too sensitive if they can be exploded however partially by means of a glancing blow with a broomstick on soft wood (such as deal).

APPENDIX I.

PREPARATION OF STANDARD TINT PAPERS.

0.48 gramme of the finest yellow ochre, 0.2 gramme of raw umber and 5 grammes of fine white gum arabic, all of which have been very finely ground in an agate mortar, are weighed into a stoppered bottle of about 150 c.c. capacity and 100 c.c. of water added. The whole is shaken in the cold until the gum is dissolved. The suspension is then well shaken and allowed to stand for 1 hour.

A stylographic pen is then filled from the centre of the suspension and, with the aid of a ruler, lines are drawn at a steady pace across one side of a sheet of filter paper to Specification D. The sheet is then cut up into rectangular strips 1 cm. broad by 2 cm. long, each with a line across the middle perpendicular to the length of the strip. The breadth of the line must be not less than 0.5 mm. nor more than 1 mm.

In order to maintain continuity as regards depth of tint, strips in which the tint does not correspond with that of the sealed pattern are to be rejected.

APPENDIX II.

PREPARATION AND TESTING OF HEAT TEST PAPERS.

*Preparation.**Potassium Iodide.*

The purest potassium iodide obtainable commercially is to be purified by triple re-crystallisation from pure ethyl alcohol, diluted by the addition of one-twentieth of its volume of distilled water. The crystals are to be kept as small as possible, and are to be spread out on clean filter paper, resting on a glass plate, and allowed to dry in the dark. When dry, they are to be placed in a thin layer on the bottom of a platinum crucible and heated to a dull red heat for one minute over a spirit lamp burning pure alcohol. When cold, the crystals are to be transferred to a brown glass stoppered bottle, from which the quantities required are to be weighed out.

The potassium iodide used for each batch of filter paper is to be prepared as above immediately before use.

Starch.

The starch used is to be the best maize starch in the form of corn-flour. It is to be purified immediately before use by washing six times by decantation with freshly distilled water. It is then to be placed on a porous plate of unglazed porcelain, allowed to dry in a warm atmosphere in the dark, and stoppered in a brown glass bottle from which the quantities required are to be weighed out.

Preparation of the Dipping Solution.

220 c.c. of freshly distilled water are to be placed in a Jena glass flask and raised to boiling point over a spirit lamp burning pure spirit. 3 grammes of the starch, prepared as above, are to be suspended in 30 c.c. of distilled water, and the mixture poured into the 220 c.c. of boiling water, with continuous shaking. The whole is to be kept boiling gently, and shaken occasionally for 5 minutes. The solution of starch so prepared is to be added to a solution of 1 gramme of the purified potassium iodide in 250 c.c. of freshly distilled water, and the solution well mixed. The mixture is to stand overnight in a dark room. The following day, the clear supernatant liquid is to be carefully syphoned off and used immediately for dipping the paper.

If it is desired to dip a large batch of paper, the foregoing quantities may be multiplied in order to obtain sufficient solution.

Dipping the Papers.

The clear potassium iodide and starch solution is to be poured into a porcelain tray, which is to be kept exclusively for this operation. Sheets of filter paper to Specification D are to be passed through it singly, so that all except 3 cm. at the end of the strip of paper, passes beneath the surface of the liquid.

The strip of paper is to be held above the tray by the dry portion, and a glass rod passed down each side to remove the excess of solution. It is then to be suspended by the undipped portion in a warm dark room, cupboard, or oven until dry.

It is advisable to nip a small piece out of the edge of each sheet at the boundary line between the wet and dry portions as a guide in subsequent cutting.

Cutting and Trimming the Test Paper.

In cutting and trimming heat test paper the operator is to wear clean cotton gloves.

When the sheets are dry they are to be trimmed by cutting off the unclipped end about 0.5 cm. below the edge of the undipped portion. 0.5 cm. strips are also cut from the other three edges. The sheets are then to be stored in amber-coloured glass jars, kept in the dark.

When a batch of paper has been passed for issue the sheets are to be cut up into rectangular pieces 1 cm. by 2 cm., and are to be issued in this form.

All the above operations are to be carried out in a building specially reserved for this work. This building is to be protected from the direct access of the sun's rays, and, is far as possible, to be kept dark.

Testing of Heat Test Papers by the diffusion Test.

Apparatus and Materials required:—

No. 1.	Acheson graphite	Pieces,	1
2.	Acid, sulphuric, normal solution	A supply.	
3.	Annulus, aluminium		2
4.	Cap, light-tight pastelboard		1
5.	Cylinder, glass, with rubber stopper		1
6.	Cylinder, measuring 100 c.c.		1
7.	Ferrous ammonium sulphate	A supply.	
8.	Jar, cylindrical, brown glass		1
9.	Pipette, 10 c.c.		1
10.	Rod, stirring, glass		1
11.	Sodium nitrite solution containing 1.76 gm. in 1 litre.	A supply.	
12.	Stopper, rubber, with 4 platinum hooks		1

Application of the Test.

The solutions are to be brought to 15°C. before use. 2 grammes of ferrous ammonium sulphate are weighed out and placed in the glass jar, 90 c.c. of the normal sulphuric acid added and solution effected by stirring with the glass rod. The jar is then placed in a bath of water at 15°C., and must be kept at that temperature throughout the experiment. The temperature of the air should be 15°C. to 17°C. 10 c.c. of the sodium nitrite solution are then added by means of the pipette and well stirred in. An aluminium annulus is placed centrally over the mouth of the jar and the orifice covered by the graphite slab; over this is placed a second annulus. Good contact between surfaces is to be ensured by exerting a slight pressure and twisting motion.

The glass cylinder with rubber stopper and light tight tap are then placed on the second annulus, and the assembled apparatus is allowed to stand for 20 minutes. After the expiration of the 20 minutes, the light tight cap and the glass cylinder are removed, the rubber stopper taken out of the cylinder, and the cylinder waved several times through the air. As soon as possible, four of the heat test papers to be tested are moistened with glycerine solution, placed on the platinum hooks of the stopper, the stopper inserted in the cylinder, and the cylinder and light tight cap again placed in position on the second annulus, and the time noted.

When the papers read by reflected light reach the standard tint, the time is again noted; the difference gives the time of test. Standard tint papers to be read by reflected light are used for comparison.

The cylinder is then removed, uncorked, waved several times through the air, and a fresh set of papers is at once put on for test. After four sets of tests have been made, the graphite slab must be heated to 200°C. for 1 hour and allowed to cool in an evacuated desiccator over potash for at least 16 hours before being used again.

A batch of papers is to be tested by carrying out four consecutive tests of four papers on each of two days.

†In cases where the application is made on behalf of a company, the name and address of the company and the name of the manager or agents should be given.

[illegible]

NOTE.—(a) This table furnishes the basis on which application for licence will be considered, but is susceptible to modifications under special circumstances at the discretion of the Chief Inspector.

(b) This rule applies to two or more magazines on the same premises--

(1) belonging to the same occupier, or

(2) so kept by mutual consent of the respective occupiers.

(c) Detonators may be kept in an annexe near to or adjoining a magazine under the following conditions :—

(1) The amount of explosive contained in the detonators must not exceed 100 lbs. reckoned in the proportion of not less than $2\frac{1}{2}$ lbs. of explosive per 1,000 detonators :—
(This proportion represents roughly about 44,000 detonators of "sextuple" strength, with detonators of greater strength the number would be of course less.)

(This proportion represents roughly about 44,000 detonators of "next-upto" strength, with detonators of greater strength the number would be of course less.)

(2) The detonator anzeze must be so constructed that not less than two feet of masonry and three feet of air-space shall intervene between any detonators in such anzeze and the interior of the main magazine.

[See note (b) to Form 1.]

In any case where any of the items enumerated in the first column of this Table is, in the opinion of an Inspector of Explosives, effectively screened from a magazine either by the natural features of the ground or by good and substantial artificial mounds of earth or mine refuse, of such height that a line drawn from any part of the magazine to any part of the item in question will pass through the intervening ground or mound, the distance from that item (except for quantities of one thousand pounds of explosives and under) may be reduced to one-half. Provided that when a natural hill so intervenes as to afford a degree of protection which, in the opinion of an Inspector of Explosives, justifies a further reduction, the distance shown in the Table may be reduced to one-quarter. In no case, however, is the distance from a Viceregal Residence to be less than one mile.

N.B.—The figures in small italics are the distances to be observed when ordinary gunpowder only is to be stored or other explosives up to the equivalent of five thousand pounds of gunpowder, every half pound of such other explosives being reckoned as one pound of gun powder. In the case of manufactured fireworks specially approved in writing by the Chief Inspector four pounds gross weight may be reckoned as the equivalent of one pound of other explosives.

RESOLUTION.

(TARIFFS.)

The 20th July 1940.

No. 6-T./Sim./40.—The Government of India have been asked to permit the import of alumina free of duty in order to enable the manufacture of aluminium to be started in India. The munitions and armaments industries are calling for increased supplies of aluminium, and its early manufacture in this country is therefore an urgent war necessity.

The Government of India have accordingly decided to encourage production by exempting imported alumina from the payment of duty. The concession will remain in force until the expiry of four years from now or until adequate supplies of alumina made in India are available at a reasonable price, whichever may be earlier; the decision as to when such supplies are available in India will lie with the Government of India.

The quantity of duty free alumina which will be allowed to be imported during the period of the concession will be decided by the Government of India separately for each firm seeking to import.

2. The Government intend, in accordance with the above decision, to authorise the Chief Customs Authority to issue orders from time to time under the second part of Section 23 of the Sea Customs Act, 1878, permitting the import of alumina free of duty so long as the above conditions are fulfilled.

**DEPARTMENT OF AGRICULTURE,
BENGAL.**

Dacca, the 1st August 1940.

**First Forecast of the Sugarcane Crop of
Bengal, 1940-41.**

(*Note.*—On an average of the five years ending 1938-39, the area under sugarcane in Bengal has represented some 7·8 per cent. of the total area under sugarcane in India.)

Character of the season.—The season has been a favourable one for sugarcane. The light rainfall in February followed by good

showers in March facilitated the field and planting operations. In April, however, scanty rainfall retarded the operations to a little extent; but the subsequent fairly widespread rainfall in May and occasional showers with alternate sunshine in June more than recouped the situation and the crop has been making good progress.

Area planted.—The total area planted with sugarcane for the province is estimated at 333,300 acres this year as against 315,800 acres in the final forecast last year. The increase in area planted with sugarcane as compared with last year is due to favourable weather condition and high price of *gur*.

Director of Agriculture, Bengal.

- (c) amend section 23, on the lines of section 36E of the Bengal Local Self-Government Act of 1885 so as to provide that an electoral roll may not be obsolete if a general election has to be postponed for any reason ;
- (d) remove the inconsistency between the provisions of sections 24 (3) and 56 (1) (a) and to provide clearly that a general election shall be held before the expiry of the term of office of the municipal commissioners under the latter section ;
- (e) amend section 45 so as to extend the time for election of chairman from 21 days to 30 days ;
- (f) provide specifically that the delegation of the duties and powers of the chairman, under section 52, shall in all cases be in writing ;
- (g) make it clear that the power of the Provincial Government to remove a commissioner under sub-section (2) of section 62 refers to both elected and appointed commissioners ;
- (h) confer on municipal employees a right of appeal against dismissal by necessary amendment of section 66, on the lines of section 33 of the Bengal Local Self-Government Act of 1885 ;
- (i) amend section 67 so as to authorize the Provincial Government to direct the appointment of health visitors or midwives, or both, by municipal commissioners in certain cases ;

- (k) insert, for purposes of better sanitation, an additional rule in Schedule VI relating to the construction of buildings used as places of amusement, e.g., cinema, halls for public meetings and theatres.

"Rule 214. Contractors' bill may be prepared by the Sectional Officer in one of the forms prescribed in Rules 206 to 213 applicable to the case, after the measurements are entered and the contents or area calculated and recorded in the measurement book. The bill together with the measurement book should then be sent to the Subdivisional Officer for his scrutiny and check. The entries in the measurement book relating to the description and quantities of work or supplies should be scrutinised by the Subdivisional Officer. The rates allowed both in the abstract of measurements and the bill itself should be checked by the Subdivisional Officer. Full rates as per agreement, catalogue, indent or other order should be allowed only if the quality of work done or supplies made is up to the stipulated specification. When the work or supplies fall short of that standard and under the agreement it is permissible to make a final payment if the contract is determined, or on an account payment if the contract is to run on and/or if payment is made for an item of work which is not complete at the time that measurements are being taken, only such a fraction of the full rate should be allowed as is considered reasonable, with due regard to the work

remaining to be done and the general terms of the agreement. The Subdivisional Officer will be responsible for seeing that the rates correctly represent the value of work done particularly in the case of additional items of work not covered by the agreement or items acceptable but not up to specification. In respect of items of work not provided for in the accepted tender the rates should be determined by the Subdivisional Officer with the consent of the contractor and approval of the Executive Engineer, provided that approval of the Executive Engineer will not be necessary in cases in which the original tender was accepted by the Subdivisional Officer under powers delegated to him, but in order to enable the Executive Engineer to examine the rate finally accepted by the Subdivisional Officer, the latter should communicate the analysis of rates to the Executive Engineer while forwarding copies of accepted tenders and rates to him. Whenever the total cost of the additional items of work not included in the tender exceed 5 per cent. of the sanctioned estimate, there should invariably be a supplementary tender to cover the additional items".

Pages 68-69—Rule 214.—Insert the following as "Note 7" below this rule:—

"The calculation of 'contents' or 'area' in the measurement book should be checked by the Divisional Office under the supervision of the Divisional Accountant in cases in which the bills are paid by the Divisional Officer and by the Subdivisional Office under the supervision of the Subdivisional Officer in cases in which he is empowered to pay the bills".

Page 69—Rule 215.—Substitute the following for rule 215, the notes thereunder remaining unaltered:—

"Rule 215. Before signing the bill the Subdivisional Officer should compare the quantities in the bill with those recorded in the measurement book and see that all the rates are correctly entered. When the bill is on a running account, it should be compared with the previous bill. The memorandum of payments should then be made up, any recoveries which should be made on account of the work or supply or on other accounts being shown therein. If the Subdivisional Officer is empowered to pay the bill, he should, after all calculations in the bill have been checked arithmetically under his supervision, record a formal pay order specifying, both in words and figures, only the net amount payable, though the payee should be required to acknowledge in his acquittance the gross amount payable inclusive of the recoveries made from the bill".

It shall be also competent for the Returning Officer to alter or amend any entry in the nomination paper presented to him with a view to ensuring accurate and adequate publication under rule 10 of the names of candidates and of persons who have subscribed the nomination paper as proposer and seconder.

10. The Returning Officer or other person authorised shall, on receiving a nomination paper under rule 5, inform the person or persons delivering the same of the date, hour and place appointed for the scrutiny of nomination, and shall enter in the nomination paper its serial number and shall sign thereon a certificate stating the date on which and the hour at which the nomination paper has been delivered to him; and shall, as soon as may be thereafter, cause to be affixed in some conspicuous place in his office a notice of the nomination containing descriptions, similar to those contained in the nomination paper, both of the candidate and of the persons who have subscribed the nomination paper as proposer and seconder.

11. A proposer or a seconder once having signed a nomination paper shall not be allowed to withdraw.

12. A candidate may withdraw his candidature under sub-section (3) of section 27 of the Act by notice in writing subscribed by him and delivered to the Election Officer. The Election Officer shall on receiving such notice of withdrawal, as soon as may be, cause such notice to be affixed in some conspicuous place in his office and in the office of the Returning Officer of the constituency in regard to which the withdrawal has taken place.

If any candidate withdraws his candidature within three days of the date of election, the name of such candidate shall be deemed to be omitted from the ballot paper notwithstanding the fact that his name is shown on the ballot paper.

Scrutiny of Nominations.

13. On the date appointed by the Provincial Government under rule 3 for the scrutiny of nomination, the candidates, their election agents, every proposer and every seconder of each candidate, and one other person duly authorised in writing by each candidate, but no other person, may attend at such time and place as the Election Officer may appoint, and the Returning Officer shall give them all reasonable facilities for examining the nomination papers of all candidates which have been delivered within the time.

14. (1) The Returning Officer shall then examine the nomination papers and shall decide all objections which may be made to any nomination, and may, either on such objection or on his own motion, after such summary inquiry, if any, as he thinks necessary, refuse any nomination on any of the following grounds:—

- (i) that the candidate is ineligible for election in accordance with the provisions of the Act, or
- (ii) that the proposer or seconder is disqualified from subscribing the nomination paper under rule 6, or

- (iii) that there has been any failure to comply with any of the provisions of the Act or of these rules relating to the nomination of candidates, or any failure to comply with the provisions of the Act relating to the deposit to be made by candidates under sub-section (5) of section 27 of the Act, or
- (iv) that the candidate or the proposer or seconder is not identical with the person whose electoral number is given in the nomination paper as the number of such candidate, proposer or seconder, as the case may be, or
- (v) that the signature of the candidate or the proposer or seconder is not genuine.

(2) For the purposes of this rule—

- (a) an entry in the electoral roll of any constituency shall be conclusive evidence of the right of any elector named in that entry to stand for election or to subscribe a nomination paper as the case may be, subject to the disqualifications referred to in section 22 of the Act,
- (b) where a person has subscribed whether as proposer or seconder a larger number of nomination papers than there are vacancies to be filled, those of the papers so subscribed which have been first received, up to the number of vacancies to be filled, shall be deemed to be valid.

(3) Nothing contained in clause (ii), clause (iii), clause (iv) or clause (v) of sub-rule (1) shall be deemed to authorise the refusal of the nomination of any candidate on the ground of any irregularity in respect of a nomination paper, if the candidate has been duly nominated by means of another nomination paper in respect of which no irregularity has been committed.

(4) The Returning Officer shall not refuse any nomination paper on the ground of a slight technical defect such as the wrong spelling of a name.

15. (1) The Returning Officer shall endorse on each nomination paper his decision accepting or rejecting the same, and if the nomination paper is rejected, shall record in writing a brief statement of his reasons for such rejection.

(2) The scrutiny shall be completed on the day appointed in this behalf, and no adjournment of the proceedings shall be allowed.

16. (1) On completion of the scrutiny of nominations, the Returning Officer shall forthwith examine symbols selected by the candidates and if such symbols are found to conflict with each other, he shall allocate the symbols in conformity as far as possible with the wishes of the candidates and if necessary by lot, and his decision in this respect shall be final. Each candidate or his election agent shall at the same time be informed of the symbol assigned to such candidate and shall be given a specimen thereof. He shall then prepare a list of valid nominations indicating therein the symbol assigned to each candidate and shall cause the said list to be affixed in some conspicuous place in his office.

(2) In the case of uncontested returns the Returning Officer shall report the name or names of the candidate or candidates whom he declares to be elected to the Executive Officer and to the Election Officer, and thereupon the Election Officer shall after informing the candidate or candidates, cause the name or names of the candidate or candidates elected to be published in the *Calcutta Gazette*.

17. If the number of duly nominated candidates is greater than the number of vacancies the Returning Officer shall forthwith publish in the local newspapers, and in such other manner as the Election Officer may prescribe, and in such places in the constituency as he may consider necessary, the names of the candidates as given in the nomination papers in alphabetical order in English and also the symbol assigned to each candidate.

In the case of a constituency in which a seat is reserved for members of the Scheduled Castes, the Returning Officer shall in publishing the names of duly nominated candidates under this rule indicate by special mark, the names of candidates who belong to the Scheduled Castes.

18. (1) If a candidate by whom or on whose behalf the deposit referred to in sub-section (5) of section 27, of the Act, has been made withdraws his candidature more than seven days before the

date fixed for the election, or if the nomination of any such candidate is refused, the deposit shall be returned to the person by whom it was made; and if any candidate dies before the commencement of the poll, any such deposit, if made by him, shall be returned to his legal representatives or, if not made by the candidate, shall be returned to the persons by whom it was made.

(2) The deposit made in respect of a candidate shall, if it is not forfeited be returned to the candidate or to the person who has made the deposit on his behalf as soon as may be after the publication of the result of the election.

19. If a candidate who has been duly nominated dies after the date appointed for the scrutiny of nominations and before the date appointed for the taking of a poll, the Returning Officer shall, upon being satisfied of the fact of the death of the candidate countermand the poll and report the fact to the Election Officer, and all proceedings with reference to the election shall be commenced anew in all respects as if for a new election:

Provided that no fresh nomination or deposit shall be necessary in the case of a candidate who stood nominated at the time of the countermanding of the poll.

Polling.

20. The Election Officer shall appoint the hour at which the poll shall commence and the hour at which it shall close on the date appointed by the Provincial Government for the poll. The hours so fixed shall be published by notification at least three days before the election in the local newspapers and in such other manner as the Election Officer may direct.

21. (1) The Election Officer shall select for each constituency as many polling stations as he thinks necessary and shall publish at least three days before the date of polling in such manner as he may consider necessary a list showing the polling stations so selected and the polling areas for which they have respectively been selected.

(2) The Election Officer shall appoint a Presiding Officer for each polling station and such other persons (hereinafter referred to as polling officers) to assist the Presiding Officer as he thinks necessary. The Election Officer may appoint additional polling officers during an election, if necessary.

(3) If the Presiding Officer, owing to illness or other unavoidable cause, is obliged to absent himself from the polling station, his functions shall be performed by such polling officer as may be authorised by the Election Officer to perform such functions, during any such absence; and the expression "Presiding Officer" in these rules shall be deemed to include a polling officer so authorised.

(4) The Election Officer shall make separate arrangement for the recording of votes by women electors provided that any woman elector may record her vote at the men's booth by notifying in writing to the Election Officer, at least four days before the date of polling, her intention of so doing.

22. (1) The Presiding Officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except:—

(a) the polling officers, the candidates, their election agents and for each polling officer in the case of polling booths for men one agent and in the case of polling booths for females two female agents of each candidate (each such agent being hereinafter referred to as the polling agent) to be appointed in writing by the candidate and authorised in this behalf by the Election Officer;

(b) the police or other public servants on duty; and

(c) such other person as the Presiding Officer may from time to time admit for the purpose of identifying electors:

Provided that unless for special reasons the Presiding Officer otherwise directs, no male shall be admitted inside the polling station set apart under sub-rule (4) of rule 21 for the recording of votes by women electors.

(2) The Presiding Officer shall allow the polling agent of a candidate at the polling station to be relieved by another polling agent also duly appointed in writing by the candidate and authorised in this behalf by the Election Officer.

(3) The Presiding Officer shall close the polling station at the hour appointed in that behalf by the Election Officer under these rules so as to prevent the admission thereto of any elector after that hour, provided that all electors present at the polling station before it is so closed shall be entitled to have their votes recorded.

23. If any person misconducts himself at the polling station or fails to obey the lawful orders of the Presiding Officer he may immediately, by order of the Presiding Officer, be removed from the polling station by any police officer or by any other person authorised in writing by the Presiding Officer to remove him; and the person so removed shall not, unless with the permission of the Presiding Officer, be allowed again to enter the polling station during the day:

Provided that this power shall not be exercised so as to prevent any elector who is otherwise entitled to vote at any polling station from having an opportunity of voting at such station.

24. Each polling station shall be provided with such number of compartments as the Election Officer thinks necessary, in order to enable electors to mark ballot papers as quickly as possible and screened from observation.

25. (1) The Election Officer shall provide at each polling station materials sufficient for the purpose of enabling electors to mark the ballot papers, instruments for stamping the official mark on such papers, as many ballot boxes as may be necessary, and copies of the electoral roll or of such part thereof as contains the names of the electors entitled to vote at such station.

(2) The official mark shall be kept secret.

26. Outside and inside each such polling station there shall be displayed on boards to be provided for the purpose by the Returning Officer, in bold and clear print, the name of each candidate in English, Bengali and/or any other vernacular language as may be decided by the Returning Officer, the name of the symbol assigned to him and the symbol itself.

27. Every ballot box shall be so constructed that ballot papers can be introduced therein but cannot be withdrawn therefrom without the box being unlocked. The Presiding Officer shall immediately before the commencement of the poll at the polling station, show each ballot box to be used at the poll, to such persons as may be present in such station, so that they may see that it is empty, and shall then lock it up and place his seal upon it in such manner as to prevent its being opened without breaking such seal, and shall place it in his view for the receipt of ballot papers and keep it so locked and sealed.

28. (1) Immediately before a ballot paper is delivered to an elector, it shall be marked on the back with the official mark, and the number, name and address of the elector as stated in the electoral roll shall be called out, and the number of the elector shall be entered on the counterfoil, and a mark shall be placed in a copy of the electoral roll against the number of the elector, to denote that he has received a ballot paper, but without showing the particular ballot paper which he has received. The counterfoil shall bear the name of the constituency and the name or distinctive number of the polling station shall be entered thereon by either the Presiding Officer or the polling officer.

(2) In deciding the right of a person to obtain a ballot paper for the purpose of voting at an election, the Presiding Officer may interpret an entry in the electoral roll so as to overlook merely clerical or printing errors but shall record his reasons for doing so, and the interpretation he has adopted, on the counterfoil of the ballot paper issued to such person.

29. The elector on receiving the ballot paper, shall forthwith proceed to one of the screened compartments in the polling station set apart for marking ballot papers by electors, and there mark the symbol or symbols printed on the ballot paper against the name of the candidate or candidates for whom he intends to vote in accordance with the instructions set out on the ballot paper, and fold, it up, so as to conceal his vote, and shall put his ballot paper, so folded up, into the ballot box. Every elector shall vote without undue delay and shall quit the polling station as soon as he has put his ballot paper into the ballot box.

30. If the elector, owing to illiteracy or physical or other disability, is unable to read the symbols on a ballot paper or to make a mark thereon, the Presiding Officer or polling officer shall mark the vote in the ballot paper according to the direction of the elector. The elector shall then himself, or with the assistance of the Presiding Officer, put the ballot paper folded up into the ballot box.

31. At any time before a ballot paper is delivered to an elector, the Presiding Officer or polling officer may, of his own accord, if he has reason to doubt the identity of the elector or his right to vote at such station, and shall, if so required by a candidate or his election agent or polling agent, put to the elector the following questions:—

- (1) Are you the person enrolled as follows (reading the whole entry from the roll)? and,
- (2) Have you already voted at the present election in this constituency as such voter?

and the elector shall not be supplied with a ballot paper if he refuses to answer any one of the questions and unless he answers the first question in the affirmative and the second question in the negative.

32. The ballot paper, in the case of a constituency in which a seat is reserved for members of the Scheduled Castes, shall be in Form II annexed to these rules and in the case of other constituencies shall be in Form III annexed to these rules. The ballot paper shall contain the names of the candidates arranged alphabetically in English together with the symbols assigned to each candidate printed against the name of each. In the case of a constituency in which a seat is reserved for members of the Scheduled Castes the names of candidates belonging to the Scheduled Castes shall be indicated by special mark on the ballot paper. The names and the instructions in the form may be printed in such vernaculars as the Election Officer thinks fit having regard to each constituency. The ballot papers shall be serially numbered, the serial number being printed on the face of the counterfoil and on the back of the ballot paper.

33. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper after another person has voted as such elector, the applicant shall, after duly answering such questions as the Presiding Officer may ask, be entitled to mark a ballot paper in the same manner as any other elector. Such ballot paper (hereinafter referred to as a "tendered ballot paper") shall be of a colour different from the other ballot papers, and instead of being put into the ballot box, shall be given to the Presiding Officer and endorsed by him with the name of the elector and his number on the electoral roll and the name of the electoral area to which the roll relates and shall be set aside in a separate packet and shall not be counted by the Returning Officer. The name of the elector and his number in the electoral roll and the name or distinctive number of the polling station to which the roll relates shall be entered in a list in Form IV annexed to these rules, which shall bear the heading "tendered votes list." The person tendering such ballot paper shall sign his name and address thereon or affix his thumb impression against the entry in that list.

34. (1) If any polling agent declares in writing and undertakes to prove, or if the Presiding Officer for any reason is clearly of opinion, that any person by applying for a ballot paper has committed the offence of personation, the Presiding Officer shall require such person to enter in the list of challenged votes (which shall be in Form V annexed to these rules) his name and address, or if he is unable to write, to affix his thumb impression thereto. If such person refuses to comply with such requisition he shall not be permitted to vote, but if he does so comply, he shall be allowed to vote, after he has been warned of the penalty for personation, provided that he answers the question mentioned in rule 31 in the manner laid down therein.

(2) The Presiding Officer shall in every case, whether or not the person is allowed to vote, make a note of the circumstances in the list of challenged votes.

35. A voter who has inadvertently dealt with his ballot paper in such a manner that it cannot conveniently be used as a ballot paper may, on delivering it to the Presiding Officer and satisfying him of the inadvertence, obtain another ballot paper in place of the spoiled paper, and the latter shall together with its counterfoil, be marked as cancelled by the Presiding Officer.

36. A Presiding Officer, polling officer, election agent or polling agent who being an elector of any constituency is duly authorised or appointed for duty at a polling station at which he is not entitled to vote may apply to the Returning Officer of the constituency for a certificate entitling him to vote at that polling station but at no other. On the production of such certificate he shall be allowed to vote at that polling station. The certificate shall be in Form VI annexed to these rules and a copy thereof shall be sent by the Returning Officer to the Presiding Officer of the polling station at which the elector would otherwise have been entitled to vote.

37. (1) A ballot paper shall be issued in the same manner as to any other elector to the person to whom a certificate has been granted under rule 36 on production of such certificate:

Provided that the Presiding Officer or the polling officer shall under rule 28 enter on the counterfoil of the ballot paper not only the name or distinctive number of the polling station at which the vote is recorded but also the name of the polling station at which such person would otherwise have been entitled to vote.

(2) The ballot papers issued under sub-rule (1) shall be dealt with in the following manner:—

- (a) If the polling station at which the person is authorised or appointed for duty is in the same constituency as the one in which he is entitled to vote, then the provisions contained in rule 29 shall apply. The certificate produced under sub-rule (1) shall be filed by the Presiding Officer.
- (b) If the polling station at which the person is authorised or appointed for duty is not in the same constituency as the one in which he is entitled to vote, then before a ballot paper is issued to such person under sub-rule (1) the Presiding Officer shall score out the names of candidates and the symbols assigned to them on the ballot paper and insert in it the names of the candidates for the constituency at which such person is entitled to vote indicating therein in the case where such constituency is one in which a seat is reserved for members of the Scheduled Castes the names of candidates belonging to those castes by special mark, and shall also revise the instructions printed on the ballot paper in such manner as may be necessary. The person shall then go inside the polling compartment and there mark on the ballot paper against the name of the candidate or candidates for whom he intends to vote in accordance with the instructions set out on the ballot paper, and fold it up so as to conceal his vote, and shall put his ballot paper so folded up in an envelope to be supplied to him by the Presiding Officer or the polling officer. The envelope shall then in the case where such person is not the Presiding Officer be handed over to the Presiding Officer. The Presiding Officer shall then seal up the envelope and keep it with him until the close of the poll. The Presiding Officer shall despatch the envelope together with the certificate produced under sub-rule (1) to the Returning Officer concerned as soon as practicable after the close of the poll.

38. The Presiding Officer shall, as soon as practicable after the close of the poll at a polling station, in the presence of any candidates or their election agents or polling agents who may be present, make up into separate parcels and seal with his own seal and the seal of such candidates or agents as may desire to affix their seal—

- (1) each ballot box in use at each station unopened but with the key attached and the slit in the lid sealed up;
- (2) the unused ballot papers;
- (3) the tendered ballot papers;
- (4) the spoilt ballot papers;
- (5) the marked copy of the electoral roll and any certificates filed by the Presiding Officer under rule 37;
- (6) the counterfoils of the ballot papers;

(7) the tendered votes list; and

(8) the list of challenged votes;

and shall deliver such packets or cause them to be delivered to the Returning Officer.

39. The packets shall be accompanied by a statement in Form VII annexed to these rules made by the Presiding Officer, showing the number of ballot papers entrusted to him, and accounting for them under the heads of ballot papers in the ballot box, unused, spoilt, and tendered ballot papers, and ballot papers dealt with under rule 37.

Scrutiny of votes.

40. The Election Officer shall appoint a date which shall be not later than a week after the polling day for the counting of votes. The Returning Officer shall fix the place and time at which the votes shall be counted on the date so appointed and shall give notice of such date, time and place in writing to all candidates and election agents.

41. (1) No person shall be allowed to be present at the counting of the votes except the Returning Officer and such persons as he may appoint to assist him in counting the votes, and such other persons as have a right to be present under sub-section (5) of section 29 of the Act.

(2) No person shall be appointed to assist in counting the votes, who has been employed by or on behalf of any candidate for any purpose whatsoever connected with the election.

42. On the day and at the time appointed under rule 40 the Returning Officer shall proceed as follows:—

(a) The ballot box or boxes relating to each polling station shall be opened one after another, and the Returning Officer shall take out the papers therefrom, count them or cause them to be counted, and record the number thereof in a statement. The Returning Officer shall then open the envelopes, if any, despatched to him under clause (b) of sub-rule (2) of rule 37, take out the ballot papers therefrom and record the number of such ballot papers in the said statement. Such statement shall not be shown to any candidate or agent.

(b) The Returning Officer shall then mix together all the ballot papers so taken out from the ballot boxes and the envelopes and distribute them in convenient bundles to the persons appointed to assist in counting the votes.

(c) When the ballot papers have been so distributed, but not before, the Returning Officer shall allow the candidates and their representatives duly authorised under sub-section (5) of section 29 of the Act, reasonable opportunity to inspect, without handling the ballot papers, and shall on every ballot paper which is wholly or partially rejected endorse the word "Rejected". If any candidate or his representative present questions the correctness of the rejection, he shall also record on the ballot paper the grounds for the rejection. No candidate or representative shall be allowed to see the serial number on the back of any ballot paper.

(d) The Returning Officer shall, as far as practicable, proceed continuously with the counting of the votes; and shall, during any necessary intervals during which the counting has to be suspended, place the ballot papers, packets and other documents relating to the election under his own seal and the seals of such candidates or representatives as may desire to affix them and shall cause adequate precautions to be taken for their safe custody.

43. (1) A ballot paper shall be rejected if—

(a) it has not on its back the official mark,

(b) the number of votes recorded thereon exceeds the number of vacancies to be filled,

- (c) no vote is recorded thereon,
- (d) it is void for uncertainty,
- (e) it bears any mark by which the elector can be identified.

(2) In a constituency in which a seat is reserved for members of the Scheduled Castes, the ballot paper shall be also rejected if the number of votes recorded thereon in favour of candidates not belonging to the Scheduled Castes exceeds the number of seats in that constituency not reserved for members of those castes.

(3) The decision of the Returning Officer as to the validity of a ballot paper shall be final, subject only to reversal by the orders of a Court of competent jurisdiction.

44. The Returning Officer shall not open the sealed packets of the tendered votes, the marked copy of the electoral roll or the counterfoils of the ballot papers. He shall verify the statement submitted by the Presiding Officer under rule 39 by comparing it with the statement prepared under clause (a) of rule 42 and with the number of counted votes and the rejected ballot papers, the unused ballot papers in his possession and tendered votes list, shall then reclose and re-seal each packet which has been opened by him, made up into packets the ballot papers which have been counted and seal such packets, and shall record on each packet a description of its contents and the date of the election to which it refers.

45. The Returning Officer shall then prepare and certify a return setting forth—

- (1) the result of the verification referred to in rule 44,
- (2) the names of the candidates for whom valid votes have been given,
- (3) the number of valid votes given for each candidate,
- (4) the name or names of the candidate or candidates selected,
- (5) the number of votes declared invalid, and
- (6) the number of tendered votes given,

and shall permit any candidate or any representative duly authorised under sub-section (5) of section 29 of the Act to take a copy of or an extract from such return.

46. The Returning Officer shall, after reporting the result of the election send the return and all packets relating to the election in his possession to the Election Officer. The Election Officer as soon as he receives the return and the packets shall forward them to the Executive Officer for safe custody.

47. While in the custody of the Executive Officer the packets of ballot papers, whether counted, rejected or tendered, and of the counterfoils thereof, shall not be opened and their contents shall not be inspected or produced except under the order of a Court of competent jurisdiction but all other documents relating to the election shall be open to public inspection subject to such conditions as the Executive Officer may impose.

48. The packets aforesaid shall be retained for a period of one year and shall thereafter be destroyed subject to any direction to the contrary made by the Executive Officer or by a Court of competent jurisdiction.

(2) Any subscriber who has discontinued subscribing to the Fund under sub-rule (1) may resume subscription at any time.

(3) No subscription shall be payable after the expiry of twelve months from the date on which the present war is declared to have terminated.

Nominations.

6. (1) The Account Officer shall as soon as may be after a subscriber joins the Fund, require him to make a nomination conferring the right to receive the amount that may stand to his credit in the Fund in the event of his death before the amount standing to his credit has become payable, or where the amount has become payable, before payment has been made.

(2) A subscriber who, at the time of joining the Fund, has a family shall send to the Account Officer a nomination in the Form set forth in the First Schedule in favour of one or more members of his family.

(3) A subscriber who has no family shall similarly nominate a person or persons in the Form set forth in the Second Schedule:

Provided that a nomination made under this sub-rule shall be deemed to have been duly made in accordance with these rules only for so long as the subscriber has no family.

(4) If a subscriber at any time acquires a family, he shall send to the Account Officer a nomination as provided in sub-rule (2), and, if he has under sub-rule (3) nominated any person other than a member of his family, he shall formally cancel the previous nomination.

(5) A subscriber may in his nomination distribute the amount that may stand to his credit in the Fund amongst his nominees at his own discretion.

(6) A nomination may be cancelled by a subscriber provided that it is replaced at the same time by any other nomination which is permitted to be made under this rule.

(7) A nomination shall take effect to the extent that it is valid on the date on which it is received by the Account Officer.

(8) On the death of a nominee, a subscriber shall make a fresh nomination.

Subscriber's Accounts.

7. An account shall be prepared in the name of each subscriber and shall show the amount of his subscriptions with interest thereon calculated in the manner prescribed in rule 12.

Conditions and rates of subscriptions.

8. (1) Except as provided in rule 5 a subscriber shall subscribe monthly to the Fund: Provided that a subscriber may at his option elect not to subscribe during a period of suspension or leave.

(2) The subscriber shall intimate his election not to subscribe during a period of suspension or leave in the following manner:—

(a) If he is an officer who draws his own pay bills, by making no deduction on account of subscription in his first pay bill drawn after the date on which he is suspended or after proceeding on leave;

(b) If he is not an officer who draws his own pay bills, by written communication to the head of his office before he proceeds on leave or within a fortnight of the date on which he is suspended. Failure to make due and timely intimation shall be deemed to constitute an election to subscribe.

The option of a subscriber intimated under this sub-rule shall be final.

9. (1) The amount of subscription shall be fixed by the subscriber himself in whole rupees:

Provided that, if the pay of the subscriber does not exceed fifty rupees a month, the amount may be any multiple of a half-rupee.

(2) The subscriber shall intimate the fixation of the amount of his monthly subscription in each year by the first deduction during that year which he makes in this behalf from his pay bill, and the amount of subscription so fixed shall remain unchanged throughout the year:

Provided that if a subscriber is on duty for part of a month and on leave or suspension for the remainder of that month and if he has elected not to subscribe during leave or suspension, the amount of the subscription payable shall be proportionate to the number of days spent on duty in the month.

10. When a subscriber is transferred to foreign service or sent on deputation out of India, he shall remain subject to the rules of the Fund in the same manner as if he were not so transferred or sent on deputation.

Realisation of subscriptions.

11. Subscriptions shall be recovered from pay bills if drawn from a Government treasury in India or from the Home or Colonial Treasury. Where pay bills are not so drawn, the subscriber shall forward his subscription monthly to the Account Officer.

Interest.

12. (1) Government shall pay to the credit of the account of a subscriber interest at the rate of three per cent. per annum.

(2) Interest shall be credited with effect from last day in each year in the following manner:—

(i) on the amount at the credit of a subscriber on the last day of the preceding year—interest for 12 months;

(ii) on all sums credited to the subscriber's account after the last day of the preceding year—interest from the date of deposit up to the end of the current year;

(iii) the total amount of interest shall be rounded to the nearest anna.

Provided that when the amount standing at the credit of a subscriber has become payable, interest shall thereupon be credited under this sub-rule in respect only of the period from the beginning of the current year or from the date of deposit, as the case may be, up to the date on which the amount standing at the credit of the subscriber became payable.

(3) In this rule, the date of deposit shall, in the case of a recovery from pay bills, be deemed to be the first day of the month in which it is recovered: and in the case of an amount forwarded by the subscriber, shall be deemed to be the first day of the month of receipt, if it is received by the Account Officer before the fifth day of that month, but if it is received on or after the fifth day of that month, the first day of the next succeeding month.

(4) In addition to any amount to be paid under rules 13 of 14, interest thereon up to the end of the month preceding that in which the payment is made, or up to the end of the sixth month after the month in which such amount became payable, whichever of these periods be less, shall be payable to the person to whom such amount is to be paid:

Provided that where the Account Officer has intimated to that person (or his agent) a date on which he is prepared to make payment in cash, or has posted a cheque in payment to that person, interest shall be payable only up to the end of the month preceding the date so intimated, or the date of posting the cheque as the case may be.

(5) Interest shall not be credited to the account of a subscriber if he informs the Account Officer that he does not wish to receive it, but if he subsequently asks for interest, it shall be credited with effect from the first day of the year in which he asks for it.

Final withdrawals of accumulations in the Fund.

13. The amount standing to the credit of a subscriber shall become payable to him

(a) on his quitting service, or

(b) on the expiry of twelve months from the date on which the present war is declared to have terminated, whichever is earlier:

Provided that the said amount shall not become payable under clause (b) unless the subscriber has, at any time during the six months immediately following the said date on which the war is declared to have terminated intimated in writing,

(i) if he is an officer who draws his own pay bills, to the Account Officer,

- (ii) if he is not an officer who draws his own pay bills, to the head of the office in which he is serving,

his intention to claim payment of the amount under that clause. The option of the subscriber intimated under this rule shall be final.

14. On the death of a subscriber before the amount standing to his credit has become payable, or where the amount has become payable, before payment has been made;

- (i) when the subscriber leaves a family—

(a) if a nomination made by the subscriber in accordance with the provisions of rule 6 in favour of a member or members of his family subsists, the amount standing to his credit in the Fund or the part thereof to which the nomination relates shall become payable to his nominee or nominees in the proportion specified in the nomination;

(b) if no such nomination in favour of a member or members of the family of the subscriber subsists, or if such nomination relates only to a part of the amount standing to his credit in the Fund, the whole amount or the part thereof to which the nomination does not relate, as the case may be, shall, notwithstanding any nomination purporting to be in favour of any person or persons other than a member or members of his family, become payable to the members of his family in equal shares:

Provided that no share shall be payable to—

- (1) sons who have attained legal majority;
- (2) sons of a deceased son who have attained legal majority;
- (3) married daughters whose husbands are alive;
- (4) married daughters of a deceased son whose husbands are alive;

if there is any member of the family other than those specified in clauses (1), (2), (3) and (4):

Provided further that the widow or widows and the child or children of a deceased son shall receive between them in equal parts only the shares which that son would have received if he had survived the subscriber and had been exempted from the provisions of clause (1) of the first proviso;

- (ii) when the subscriber leaves no family, if a nomination made by him in accordance with the provisions of rule 6 in favour of any person or persons subsists, the amount standing to his credit in the Fund or the part thereof to which the nomination relates, shall become payable to his nominee or nominees in the proportion specified in the nomination.

15. (1) When the amount standing to the credit of a subscriber in the Fund becomes payable, it shall be the duty of the Account Officer to make payment, as provided in section 4 of the Provident Funds Act, 1925.

(2) If the person to whom, under these rules, any amount is to be paid, is a lunatic for whose estate a manager has been appointed in this behalf under the Indian Lunacy Act, 1912, the payment will be made to such manager and not to the lunatic.

(3) Any person who desires to claim payment under this rule shall send a written application in that behalf to the Account Officer. Payment of amounts withdrawn shall be made in India only. The persons to whom the amounts are payable shall make their own arrangements to receive payment in India.

Procedural rules.

16. All sums paid into the Fund under these Rules shall be credited in the books of the Central Government to an account named "The Defence Savings Provident Fund". Sums of which payment has not been taken within six months after they become payable under these rules shall be transferred to 'Deposits' at the end of the year and treated under the ordinary rules relating to deposits.

17. When paying a subscription in India, either by deduction from pay bill or in cash, a subscriber shall quote the number of his account in the Fund which shall be communicated to him by the Account Officer. Any change in the number shall similarly be communicated to the subscriber by the Account Officer.

18. (1) As soon as possible after the close of each year the Account Officer shall send to each subscriber a statement of his account in the Fund showing the opening balance as on the 1st April of the year, the total amount credited during the year, the total amount of interest credited as on the 31st March of the year and the closing balance on that date. The Account Officer shall attach to the statement of account an enquiry whether the subscriber

- (a) desires to make any alteration in any nomination made under rule 6;
- (b) has acquired a family in cases where the subscriber has made no nomination in favour of a member of his family under sub-rule (2) of rule 6.

(2) Subscribers should satisfy themselves as to the correctness of the annual statement, and errors should be brought to the notice of the Account Officer within six months from the date of receipt of the statement.

19. (1) These Rules may be altered or amended by the Governor-General in Council at any time, with or without retrospective effect, by a notification published in the Gazette of India and the official Gazettes of all Governors' Provinces.

(2) If any question arises as to the interpretation of these Rules, the decision of the Governor-General in Council thereon shall be final.

If the Admit cards of the candidates of the Title Examination are not received by the candidates or the *Adhyapakas* within a month from the last date of fee-collection, the *Adhyapakas* or the candidates are requested to bring the matter to the notice of the Secretary, Bengal Sanskrit Association.

17. Candidates and their *Adhyapakas* are hereby informed that in sending fees for the Title Examination by money-order, the details, i.e., *number printed on the top of the application*, names and addresses of *Adhyapakas*, the total amount sent, etc., should be clearly written in the money-order coupon. Title Examination fees should not be sent with the fees for the First and Second Examinations.

Money-orders without such details will not be accepted.

No application for the Title Examination should reach the office later than the money-order remitting fees for the same.

If an application is received in due time but the money-order remitting the fee for the same is not received before the last date, the application will not be accepted.

The Secretary regrets to say that unless the above instructions are strictly followed by the candidates or by the *Adhyapakas*, he will be forced to reject the applications.

18. *Adhyapakas* of candidates while sending fees and applications are hereby requested to send a statement, showing the names of his pupils appearing in different subjects, to the Secretary of the local centre in the case of the First and Second Examinations and to the Secretary, Bengal Sanskrit Association, in the case of the Title Examination. (This statement is required in the interests of *Adhyapakas* for adding up marks of candidates for the preparation of stipend list.)

19. Applications for printed copies of application forms for the Title Examination should be made to the Secretary, Bengal Sanskrit Association.

Applications for the Sanskrit Examinations of the year 1941 as notified above should be made in the new forms (differently coloured for the different examinations) introduced this year. Old forms that were in vogue up to the examination held in the year 1940 will not be entertained and will be rejected without any reference to the candidates.

The time of the examinations is from 12 noon to 4 p.m.

STATEMENT OF OBJECTS AND REASONS.

The working of the Bengal Food Adulteration Act, 1919, for the last twenty years has revealed certain defects and lacunæ in the provisions of the Act which have prevented local authorities from taking adequate action under the Act against unscrupulous manufacturers or vendors of adulterated foodstuffs, and have sometimes resulted in the failure of prosecutions in cases sent up for trial. For example, there is at present no provision under the Food Adulteration Act for the registration of the places of manufacture or wholesale business of any article of food, with the result that no adequate control can be exercised at the source where the adulteration mostly takes place. The dealers as well as vendors of certain kinds of food such as ice-cream, which are easily liable to contamination, cannot also be brought under control under the existing provisions of the Act. Again, the Act does not specifically confer on the authorised officer a right of entry into all premises for the prompt inspection and examination of suspected foodstuffs. This sometimes renders difficult the detection of adulterated foodstuffs concealed in private premises. Further, prosecution has failed in many cases because of the delay usually made by the public analyst in submitting the report of analysis, and also on account of the plea that the analysis was not done by himself. The present Bill seeks to remedy all these defects in the Act, and also to make certain correlated and additional provisions with a view to improving the working of the Act, *e.g.*, (1) the appointment of Inspectors either by the Provincial Government or by a local authority with the approval of Government to supervise the administration of the Act, and (2) providing that a prosecution shall be instituted upon receipt from a public analyst of a certificate declaring an article of food to be adulterated.

2. The present Act is restricted only to the prevention of adulteration of food. For the purpose of ensuring purity of food, it is considered desirable to enlarge the scope of the Act in certain respects on the lines of the Food and Drugs Act, 1938 (1 & 2 Geo. 6, Ch. 56) and some of the provisions in the Calcutta Municipal Act, 1923, and the Bengal Municipal Act, 1932, relating to food. Provision has accordingly been made in the Bill—

- (a) for the prevention of the sale of any food or any living thing intended to be used as food, which is diseased, unsound, unwholesome or unfit for human consumption;
- (b) for the prevention of the sale, preparation, etc., of articles of food by persons suffering from certain notified diseases;
- (c) prescribing the sanitary conditions of premises used for the preparation or sale of food and other safeguards against the infection or contamination of articles of food; and
- (d) for the framing of bye-laws by local authorities prescribing sanitary conditions and practices in regard to the handling, wrapping and delivery of food.

3. As a precaution against maladministration a provision has also been made, on the lines of section 93 of the English Act, empowering Government to take suitable action for the execution or enforcement of any of the provisions of the Act which a particular local authority may have failed to execute or enforce, or when a local authority has abused any power conferred upon it by or under this Act, and when such failure or abuse is to the detriment of the general interests of the consumers of food,—the necessary cost being recovered from the local authority concerned.

4. Opportunity has also been taken to improve the wording of certain sections of the existing Act on the lines of other more recent legislation in India and England, in order to make the intention clear and to remove ambiguity as far as possible.

CALCUTTA,

The 19th August, 1940.

Notes on clauses.

Clause 1.—The Bengal Food Adulteration Act, 1919 (Bengal Act VI of 1919) does not extend to Calcutta. The present Bill extends to the whole of Bengal, but the Provincial Government is given power to bring it into force, either wholly or in part, in such areas, on such dates and in respect of such articles of food as may be thought fit. The provisions of this clause should be read in conjunction with the provisions of clause 36.

Clause 3.—The definition of “adulterated” is based on that which appears in section 3 of the Calcutta Municipal Act (Bengal Act III of 1923). The definitions of “container”, “food” and “transit” are based on similar definitions in the Food and Drugs Act, 1938 (1 & 2 Geo. 6, Ch. 56). The definition of “dairy” is taken from the Calcutta Municipal Act, 1923. The definition of “sale” is based upon that which appears in section 3 of the Punjab Pure Food Act, 1929.

Clause 4 corresponds to section 3 of the Bengal Food Adulteration Act, 1919, with certain additional provisions which are parallel to those of section 66, Food and Drugs Act, 1938.

Clause 5 corresponds to section 4, Bengal Food Adulteration Act, 1919, with the addition, in sub-clause (3), of a provision on the lines of section 3 (2), Food and Drugs Act, 1938.

Clauses 6 and 7 follow the lines of sections 5 and 6, Bengal Food Adulteration Act, 1919. Numerous drafting improvements have been introduced, and certain additional provisions have been taken from section 4, Food and Drugs Act, 1938.

Clause 8 corresponds to clause 7, Bengal Food Adulteration Act, 1919, with certain drafting changes.

Clause 9.—This clause is modelled on sections 412 and 421 of the Calcutta Municipal Act, 1923, and the Bengal Municipal Act, 1932, respectively.

Clause 10 is based on section 6 (1), Food and Drugs Act, 1938.

Clause 11.—Precedents for the provisions of this clause will be found in section 6 (2) of the Madras Prevention of Adulteration Act, 1918, sections 5 (2) and 6 of the Central Provinces Prevention of Adulteration Act, 1919, sections 4 (3) and 4 (4) (a) of the Bombay Prevention of Adulteration Act, 1925, and section 84 of the Food and Drugs Act, 1938.

Clause 12.—Sections 17A to 17D of the Bombay Prevention of Adulteration Act, 1925, provide for the licensing of certain places used for the wholesale sale or supply of certain perishable articles of food. Section 14 of the Food and Drugs Act, 1938, provides for the registration of premises used for the manufacture or sale of ice-cream or pickled, potted, pressed or preserved foods. This clause makes provision for the registration of all such premises.

Clause 13 is based on the provisions of section 16 (1), Food and Drugs Act, 1938.

Clause 14 introduces a new and desirable principle. It is not possible to provide that food shall be sold only from enclosed rooms, but power is conferred upon the Provincial Government to direct that certain specified foods shall only be sold from covered containers.

Clause 15 is based on the provisions of section 13 (1), Food and Drugs Act, 1938.

Clause 16 follows the lines of section 384, Bengal Municipal Act, 1932.

Clause 17 is based on section 15 (1), Food and Drugs Act, 1938.

Clause 18 is based on section 434, Bengal Municipal Act, 1932.

Clauses 19-21 are redrafts of sections 9-11, Bengal Food Adulteration Act, 1919. Section 70, Food and Drugs Act, 1938, may be seen in this connection.

Clauses 22 and 23 repeat, in redrafted form, the provisions of section 14, Bengal Food Adulteration Act, 1919.

Clause 24 is based on section 74, Food and Drugs Act, 1938.

Clause 25 makes special provision, not merely for the authorization of persons, but also for the appointment of Inspectors, for the proper administration of the provisions of the Bill.

Clauses 26-28 are elaborations of sections 12 and 13, Bengal Food Adulteration Act, 1919. Section 77 (1), Food and Drugs Act, 1938, may be seen in this connection.

Clause 29 is an elaboration of sections 15 and 17, Bengal Food Adulteration Act, 1919.

Clauses 30 and 31 correspond to sections 16 and 19, Bengal Food Adulteration Act, 1919.

Clause 32 is the usual indemnity clause, and finds parallels in section 18 of the Bombay Prevention of Adulteration Act, 1925, and section 94 (1), Food and Drugs Act, 1938.

Clause 33 follows the lines of section 21, Bengal Food Adulteration Act, 1919, with the additional penalties, required by the introduction of numerous new provisions in this Bill.

Clause 34 inserts a new provision for the payment of the costs of analysis, examination and prosecutions.

Clause 35 follows the lines of section 93, Food and Drugs Act, 1938.

Clause 36 makes it clear that the provisions of this Bill will override the provisions of the Calcutta Municipal Act, 1923, and the Bengal Municipal Act, 1932, relating to the control of food, if any inconsistency occurs. It also confers power upon the Provincial Government to remove difficulties in this connection. As regards sub-clause (1), the provisions of section 107 (1), Government of India Act, 1935 (26, Geo. 5, Ch. 2) may be seen. Sub-clause (2) is based on section 44, Calcutta Municipal Act, 1923.

Clause 37 corresponds to section 20, Bengal Food Adulteration Act, 1919, with certain consequential additions.

The Schedule corresponds to the Schedule to the Bengal Food Adulteration Act, 1919, with certain minor drafting changes.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 1322L.C.—14th August 1940.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

**THE BENGAL JUVENILE SMOKING (AMENDMENT)
BILL, 1940.**

A

BILL

to amend the Juvenile Smoking Act of 1919.

WHEREAS it is expedient further to amend the Bengal Juvenile Smoking Act, 1919, in the manner hereafter appearing; It is hereby enacted as follows:—

This Act may be called the Bengal Juvenile Smoking Amendment Act, 1938.

1. The sub-sections (2) and (3) of the Bengal Juvenile Smoking Act of 1919 shall be deleted, in its place the following sub-section as sub-section (2) shall be substituted:—

“(2) It extends to the whole of Bengal.”

2. In section 2 of the said Act after clause (c), the following shall be added as clause (d):—

“(d) ‘Public place’ means any place to which the public for the time being has access whether on payment or otherwise and includes a railway station and a railway carriage.”

3. Section 4 of the said Act be omitted and the following shall be added in the said Act as section 4:—

“4. Whoever sells or gives or attempts to sell or give to a child apparently under the age of sixteen years any tobacco or cigarette whether for his own use or not, shall be liable on conviction by a Magistrate in the case of first offence to a fine not exceeding ten rupees and in the case of a second offence to a fine not exceeding twenty rupees, and in the case of a third offence or subsequent offences to a fine not exceeding fifty rupees.”

4. Section 5 of the said Act shall be omitted and the following shall be added as section 5 and section 6 and the existing section 6 shall be renumbered as section 7:—

“5. If any boy apparently under the age of sixteen years be found smoking tobacco or cigarette in any public place, it shall be lawful for any chaukidar, dafadar, teacher of a recognised school, or affiliated college, member of a municipal board, member of a district board, member of a union board, Executive Officer and Councillor and Aldermen of Calcutta Corporation, registered medical practitioners, legal practitioners, any municipal or district board officer drawing a monthly salary of not less than Rs. 25 or any Magistrate to seize such tobacco or cigarette and destroy it.”

“6. The local Government may confer on any bench of Magistrate invested with the powers of a Magistrate of the second or third class power to try summarily any offence under this Act.”

STATEMENT OF OBJECTS AND REASONS.

It is a fact that the Bengal Juvenile Smoking Act of 1919 though still in force has become a dead letter owing to the defects inherent in it. So it is desirable that it should be amended in such way that it may be worked for the benefit of persons concerned. So I propose to give power to all persons enumerated in the proposed section to seize and destroy tobacco.

**THE BENGAL MONEY-LENDERS (AMENDMENT)
BILL, 1940.**

**A
BILL.**

to amend the Bengal Money-lenders Act, 1933.

WHEREAS it is expedient to amend the Bengal Money-lenders Act, 1933, in the manner hereinafter appearing;

It is hereby enacted as follows:—

1. This Act may be called the Bengal Money-lenders (Amendment) Act, 1937.

2. In section 3 of the Bengal Money-lenders Act, 1933 (hereafter referred to as the said Act), in the 8th line of the said section after the words "the court shall," the words "until the contrary is proved" shall be omitted and in place of the words "fifteen and twenty-five per centum" wherever these words occur in this and other sections of the said Act, the words "twelve and eighteen per centum" shall be substituted.

3. For section 4 of the said Act, the following section as section 4 shall be substituted: "Notwithstanding anything in any other Act, where in any suit or proceeding in respect of any money lent by a money-lender before the commencement of this Act it is found that the interest accruing on the money lent amounts to a sum greater than the principal of the loan, the court shall limit the amount of such interest payable on the loan to an amount equal to 2/3rds of the principal of the loan."

4. In section 5 of the said Act in the second line for the words "ten per centum per annum" the words "6½ per centum per annum" shall be substituted.

5. In place of section 6 of the said Act the following section shall be substituted: "No court shall, in respect of any loan made after the commencement of this Act, decree on account of interest a sum greater than 2/3rds of the principal of the loan."

STATEMENT OF OBJECTS AND REASONS.

Since the passing of the Bengal Money-lenders Act of 1933, the money market has become still cheaper and the rate of interest has been reduced everywhere considerably hence the necessity of the proposed amendments providing lesser rates of interest.

BILL

further to amend the Bengal Municipal Act of 1932.

WHEREAS it is expedient further to amend the Bengal Municipal Act of 1932 in the manner hereinafter appearing ;

It is hereby enacted as follows :—

This Act may be called the Bengal Municipal Amendment Act of 1937.

It extends to the whole of Bengal.

1. From section 16 of the Bengal Municipal Act, 1932, the words "three-fourths of " be deleted ; provisos (1) and (3) also be deleted from that section.

2. Section 17 of the said Act also be omitted.

3. For section 18 substitute the following :—

"Notwithstanding anything contained in section 16 the local Government by notification, stating the special circumstances may, in the case of a Municipality the development of which is dependant on the concentration of industry or industries, appoint Commissioners not exceeding one-fifth of the total number of Commissioners in order to secure the proper representation of such industry or industries and of labour employed therein or create special constituencies for the same or reserve seats for the same in the general constituency."

4. Omit words "or section 17" from the 4th line of section 19, sub-section (1).

5. Substitute the following in place of section 23, sub-section (2) and the rest of section 23 except sub-section (1):—

"A person shall not be entitled to vote at an election of Commissioners in any Municipality unless such person has attained the age of 21 years and is a British subject or the subject of any State in India, or being an alien has been exempted from the disabilities imposed by the Bengal (Aliens) Disqualification Act of 1918, and has for a period of not less than full twelve months been resident within the limits of the Municipality, or has for the said period immediately preceding the election been owner of a holding, or been in occupation of a holding within the Municipal limit."

6. In section 24, sub-section (3), after the words "every fifth-year" add—

"Counting from the date of the 1st meeting of the newly elected Commissioners as mentioned in sub-section (1) of section 24."

7. In section 56, sub-section (1)(a)(b), sub-sections (2), (3), (4) and (5), substitute the words "five years" in place of words "four years" wherever it occurs in that section.

8. After sub-section (3) of section 108 add as sub-section (4)—

provided that every Municipality shall have to spend at least 10 per cent. of its income in primary education.

*The Bengal Municipal (Amendment) Bill, 1940.**(Clauses 9—14.)*

9. In section 125, sub-section (1), clause (b), after the word "agriculture" in the second line *add* "or any holding which is used exclusively as a place of worship to which the public have free access without payment."

10. In section 126, sub-section (1), clause (b) *add* after "within such area" in the fourth line, "on holding exclusively used as a place of public worship."

11. In section 166 after the word "rate" in the third line, *add* "or any other municipal due."

12. In section 302, sub-sections (1) and (2), *substitute* the word "owner" in place of the word "occupier" wherever it occurs and *omit* sub-sections (3) to (6) from that section.

13. In section 309, sub-section (1), after (g) *add* a new clause (h) as follows:—

(h) On non-payment of excess water charges after Bill and demand Bills have been duly served.

14. At the end of section 423 *add* "on payment of such fee as fixed by the Municipal Commissioners at a meeting held from time to time for the purpose."

STATEMENT OF OBJECTS AND REASONS.

With the widening of franchise and abolition of nominated block from provincial assemblies and with the redevelopment of democracy, it has become imperative to do away with the nominated block from the Municipal bodies to introduce adult franchise to keep pace with the progressive countries.

Clause 2.—With the doing away of the system of Government nomination this provision in section 17 would not be necessary.

Clause 3.—This gives powers to appoint Commissioners to represent labour or reserve seats for the same.

Clause 4.—In section 17 it is omitted, so the reproduction of it in section 19 has to be omitted.

Clause 5.—This is a most important clause. It proposes to introduce adult franchise at least in all urban areas. There is a great demand for introduction of adult franchise and urban areas are the fit places where this may be tried before it is introduced throughout the whole country.

Clause 6.—This proposes to increase the life of a Municipal Corporation from 4 to 5 years. This is necessary in view of the fact that the life of provincial assemblies and that of a district board under some conditions have already been increased from 4 to 5 years and there is no reason why the life of a Municipal Board should not be increased.

Clause 7.—This is necessary in view of the proposal embodied in clause 6.

Clause 8.—This is necessary to compel the Municipal Corporation to pay more attention to Primary Education. Though Act of 1919 was passed and Mr. Biss submitted his scheme long ago, few Municipalities have taken advantage of this Act.

There is no denying the fact that most of the Municipal Boards show very little interest in this direction, hence the necessity of adding such provision as proposed.

Clauses 9 and 10.—The mosques, temples, churches, i.e., all places of public worship, have been exempted from payment of house rate but have been made liable to payment of water and conservancy rates. As there is no owner of these religious places, the impositions made by way of water rate and conservancy simply accumulates year after year and have to be remitted as irrecoverable, hence the necessity of the proposed restriction in imposition of conservancy and water rates.

Clause 11.—This is necessary in view of proposed substitution of the word "owner" in place of "occupier" as in subsequent clause 12.

Clause 12.—This is necessary as occupiers are changing body and often leave the holding without giving previous notice and in practical working it is found that it is not easy to realise excess water charges from the occupiers who often change holding and leave the Municipality for ever. As the owner is not liable, the Municipal Board suffer yearly loss on account of non-realisation of excess water charges and ultimate writing off the same on ground of irrecoverability.

Clause 13.—This is necessary for speedy realisation of excess water charges.

Clause 14.—This is necessary to clear the present doubt.

**THE EASTERN BENGAL AND ASSAM DISORDERLY

‘ Prostitution ’ means promiscuous sexual intercourse for hire, whether in money or kind. ”

3. In the third line of section 2 of the said Act after the words “ occupied by students ” the words “ or any place of public worship or recreation ” shall be inserted.

4. After section 7 of the said Act, the following shall be added as sections 8 and 9 :—

“ 8. (1) The Commissioners of any municipality may at any time cause a notice to be served upon any person who occupies, manages, or acts or assists in the management of or upon any woman who resides in, use or frequents any house, room or place or any part thereof, in any municipal area in which the business of a common prostitute is carried on, requiring such person or woman after a date to be mentioned in the notice which shall not be less than seven days from the date of the notice, not to reside in, use or frequent the said house, room or place, or any part thereof, or directing such person or woman after a date to be mentioned and fixed as aforesaid to remove himself or herself to such place, whether within or without the municipal area within such time as the Commissioners of a Municipal Board shall prescribe and select for the purpose.

(Amendment) Bill, 1940.*

(Clause 5.)

(3) Any person on whom a notice under this section shall have been served disobeying the requisition therein contained, shall be punished with imprisonment for a term which may extend—

- (a) in the case of a first offence to one month, and
- (b) in the case of a second or subsequent offence to three months.

(4) Whoever, within two years from the date of his or her removal under the provisions of this section, returns to any place within the municipal area from which he was removed without the permission in writing of the Municipal Commissioners of the Municipality concerned, shall be punished with imprisonment for a term which may extend to two years or fine or with both.

9. (1) Any person who procures or attempts to procure any woman or girl, whether with or without her consent, to become a prostitute or who, with intent that she may for the purpose of prostitution become the inmate of or frequent brothel, persuade a woman or girl to leave her usual place of abode, shall be punished with imprisonment which may extend to two years or with fine which may extend to five hundred rupees or with both.

(2) Any person, who brings or attempts to bring into any municipal area in Bengal any woman or girl with a view to her becoming a prostitute, shall be punished with imprisonment which may extend to one year or with fine which may extend to three hundred rupees or with both.

(3) Whoever detains any woman or girl against her will—

- (a) in any house, room or place in which the business of a common prostitute is carried in, or
- (b) in or upon any premises with intent that she may have sexual intercourse with any man, other than her husband, whether with a particular man or generally shall be punished with imprisonment which may extend to three months or with fine which may extend to two hundred and fifty rupees or with both.

(4) Any person who—

- (a) being the owner, tenant, lessor, occupier or person in charge of any premises, knowingly permits such premises or any part thereof to be used as brothel, or
- (b) being the lessor or landlord of any premises, or agent of such lessor or landlord, lets the same or any part thereof, with the knowledge that the same or any part thereof, may be used as a brothel or is wilfully a party to the continued use of such premises or any part thereof as a brothel; shall be punished with imprisonment, which may extend to three months, or with fine which may extend to five hundred rupees or with both."

5. In section 5 of the said Act in the 1st line after words "prosecution under" for word "section 3" the words "sections 3, 8 and 9" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

The main aim of this simple amending Bill is to give necessary power to the Municipal Commissioners of Municipal Board in Bengal to regulate the evil of prostitution within its jurisdiction. It is known that prostitutes at present reside in the municipality wherever they like and carry on their nefarious profession to the great annoyance of the neighbouring peoples, sometimes they purchase land and house in the middle of a respectable quarters. So it is necessary that the Municipal Commissioners shall have power to regulate prostitutes in any municipal town. The Bengal Suppression of Immoral Traffic Act of 1933 is enforced only in Calcutta and the Eastern Bengal and Assam Disorderly House Act, 1907, is in force in all municipalities. It is desirable that the growth of immoral traffic in women and girls should be checked by all means, hence there is necessity of some provision like that of proposed one in section 9 of the amending Bill.

No. 1328L.C.—14th August 1940.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL LAND-REVENUE SALES (AMENDMENT)
BILL, 1940.

A

BILL

to amend the Bengal Land-revenue Sales Act (Act XI of 1859).

WHEREAS it is expedient further to amend the Bengal Land-revenue Sales Act XI of 1859 in the manner herein-after appearing ;

It is hereby enacted as follows :—

This Act may be called the Bengal Land-revenue Sales (Amendment) Act of 1940.

It extends to the whole of Bengal.

After section 37 of the Bengal Land-revenue Sales Act XI of 1859, the following new sections may be inserted as sections 37A, 37B and 37C, respectively :—

37A. Where immovable property has been sold for non-payment of revenue or other due in due time under the provisions of the Bengal Land-revenue Sales Act, any person, either owning such property, holding an interest therein, or any person whose interests affected by the sale may, at any time within thirty days from the date of the sale, apply to the collector or the officer holding the sale on his depositing in the court of collector or the officer holding the sale—

(a) For payment to the collector or the officer holding the sale the amount specified in the notice or proclamation of sale as that for the recovery of which the sale was ordered, with interest calculated from the date of the certificate to the date when the deposit is made at the rate of 6 per cent.

(b) For payment to the purchaser as penalty a sum equal to 5 per cent. of the purchase money but not less than rupee one and for payment to the collector where sale is held for a public demand payable to the collector such outstanding charge due to the Government under any law for the time being in force as the collector certifies to be payable by the applicant or by the estate in default.

37B. (a) When in the case of an application under section 37A the deposit required by that section is made within thirty days from the date of sale, the collector or any officer empowered by him shall make an order setting aside the sale provided that no order shall be made unless notice of the application has been given to all.

(b) No suit to set aside an order made under this section shall be brought by any person against whom such order is made.

37C. Where a sale of immovable property is set aside under section 37B, the purchaser shall be entitled to an order for refund of his purchase with the penalty, or to an order of repayment, with or without interest, as the court may direct, against any person to whom it has been paid, as the case may be.

STATEMENT OF OBJECTS AND REASONS.

Clauses 37A, B and C are proposed to be inserted in order to provide some opportunity to the owners and the persons having interest in the immovable property which are sold at auction under the provision of the Bengal Land-revenue Sales Act XI of 1859 as are provided by order 21, rule 89 of the Indian Civil Procedure Code and provision of Public Demands Recovery Act of 1913. Recently, similar provisions have been made in the cases of sales of Patni Taluka. The absence of a provision of law similar to the proposed one is causing hardship and suffering to the proprietors and the persons affected by the sale in more than one way. In majority of cases the estates are sold not so much for the fault of the proprietors as for other causes and without the knowledge of actual proprietor and persons affected by the sale. Sometimes minor owners lose all by the sale brought about by some designing person. Sometimes some of the co-sharers deceitfully bring about the sale of the estate and purchase in favour of some of their relations or protégés in order to deprive some other co-sharer of due share in the estate. The Government revenue would not be affected as the proposed conditions for setting aside the sale are stringent enough to ensure the realisation of Government dues.

17. Omit sub-clause (a) from sub-section (2) of section 18.

18. Omit section 21 and section 17A.

STATEMENT OF OBJECTS AND REASONS.

It is universally admitted that there is a necessity of a great improvement in the condition of primary education in Bengal.

There is a great demand for free and compulsory primary education which is the foundation on which alone a nation's progress in all spheres of life rests, and it is thought the only remedy for the removal of mass illiteracy. To remedy this state of affairs the Primary Education Act, of which Mr. Surendra Nath Roy was the author, was passed in 1919 and though more than 16 years have passed, it has produced very little effect. Out of 128 Municipalities only one Municipality, viz., Chittagong, has introduced free and compulsory primary education, and that also for boys only, because the option in the matter was left to the discretion of local bodies. Similarly the scheme prepared by Mr. Biss under which Government undertake to pay half the cost, both capital and recurring, of primary education in any town has made little headway and because local bodies have proved reluctant to find even half the necessary funds. So it is necessary that some much more drastic and effective steps should be taken to compel the Municipalities to introduce free and compulsory primary education in the course of 5 years.

The main objects of this amending Bill are—

- (1) To provide compulsory attendance at school of all children of ages between 6 to 11 years within the course of five years.
- (2) To make provision for religious instruction in primary schools.

(2) If within such time as prescribed in sub-section (1) no complaint has been made or if such seizure is confirmed, the article seized shall be confiscated, and shall be destroyed or otherwise disposed of so as to prevent its being used for human consumption at the cost of the person in whose possession it was at the time of its seizure and such cost shall be realised as if it were a fine imposed under this Act."

In the case of any conviction under this Act the convicting Magistrate may order that any food to which the conviction relates and which has been found to be unfit for human consumption together with all packages or vessels containing the same, shall be confiscated and disposed of as the Magistrate may direct.

13B. When any person is convicted of an offence under this Act, the Magistrate may order that all fees and other expenses incidental to the analysis of any food in respect of which the conviction is made shall be paid by the person convicted in addition to the fine, if any, to which he may be sentenced, and the amount of such fees and expense may be recovered as if it were a fine under this Act."

14. At the end of section 19 of the said Act the words "and every police officer shall be bound to help the persons authorised under this Act to make seizure or take sample or in carrying out the provisions of this Act in any other way whenever a requisition is made to him in writing by the persons concerned" shall be inserted.

*The Bengal Food Adulteration (Amendment) Bill, 1940.**(Clauses 15, 16.)*

15. In column 4 of Chapter III in section 21 the words "five hundred" in cases of sections 10 and 12 shall be substituted for the words "two hundred".

16. After section 19 of the said Act the following sections shall be inserted (section 19A and section 19B):—

" 19A. No person shall directly or indirectly sell, offer or expose for sale or manufacture or store for sale any specific article of food except under a license containing such conditions and terms as prescribed by the local authority or the Local Government as the case may be.

19B. Whoever shall directly or indirectly sell, or offer or expose for sale or manufacture or store for sale any article of food without previously obtaining such license from the local authority or the Local Government or in contravention of conditions and terms of such license shall be punished with fine not exceeding Rs. 200 for first offence and for second or subsequent offence with fine which may extend to rupees one thousand or imprisonment of either description not exceeding three months or with both."

STATEMENT OF OBJECTS AND REASONS.

The Bengal Food Adulteration Act of 1919 stands in need of amendment in the light of the altered circumstances in the wording of the Act as it stands now various loopholes have been detected. The unscrupulous sellers taking advantage of these defective provisions of the law adopt various devices to frustrate the purpose of the law. Some of the sellers sell large quantities of linseed oil as mustard oil to the ignorant and unsuspecting simple consumers.

Some of them stock and sell adulterated mustard oil but declare the same as mixed oil, not for human consumption but for machineries, soap-making, etc., but in reality they sell it for human consumption. Sometimes dealers previously convicted for selling or manufacturing adulterated food change the names of their firms to avoid punishment prescribed for second or subsequent offence.

Sometimes the wholesale dealers in food refuse to allow the examination of the food to be made or the taking of samples by the health staff on the ground that the keys of the godown are not with him. Some cunning dealers in milk declare their milk as mixed milk in order to avoid the penal provision of the law. In some cases dealers in food intentionally give fictitious names to adulterated mustard oil, ghee, etc., stored by them for sale and refuse to give sample of the same for analysis on the false plea that these articles are not notified articles. Sometime sellers of food give false names even false fathers' names and addresses to avoid prosecution. In some cases the accused cannot be traced for want of correct names and addresses.

Hence there is necessity of amending the Act in the proposed manner in order to make the Act elastic enough, so that no real offender can escape the punishment prescribed by the law. There is no denying the fact that pure food is one of the most important factors in producing a healthy and wealthy nation. Of recent the percentage of adulterated food has abnormally increased to the deterioration of the health of the people. Instances are not wanting in which case even the members of a family died on taking adulterated food. The provincial Acts of some other provinces contain similar provisions as proposed in this amendment.

*The Bengal Public Demands Recovery (Amendment) Bill,
1940.*

(Clauses 5—10.)

Explanation.—In the calculation of the means of the judgment debtor for the purpose of clause (b) there shall be left out of account any property which, by or under any law or custom having the force of law for the time being in force is exempt from attachment in execution of the decree,

(c) when a certificate debtor appears before the certificate officer in obedience to a notice under this section to show cause, the certificate officer shall proceed to hear the certificate holders and take all such evidence as may be produced by him in support of his application for execution, and shall then give the certificate debtor an opportunity of showing cause why he should not be committed to the civil prison ;

(i) pending the conclusion of the enquiry under this clause the certificate officer may, in his discretion, order the certificate debtor to be detained in the custody of an officer of the court or release him on his furnishing security to the satisfaction of the certificate officer for his appearance when required,

5. In sub-clause (a) of sub-section (1) of section 31 in place of the words "six months" the words "one and half month" shall be substituted.

6. At the end of section 34 of the said Act after the words "as the court may allow" the words "not exceeding five per centum" shall be added.

7. The whole of sections 60, 62, 63 and 64 of the said Act are hereby repealed.

8. From rule 9 of schedule I of the said Act, the words "or any local authority" shall be omitted.

9. The following shall be added as rule 14 of schedule of the said Act: "Any money or dues payable to a local authority such as Municipality, District Board or Local Board."

10. In the first line of the sub-section of section 77, the word "may" after the words "The certificate officer" shall be replaced by the word "shall".

STATEMENT OF OBJECTS AND REASONS.

This Bill seeks to amend the Bengal Public Demands Recovery Act, 1913, so as to protect honest debtor from detention in civil prison and to confine such detention to debtors proved to be recalcitrant or fraudulent and dishonest. It also provides that no order for execution by detention or imprisonment shall be issued unless the debtor has been given an opportunity of showing cause why he should not be committed to prison and the certificate officer is satisfied for reasons recorded on writing that (i) the certificate debtor is likely to leave the local limits of the jurisdiction of the court or has after the filing of the certificate fraudulently disposed of his property and (ii) that he is able to pay the amount of the certificate debt otherwise than from the protected assets. In this no new departure is made. The Government has already adopted this principle as the outcome of the recommendation of the Royal Commission on Labour and the Act No. XXI of 1936 has already been passed by the Central Legislatures embodying similar provision in the Civil Procedure Code. Secondly, it seeks to reduce the rate of interest charged under section 22 of the Act by half. This is necessary owing to distress prevailing in the country and owing to the fact that on account of this present high rates of interest the certificate debtor or the person affected by the sale cannot get the sale set aside by making deposit. It often happens that the deposit is made one or two years after from the date of the certificate and the interest accumulates at the present high rate. The present high rate is causing great hardship to the certificate debtors. The Government of Bengal has already accepted this principle by reducing the interest under the Bengal Tenancy Act of 1928 from 12 per cent. to 6½ per cent. in the proposed Bengal Tenancy Amending Act (already published in the *Calcutta Gazette* of 27th August, 1937). Thirdly, it seeks to repeal sections 60, 62, 63 and 64 from the Act. This is necessary to give relief to the cultivators and tenants and more so as the Government has already proposed in the above-mentioned amending Act to do away with Chapter XIII A of the Bengal Tenancy Act. So these sections have to be repealed for the best interest of the *raiyats*. Fourthly, it further seeks to give power to the local authority to realise their dues under the provision of the Act. It will be advantageous both to local authorities and provisions affected as it will minimise to large extent cost of realization.

STATEMENT OF OBJECTS AND REASONS.

The aim and object in introducing this important piece of legislation is to ameliorate the condition of Bus Drivers and Conductors.

The Bus Service in Bengal has been growing in importance for a decade and a half. Not only has it rapidly grown as a profitable commercial proposition and increasingly attracted capital from all directions, but as a primary utility concern, it has become one of the bases of the economic life of the province. In order to maintain their balance of profit in the face of this growing competition, owners of buses have been imposing progressive cuts on the wages of the Drivers and Conductors. On the other hand, working hours have been forced up, resulting in a severe diminution in the meagre subsistence of this class of important workers. This Bill seeks to regulate the condition of employment of Bus Drivers and Conductors and secure their interest as well as those of the trade itself.

STATEMENT OF OBJECTS AND REASONS.

Domestic servants constitute an important section of the community who have many obligations but hardly any rights. They add to the comfort and grace of life, but are denied some of the most elementary conditions for living a decent human life. The semi-feudal condition of Indian society has till now made it difficult to guarantee them any of the rights which membership of the State ought to confer. The present Bill proposes to offer them some of the rudimentary rights which other classes of workers in society have already secured. For the purpose some limitation of working hours, provision of daily and weekly rest and the recognition of right to leave and notice before dismissal are provided in the Bill. It is recognised that it would be difficult to extend these rights to rural areas and the Bill therefore contemplates the case of domestic servants in municipal areas alone. In a word, the betterment of the conditions of life and service of this humble but extremely important class of social workers is the object of the Bill.

**THE BENGAL ESTATES PARTITION (ACT V
OF 1907) AMENDMENT BILL, 1940.**

WHEREAS it is expedient to further amend the Act relating to the Partition of Estates;

It is hereby enacted as follows:—

1. This Act may be called the Estates Partition (Amendment) Act of 1940.

2. It shall come into force on the day of publication in the *Calcutta Gazette*.

3. Insert the words "whether paying revenue or not" after the word "lands" and before the word "which" in line 1, and insert "Revenue-free" after the last word "Revenue" in clause IX of section 3, in page 3 of the Manual.

4. Insert the following after the words "has knowledge" in line 8 of section 19(7), page 9 of the Manual:—

"The rent roll is not required to be filled with the application in cases where the record-of-rights have been prepared and finally published."

5. Insert the following after the word "partition" at the end of clause (c) in section 50, page 19 of the Manual:—

"But this is not to be done in cases where the record-of-rights have been prepared by the District Settlement Authorities."

6. Insert the word "certified" before the word "Extract" wherever it occurs in clauses (a), (b), (c) and sub-section (2) of section 59, page 22 of the Manual.

7. Insert the following as a new section 93(A) after section 93, page 32:—

"The Collector shall rectify any mistake or irregularity which may arise in the proceedings at any stage."

STATEMENT OF OBJECTS AND REASONS.

1. There is no provision in the Estates Partition Act for the partition of the lands of the revenue-free estates. The proprietors of the big revenue-free estates suffer much in realising rents and cesses from the common tenants as well as in the payment of cesses. So there should be a provision for the partition of these estates.

2. Rent roll of the estate is not required to be filed with the application of those districts where the record-of-rights has been prepared. Generally it is not done, as the record-of-rights shows all the particulars.

3. In cases where the record-of-rights has been prepared and finally published, the issue of notices upon the proprietors of the adjoining estates is not required, as the boundary of each village has been settled by the Settlement Authorities. It has been found in experience that after the Settlement Operations there exists no boundary dispute between the proprietors of the adjoining estates and they never appear to dispute the possession of the estate under partition, moreover, it takes lots of time to serve the notices on the proprietors of the adjoining estates and it also increases the cost of the estate under partition.

4. If the extracts supplied to the proprietors be not certified, they cannot be used as evidence in any court of law and the proprietors have to take separate certified copies from the original.

5. There is no provision in the whole Act under which the Collector can rectify any mistake or irregularity which may arise in a partition proceeding.

The aim of this Bill is to remove these difficulties and for this purpose this Bill is introduced.

No. 1358L.C. — 16th August 1940. — In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL NON-AGRICULTURAL TENANCY BILL, 1940.

A

BILL

for protection and welfare of tenants holding lands in permanently-settled estates for non-agricultural purposes.

WHEREAS it is necessary to compel the proprietors and tenure-holders of permanently-settled areas to conduct themselves with good faith and moderation towards their non-agricultural tenants ;

It is enacted as follows :—

1. This Act may be called the Bengal Non-Agricultural Tenancy Act, 1940.

2. It shall apply to permanently-settled areas of the whole of Bengal.

3. It shall come into force with effect from 1st April 1941.

4. *Definition.*—Non-agricultural raiyat means any person holding land for non-agricultural purposes whether for homestead, shop, godown and factory or for any other purpose except for agriculture and horticulture or for sub-letting to under-tenants.

5. In spite of any contract between parties or in spite of anything in the Transfer of Property Act of 1882 non-agricultural raiyats shall not be liable to ejectment except (a) for using the land in such a manner as to lower its value substantially or (b) for sub-letting it :

Provided however that a non-agricultural raiyat not liable to ejectment according to any terms of contract between parties or in accordance with the existing law shall not be liable to ejectment by virtue of this section.

Explanation.—Sub-letting shall not include temporary ~~leasing out~~ agricultural raiyat, but it shall include temporary or permanent leasing out of land for construction of any structure (building, godowns or factory) by a sub-tenant.

6. In spite of anything in a contract or any custom, the rent of a non-agricultural raiyat's holding shall not be enhanced except under the provisions of this Act.

7. The rent of a non-agricultural holding unless definitely settled as mokarari or fixed in perpetuity shall be liable to enhancement, or reduction or revision after every 10 years according to the following principles :—

(a) Enhancement shall not be made at any time at more than 2 annas in the rupee of old rent.

(b) The maximum rent of a non-agricultural holding after enhancement shall not be more than $\frac{1}{4}$ per cent. on the market value of the land (exclusive of structure or improvements effected by the tenant) for the time being.

(c) When the existing rent is found to work out at more than 1 per cent. on the market value of the land, it shall be reduced to 1 per cent.

The Bengal Non-Agricultural Tenancy Bill, 1940.

(Clauses 8, 9.)

8. Non-agricultural raiyats' lands shall be transferable without landlord's consent, but a mutation fee at the flat rate of Rs. 5 shall be payable to the entire body of landlords and unless this amount together with costs of transmission be paid to the Registering Officer, no such transfer deed shall be registered.

9. Landlords of non-agricultural raiyats' holdings shall, on receipt of the notice of mutation through Collector, register the mutation.

STATEMENT OF OBJECTS AND REASONS.

In paragraph 5 of Article VI, section 7 of the Permanent Settlement Regulation (Regulation I of 1793), it was definitely laid down that the proprietors of lands were expected "to conduct themselves with good faith and moderation towards talukdars and raiyats" and in the first clause of the succeeding Article (section 8, Article VII), it was definitely laid down that "it was the duty of the ruling power to protect all classes of people particularly the most helpless" and reserved the right of enacting laws for such protection. In accordance with these declarations Bengal Tenancy Laws were enacted from time to time for protecting the agricultural raiyats but unfortunately nothing has so far been done to give any protection to the non-agricultural raiyats who also owing to their very helpless condition require as much protection as the agricultural raiyats. In the absence of any law, most of the landlords of non-agricultural raiyats even in permanently-settled areas have been conducting themselves most cruelly and inhumanly and have been squeezing out money from such tenants and their purchasers mercilessly regardless of the fact that permanent settlement given them was a boon of which the benefit was to some extent at least to be transmitted to their under-tenants. It is time now that the tyranny of the oppressive landlords should be stopped and definite laws enacted regarding the rights and liabilities of non-agricultural raiyats in permanently-settled areas. The present Bill has been drafted for giving the necessary protection to the non-agricultural tenants.

(2) Until sufficient provision for maintenance of indigents in list (b) is arranged, every Municipality shall arrange for regular inspection of the disabled indigents of list (b) who are incapable of moving about, for making sure they are not starving.

(3) Every Municipality shall have poor boxes placed in the Municipal Office and such other places of the Town where the Municipality considers suitable for collection of voluntary contribution for rendering temporary help to indigents of list (b) whenever they are found starving.

STATEMENT OF OBJECTS AND REASONS.

It is time that some poor laws should be enacted in this country for relief to the deserving poor. It will be worth while to give a start—a modest start to such social laws in Urban areas. With this object in view the Bill has been drafted. Lists of indigents requiring relief have been proposed to be prepared in two parts. The first part will contain names of disabled persons suffering from leprosy or other contagious diseases. Second part will show names of other disabled persons, who cannot earn their livelihood because of disease, infirmities, old age or minority. It will be compulsory on every Municipality to provide funds for the segregation and maintenance of all indigents of list (a) suffering from contagious diseases. As regards relief to indigents of the second list, the Municipalities shall try their best to render as much relief as possible and so long as the Municipalities be not able to provide for relief, they shall arrange to collect voluntary contributions and shall render help to indigents of this class only in urgent cases. They shall however arrange for regular inspection of indigents incapable of moving about without others' help and shall see they do not starve in silence.

After the lists are prepared the Municipalities as well as the Government will be in a position to examine and enact further laws for relief of the poor. Let us start with a modest beginning.

The final order of courts established under this Act shall be executed as decrees within the meaning of the Code of Civil Procedure.

STATEMENT OF OBJECTS AND REASONS.

So long certain matrimonial disputes under the Muhammadan Law used to be decided on a petition by the District Judge who was considered to be the successor of the Kazi under the Muhammadan Law: Recently the High Court of Calcutta held that the District Judge is not the Kazi and in fact the office of the Kazi has not been retained and so all questions, requiring adjudication regarding marriage, has to be brought before the Original Civil Court, as a suit, having jurisdiction. This course will involve delay in decision and in most cases there will be 1st appeal and 2nd appeal and will take its turn as an ordinary civil suit. In most matrimonial disputes the remedy thus obtained will defeat itself by delay in obtaining it. Hence, it is desirable to introduce machinery for a quicker disposal of such disputes by a more competent authority.

(AMENDMENT) BILL, 1940.**

BILL

WHEREAS it is expedient to so amend the Bengal Village Self-Government Act of 1919 as to ensure better and quicker development of the system of self-government in the rural areas of Bengal;

2. It extends to the whole area where the Bengal Act V of 1919 is in force or is hereafter extended.

3. It shall come into force immediately.

4. The post of dafadar is hereby abolished, and wherever the word "dafadar" is used in Act V of 1919 or in any notification, order, scheme, or rule, form of by-law with reference to union boards, it shall be deemed to mean a "chaukidar."

5. In place of sub-section (2) of section 20 the following shall be added, namely:—

"(2) The union may dismiss any of its chaukidars; such dismissal shall be subject to a right of appeal to the chairman, district board of the district, whose order on such appeal shall be final."

6. To sub-section (1) of section 21 the following proviso shall be added, namely:—

"Provided that in determining the number of chaukidars to be employed in a union, their salary and the nature and cost of their equipment, the District Magistrate shall so determine and fix these so that the total cost to be incurred on these accounts shall not exceed 1/5th of the total annual income of the union, the actual amount to be calculated on the basis of the union rate of the particular union as assessed during the year preceding that in which such determination is made:

(b) In clauses V and VI of section 23, sub-section (1), the words "the president of the union board" for the words "said officer" shall be substituted.

*The Bengal Village Self-Government (Amendment) Bill, 1940.**(Clause 8.)*

(c) The whole of clause VII and clause VIII in section 23, sub-section (1), shall be omitted.

(d) For sub-section (2) of section 23 the following shall be substituted, namely:—

“(2) Notwithstanding anything contained in section 6 of Bengal Act IV of 1873, it shall no longer be the duty of the chaukidar to report births and deaths occurring within his area, but it shall be the duty of other persons enumerated in sections 7 and 8 of the said Act to give the necessary information in accordance with the said Act.”

3. (i) The following clause to sub-section (1), section 26, shall be added, namely:—

“(h) Though its president shall send all informations he receives from the chaukidars under section 23, sub-section (1), clauses (1) (v) and (vi), to the officer in charge of the police-station within the limit of which the union is situated in the manner most convenient for the purpose.”

(ii) For sub-section (3) of section 26 the following shall be substituted, namely:—

“(3) The president of every union board shall be a registrar of births and deaths for his union which shall be a district for the purpose within the meaning of section 2 of the Bengal Births and Deaths Registration Act.”

STATEMENT OF OBJECTS AND REASONS.

That though the Bengal Village Self-Government Act was passed and brought into operation in 1919 with the object of developing the system of self-government in rural areas, yet for want of funds the scheme has proved to be a futility and a farce. In the absence of adequate funds, the real object could never be and has not been realised. The Act, however, has made the maintenance of the entire force of village chaukidars and dafadars a charge upon the resources of the union. The system of part-time village police might have served a useful purpose at the earlier stage of police organisation, but has now lost all its usefulness. For all the nominal and even doubtful service they render, the chaukidars and dafadars amongst themselves absorb practically the whole income of the union board, leaving a trifling amount to meet all real village works, viz., road, sanitation, water-supply, etc. The average income of a village union is about Rs. 1,600 or Rs. 1,700 per year, and chaukidars and dafadars absorb about Rs. 1,300 to Rs. 1,400 per year. If in the circumstances the number of chaukidars and dafadars are substantially reduced and one or two or even in places three whole-time peons are appointed, the union board work will be more economically and at the same time substantially performed, and the resources of the union may be made to go to the establishment of village dispensaries, removal of water scarcity and effecting other improvements within a reasonable period of time.

With this end in view it is proposed to reduce the present strength of the chaukidars and dafadars immediately and to such an extent that the board shall not spend more than a fixed percentage of its income towards their maintenance. Consequential amendments to some other sections are also proposed.

THE BENGAL AGRICULTURAL DEBTORS (AMENDMENT) BILL, 1940.**A****BILL***to amend the Bengal Agricultural Debtors Act of 1935.*

WHEREAS it is expedient to provide for relief of indebtedness of agricultural debtors more completely and efficiently.

It is enacted as follows :—

1. This Bill may be called the Bengal Agricultural Debtors Amendment Bill of 1940.

"When the creditors and debtors do not agree to any amicable settlement or either of them do not appear in spite of notice, the Board of its own initiation shall settle such amount as payable to each non-agreeing or absentee creditor as it considers fair, but in so doing interest shall in no case be allowed at more than $6\frac{1}{2}$ per cent. simple interest on the original principle and the aggregate amount settled as payable by the debtor must not be more than 66 per cent. of the market value of the entire immovable properties owned by the debtor."

8. In proviso to section 19(I)(b) in the first line after the words "Clause an" the word "adjudication" shall be substituted for the word "offer".

9. The "Explanation" given at the end of section 19 shall be deleted.

10. The following shall be added in clause (e) of subsection (I) to section 25, after the word "paid" :—

"But ordinarily unless the parties otherwise agree and the Board considers the agreement reasonable or the Board for any special reason thinks it proper to order otherwise, the Board shall instead of ordering cash payment by instalments, order transfer of particular plots of lands belonging to the debtor, in favour of the creditors in complete usufructuary mortgage for a certain number of years (not exceeding 20 years in any case) in full satisfaction of the amount settled as due under clause (d), the aggregate area so transferred to all the creditors being in no case more than one-third the area held by the debtor."

11. Section 31 shall be deleted.

In view of the amendments proposed above, corollary changes may be made in other sections of the Act by the Legislative Department.

STATEMENT OF OBJECTS AND REASONS.

The agricultural indebtedness of Bengal is largely due to exorbitant rate of interest charged by the creditors and readily agreed to by the debtors for want of proper banking facilities. It is the duty of the State to intervene and pull the debtors out of the pit in which they have fallen for reason not within their control. Agriculturists are the backbone of our country and the prosperity of Bengal depends on the sound economic position of its agriculturists. The interest of the agriculturists has been neglected too long, and now when the Legislature have realised the necessity of improving their economic condition by enactment, they should not be half-halting.

2. The Bengal Agricultural Debtors Act (Act VII of 1936) was enacted with the object of settling the agricultural debts mainly by compromise and hence provided for settlement, only when a debtor or creditor applied for settlement. But the agricultural debt settlement problem of Bengal is a very big problem and we cannot expect even to touch the fringe of the problem if we have to wait for applications and compromises. There are hundreds of reasons for a debtor or creditor not coming forward to apply for settlement. If we really mean business and honestly want the agricultural debts to be cleared off, we must by legislation compel all creditors apply for settlement within a fixed time and penalise non-compliance. Provision is therefore made in this Bill for compelling all creditors to file statement of agricultural debts within 3 months of establishment of the Board (*vide* clause 5 of Bill). Similar provisions are found in the Court of Wards Act according to which creditors of disqualified landlords are required to file statement of debts due to them. Provision is also made requiring Civil Courts to stay all proceedings in connection with agricultural debts and rents (*vide* clauses 4 and 5).

3. The existing Act is further defective in dealing with cases, in which amicable settlement proposals fail. To wait for 40 per cent. amicable settlement and then to give award against non-agreeing creditors is bound to result in dead-lock in 90 per cent. of cases. Section 21 of the Act is contemplated to give redress to the debtors in a roundabout way, who offer "fair proposals", but why should not the Board of its own motion examine each debt and determine the amount which is fairly payable to each creditor and include them in the award irrespective of the fact whether the creditor or the debtor agrees or not? If the Boards can give certificates of "fair offer" they can as well determine the amount fairly payable to each debtor according to certain definite principles to be laid down in the rules under the Act and settle all debts once for all. In the Bill therefore provision is made for settlement of debts by adjudication when parties disagree or either of them do not appear in spite of notice and the maximum rate of interest to be allowed is proposed to be fixed at 6½ per cent. on the original principal and the maximum amount that could be settled as the aggregate debt is proposed to be fixed at 66 per cent. of the market value of the immovable properties of the debtor (*vide* clause 7).

4. The procedure of cash recovery of amount included in the award by instalments is bound to be unworkable in the long run. The economic condition of an average agriculturist is so precarious, that in 90 per cent. of cases the debtors are sure to default in payments of instalments and their holdings will be sold off under Public Demands Recovery Act. All the labour of the Debt Board will then be wasted and it will hasten the ruin of the agriculturists. In order that the Act may be of real benefit to the agricultural debtors, it is proposed that unless parties otherwise agree, and the Board considers the agreement reasonable, or the Board for any special reason thinks some other manner of satisfaction of decree desirable, instead of merely noting in the award the amount payable to each creditor on each instalment, the Board shall by order ordinarily transfer not more than one-third the lands of the debtors to the creditors in usufructuary mortgage for fixed periods for clearance of all debts—the entire land reverting to the debtor free from all debts after 20 years or less period. Unless some such compulsory provision is made for ensuring payment of instalments, the labours of the Board will be entirely wasted (*vide* clause 10).

5. If the amendments as proposed are passed, the Debt Boards will be able to deal with all cases of agricultural debts completely and efficiently. There will be no need of any insolvency proceedings, as scaling down of debts to 66 per cent. of the full value of the property of the debtor will enable the debtor to pay off the entire debt in 20 years even if only one-third the land is given out in usufructuary mortgage. The value of a holding is generally equivalent to 5 years average value of the gross produce or 10 years average value of *barga* produce, and as such the creditor by enjoying one-third the holding in usufructuary mortgage for 20 years, will get 66 per cent. of the full value of the entire holding even if he enjoys it by letting out in *barga*. The scaling down of debts to 66 per cent. full value of the property of the debtor cannot be at all questioned from point of equity. In other countries, e.g., Greece, the scaling down is far more drastic and the maximum amount that can be settled as payable by the debtor in that country is fixed at 60 per cent. of the value of the property.

The Bengal Land Alienation Bill, 1940.

(Clauses 6—10.)

6. No deed of transfer shall be accepted for registration, unless it contains an endorsement from the transferee or his agent to the effect either that the transferee is neither a proprietor, tenure-holder, Jotedar or non-agriculturist, or that he comes under one or other of the exceptions of section 5 (which shall be specified in the endorsement).

7. If this endorsement is found to the satisfaction of any Civil Court to be false or incorrect within 6 years of the registration of the transfer deed, the transfer shall stand cancelled and the Court holding transfer cancelled shall sell the land transferred, by bid to a bona fide agriculturist or to any other person coming under any of the exceptions specified in section 5 after taking a certificate from the purchaser or his authorised agent to that effect, which if found incorrect within 6 years the holding will again be liable to resale.

8. Out of the sale proceeds half shall go to the person at whose instance the sale was cancelled and the remaining half shall be credited to Government as cost of the proceedings.

9. No Court shall accept the offer of purchase from any bidder if any sale in execution of any decree or in any involuntary sale, without taking a certificate from the purchaser that either he is not a proprietor, tenure-holder, Jotedar or non-agriculturist or he comes under any of the exceptions specified in section 5 and without warning to the proprietor that the purchase will stand cancelled if the endorsement is found incorrect at any time within 6 years of purchase.

10. If in any involuntary sale, the highest offer from bidder who can legally bid according to the provision of this Act falls short of the decretal money or if there be no bid from any proper bidder, the Court shall temporarily make over the land, put to sale to the decree-holder for such period as the Court thinks fit but not exceeding six years for realisation of his dues from the usufruct of the land and in such a case the land shall revert to the judgment-debtor after the period of enjoyment by the decree-holder.

STATEMENT OF OBJECTS AND REASONS.

The Legislature before 1928 did not consider it proper to make the rayati lands transferable as they thought it would be against the interest of the real rayats who being illiterate and improvident will quickly sell off their lands whenever faced with any financial difficulty. In 1928 however the Legislature realised that in spite of no provision in the law about transfer of rayati lands, occupancy holdings were being sold and purchased freely and owing to non-existence of the provision of transfer in the Act, the custom of paying Salami to the landlord for getting recognition of transfer had grown up. The Legislature thought it proper to legalise the custom, though it was a pernicious custom and directly in contravention of articles 55 and 56 of Regulation VIII of 1793, according to which the Salami was a new imposition of the nature of an Abwab. The legalising of the Salami and fixing its rate prevented the abuse of powers by oppressive landlords but it did not prevent passing away of lands to the hand of non-agriculturist or accumulation of too large a quantity of lands in the hands of individual rayats. The Legislature having realised that Salami is an Abwab pure and simple and has failed to serve the so-called purposes of restricting transfer of lands to undesirable persons, have just passed Bill abolishing Salami altogether. It has now become necessary to enact some law which might effectively restrict transfer of lands to non-agriculturists and accumulation of too large a quantity of land in the hand of individual rayats. Provision is therefore made in this Bill making transfer of land to non-agriculturists and rayats having already a large area in possession, illegal except under special circumstances. The provisions of this Bill are far simpler than those of the Punjab Land Alienation Act and it is believed it will not throw much burden of additional work on the Revenue Officers of the Province. But at the same time care has been made to make the provisions effective by laying down that transfer against the provisions of this Act will stand cancelled if they are proved to be such at any time within 6 years of their execution.

3. It shall come into force on such date as the Local Government may by notification appoint.

4. The following two paragraphs shall be added after second paragraph of section 6 of the Act :—

The Collector or other officer duly authorised to hold sales, shall also issue notice of sale by registered post in the name of the recorded proprietors of the estate, and in case their number be more than 5, in the name of five biggest recorded shareholders intimating them of the particulars of sale—the cost of such registered notices being realised from the defaulters if the sale does not take place, otherwise from the sale-proceeds.

No sale shall take place until the officer conducting the sale has satisfied himself that the notification of sale has been duly published and the notices of sale have been sent to proprietors by registered post.

STATEMENT OF OBJECTS AND REASONS.

The rigours of the Sale Law (known as sun-set law) Regulation II of 1859 have to a great extent been relaxed but even now cases do occur when estates are sold for no actual default but on account of error or want of notice of sale. To prevent such sales it is necessary to make some provision for notice on the proprietors individually by registered post. Where the number of proprietors is large, such notice may be issued to only five biggest share-holders. The cost of such notice may be realised from the defaulter if the sale does not take place. In case sale takes place, in spite of notice, the cost may be realised from the sale-proceeds.

STATEMENT OF OBJECTS AND REASONS.

The extension of Joint Stock business in this country has created many new problems, not the least of which is the regulation of the markets for securities. The volume of business on the Stock Exchanges is daily increasing. On the Calcutta Stock Exchange alone it sometimes exceeds one crore rupees in a single day.

This large business is in the hands of a comparatively small number of brokers. They are members of an association which frames rules for regulating the mutual dealings between the brokers, but the Stock Exchange Association exercises no disciplinary jurisdiction over its members in their relations with the public. That has been left for the legislature and the courts of law to provide.

As one may be a broker who can find money to buy an association ticket which entitles him to the privilege of membership. He has to pass no test, he is not required to satisfy any conditions, or to conform to any rules for securing compliance with a minimum standard of honesty in his business. Adjudged by a competent court to be guilty of gross misconduct or fraud, he may be convicted for cheating, misappropriation, or criminal breach of trust, but nothing will lose him the membership of the association.

The circumstances in which the broker conducts his business behind the back of his client and the fact that prices vary from day to day and very often from hour to hour afford him almost ideal opportunities to practise fraud if he is so minded. The contract notes which he gives to his client is a skilful document which conceals the identities of the real contracting parties and legal ingenuity has added other safeguards to minimise the risk of detection. Most brokers invite their clients, as a profitable line of business, to enter into contracts with them for carrying over their stocks. In such business it is seldom that the broker would give the distinctive numbers of his stocks to the client, for so long as the broker does not disclose their distinctive numbers he is free to dispose of them in the market and earn what is sometimes substantial profits by such dealings, while he is charging the client with full rate of interest. In strict law such profits should go to the client, but in practice it is very nearly impossible to make the broker accountable for them.

Even more serious than this is the menace of gamblers and professional speculators and the inroads they make from time to time on the stock markets. Owing to the ease and quickness with which money can be made on the Stock Exchange, it has attracted a large number of professional operators. Most of them are members with large financiers at their back outside the market. Their *modus operandi* is as follows: They select some market favourable for their operations. If the market has a normal capacity of taking 10,000 shares of the selected stocks in one day, the speculators will offer many times over its capacity until they bring down the price to a level at which the investors begin to take alarm and banks which hold large blocks of shares on margin come out as sellers. A condition of panic is thus created and in the general rush for sale which follows prices come down precipitately. The speculators then begin to gather their harvest by picking up the shares at the lower ends. Very often they work in concert or as syndicates and after having sold as many shares as they are capable of, they continue their operations by making fictitious sales among themselves to hammer down the price to still lower levels. This kind of artificially engineered panics have now become a regular feature of the market. Their effect is not confined to the speculative count but sooner or later it spreads to all stocks in the market. The theories of Doe Jones that the market price of stocks at any given time is governed by supply and demand and has nothing to do with the yield of stocks is the maxim of business of the speculators in all future markets. These depredations cost the investors, who ultimately have to foot the bills, several crores of rupees every year.

The tap root of the evil is the vicious system of blank sales which is sanctioned by the Stock Exchanges. It enables the speculators to sell forward what he has not got with the expectation of buying it when the price will be down and close the transaction at a handsome difference. One can understand a future market for merchandise, such markets may be convenient and even a necessity for manufacturers and others who have entered into commitments for future deliveries. But transactions in future in a share market cannot by any stretch of imagination be regarded as part of the legitimate business of anybody. It is a form of gambling which is prohibited by the Indian Contract Act. But the subtleties of the law which has to protect legitimate future transactions in merchandise have introduced distinctions which are fully taken advantage of by gamblers to evade its provisions.

The Bill, by making it unlawful for any one to sell stocks unless he has got it, seeks to put an end to this form of gambling.

But it will not prevent legitimate speculations. Any one who has the money or who can borrow it from the bank will still be able to buy as many shares as he likes if he entertains an optimistic view of its future. In short the Bill will stop speculative selling, but not speculative buying.

From the point of the industrial progress of the country a market for gambling in shares is still less defensible. The unused wealth of India, if one would take only the statistics of gold imports during the 30 or 40 years preceding the War is more than sufficient to supply all the capital requirements of her industries. But so long as her capital will be distrustful of industrial investments, India will have to depend upon foreign capital and foreign enterprise for the development of her industries. Much will be done to combat this feeling of distrust if the market for capital investment is freed from the influence and domination of the gamblers and prices of stocks follow a steadier course in accordance with the intrinsic positions of the industries.

The Bill aims, firstly, to protect the investors from the sharp practices which have become very common with a large number of brokers, secondly, to minimize the risk of industrial investment by eliminating from the capital market the disturbing influence of gamblers and, thirdly, by introducing an element of certainty in the market prices of shares to encourage Indian capital to seek investment in Indian industries. Lastly, the Bill provides for the constitution of a Board of Licence for Brokers which like the Bar Council and the Medical Council will regulate the admission and expulsion of brokers into the profession and will exercise a salutary and general disciplinary jurisdiction over them.

No. 1356L.O.—16th August 1940.—In pursuance of the provisions of rule 51 of the

**THE PRESIDENCY SMALL CAUSE COURT
(AMENDMENT) BILL, 1940.**

WHEREAS it is expedient to make better provisions for the revision of the decisions made by a Presidency Small Cause Court established in the town of Calcutta;

It is hereby enacted as follows:—

1. This Act may be called the Presidency Small Cause Court (Amendment) Act, 1940, and it shall come into force on the 1st day of April, 1941.

2. In section 36, substitute the word "revision" for the words "new trial".

3. For the present section 38, the following section shall be substituted:—

"38. The High Court in its Appellate Side, for the purpose of satisfying itself that a decree or order made in any case decided by the Small Cause Court was according to law, may call for the case and pass such order with respect thereto as it thinks fit."

STATEMENT OF OBJECTS AND REASONS.

Under the present provision of the law litigants aggrieved by a decision of the Presidency Small Cause Court Judge have a remedy by asking for a new trial by a Full Bench of the Small Cause Court and another by petition for revision by the High Court. In practice the first remedy is often illusory and involves waste of public money. The second is too expensive for an aggrieved but otherwise poor suitor, in view of the fact that the revision petition is entertainable on the Original Side of the High Court where the cost is notoriously high.

The present amendment is sought to abolish the present remedies and bring the law on the same footing as that provided by the Provincial Small Cause Court on the matter.

**THE INDIAN BAR COUNCIL (AMENDMENT)
BILL, 1940.****A****BILL**

to amend the Indian Bar Council Act, 1926.

WHEREAS it is expedient to remove certain restrictions and disabilities at present suffered by a class of advocates which prevent them from practising on the Original Side of the High Court of Judicature at Fort William in Bengal, and to give them all facilities henceforth as if no such restrictions exist;

It is hereby enacted as follows :—

Preliminary.

1. This Act may be called the Indian Bar Council (Amendment) Act of 1940.

2. It shall come into force immediately and shall apply to all advocates including advocates whose names appear on the roll of the Bar Council on the day on which this Act is passed.

3. In section 9, sub-section (4)—

(a) "High Court" shall be substituted for the words "High Courts" wherever they occur in the sub-section; and the word "that" shall be substituted for the word "those" wherever it occurs in the said sub-section; the word "its" for the word "theirs" occurring after the words "respectively in exercise of" and the word "it" for the word "they" occurring after the words "to grant or refuse, as", shall be substituted.

(b) The words "at Fort William in Bengal and" occurring in the said sub-section shall be omitted.

4. (a) After the words "in the High Court" in clause (a) of the sub-section (1), section 14, the following shall be inserted, namely :—

"(including the Original Side of the High Court of Judicature at Fort William in Bengal.)"

(b) The following words in sub-section (3), section 14, shall be deleted, namely :—

"Of the High Court of Judicature at Fort William in Bengal or" occurring after the words "shall be deemed to limit or in any way affect the power."

STATEMENT OF OBJECTS AND REASONS.

One of the main objects of the measure which finally took shape as the Bar Council Act of 1926 was the unification and eventual autonomy of the legal profession; and as this might be immediately attainable in respect of most of the High Courts it was expressly stated that at present the largest degree of unification possible should be effected in all High Courts by creating a single grade of practitioners. This last mentioned object has been effectively realised in all the High Courts except only in the High Courts of Bombay and Calcutta. Certain distinction has been kept up by the High Courts in question under powers given to them to make rules and lay down certain qualifications for persons who want to practise on the Original Side. It had been expected that the High Court in question shall have time to bring about the desired change by degrees. It is perfectly clear, however, that the courts are too conservative by tradition to undertake the removal of the special privileges enjoyed by a class of the profession. The change if at all must be enacted directly by the legislature.

Accordingly it is proposed to amend the Indian Bar Council Act of 1926 in such a manner as will give effect to the purpose previously mentioned, and bring all the members of the Calcutta Bar on the same level as the members of all other High Courts besides Bombay.

- (d) from assisting an industrial business or enterprise in connection with industrial education or the training of apprentices ; and
- (e) from assisting a village industry in any manner which may be determined by the Provincial Government."

STATEMENT OF OBJECTS AND REASONS.

The main object of the Bengal State Aid to Industries Act, 1931, was to obtain statutory power to enable State aid to be given mainly for the purpose of encouraging and developing cottage industries and industries on a small scale in the shape of loan guarantee and also to set up a Board of non-officials to advise Government in the matter. Though the Act was passed in 1932 owing to its very stringent provision little encouragement could be given to cottage industries and industries on a small scale. There is no provision in the Act for granting subsidy to cottage industries and so the amendment of the Act has become necessary to give power to the Provincial Government to grant subsidy to cottage industries. So this amending Bill has been framed with a view to give statutory power to the Provincial Government to encourage the development of cottage industries and village industries on a liberal scale. I have also suggested some other amendments in the Act.

This list shall contain particular items of expenditure to be incurred and the maximum amount of expenditure authorised thereunder and the occasions in which and the persons by whom such expenditure shall be made :

Provided that the aggregate amount of such expenditure shall not exceed (a) where the list is made by a *panchayat* or a *sardar* of the *mahalla* from the date of betrothal or of final settlement of marriage contract until the expiry of two years from the date of marriage, rupees five hundred, for subsequent three years at the rate of rupees fifty per year ; and (b) where the list is made by the Provincial Government, the Provincial Government may, after previous consultation with the Moslem Members of the Bengal Legislature, fix such definite amount as a maximum sum up to which expenditure at a Moslem wedding in Bengal may be incurred and may prescribe necessary rules to regulate the same :

Provided further that the Provincial Government may, after such consultation with the Moslem Members, prescribe an uniform and general scale and standard of expenditure for any or all Moslem marriages in Bengal.

4. (1) The Provincial Government may, after previous consultation with the Moslem Members of the Bengal Legislature, make rules to carry out the purposes of this Act.

(2) In particular, the Provincial Government may, after such previous consultation with Moslem Members, make rules—

- (a) prohibiting marriage festivities ;
- (b) determining that no more than five coaches or cars shall follow the bridal coach or car or shall form the bridal process ;
- (c) forbidding any betrothal ceremony at the bride's house ;

*The Bengal Moslem Marriage Extravagant and
Superfluous Expenditure Regulation Bill, 1940.*

(Clause 5.)

- (d) prescribing the scale of dowry ;
- (e) prohibiting wedding present ;
- (f) prescribing that the nuptials shall not continue more than one day ;
- (g) forbidding the feasting of more than a prescribed number of guests at a particular marriage ;
- (h) determining the manner and time and persons by whom the list shall be prepared.

5. Whoever contravenes any provision of this Act or violates any rules or regulations framed under the provision of this Act, shall on conviction be punished with simple imprisonment which may extend to one month or with a fine which may extend to one thousand rupees or with both. Provided that no woman shall be sentenced to imprisonment.

STATEMENT OF OBJECTS AND REASONS.

It is a known fact that in Bengal, most Moslem families incur expenses out of all proportion at marriages in consequence putting themselves in the hand of money-lender and losing valuable property. So costly has a wedding become that in many families it is looked upon as sheer calamity. When state of life intended for man's happiness arouses such feeling and becomes the cause of the ruination of a happy family, something must be wrong with that society.

It is an admitted fact that many Moslem families are being ruined on account of costly marriages. Unless something is done to remedy this onward march of ever-increasing cost of Moslem marriages, the Moslem community of Bengal who are proverbially poor, shall die an economic death. Already some Indian States have taken some steps in this direction. China and Ankara have taken drastic measures to reduce the cost of marriage to its minimum. The fear of what people think if a certain standard of expenditure is not reached is one of the forces that tend to tug the average family down into poverty or something near it. Who will stand against public opinion of this sort ? As now our popular Ministry is in power, it is expected that they will encourage such sumptuary legislation as this.

No. 1407L.C.—17th August 1940.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto,

**THE BENGAL PLACES OF PUBLIC AMUSEMENT
(AMENDMENT) BILL, 1940.**

A

BILL

to amend the Bengal Places of Public Amusement Act, 1933.

WHEREAS it is expedient to amend the Bengal Places of Public Amusement Act, 1933, in the manner hereinafter appearing for some purposes ;

It is hereby enacted as follows :—

1. This Act may be called the Bengal Places of Public Amusement (Amendment) Act, 1940.

2. In sub-section (3) of section 2 of the Bengal Places of Public Amusement Act, 1933 (hereinafter to be called the said Act) after the word "Circus" the words "Cinema or like" shall be inserted.

3. At the end of the sub-section (2) of section 5 of the said Act, the following shall be added :—

"Or where a local body such as a municipal board or district board objects to the granting of any such licence by a resolution in favour of which at least two-thirds of the members present vote, no licence shall be granted under this Act in respect of such place until the local body concerned withdraws the objection by a resolution similarly passed in a special meeting convened for the purpose."

4. In the fifth line of sub-section (1) of section 8 of the said Act after the words "under this Act" the words "or where a local body, in whose jurisdiction any notified place of amusement is being kept open, object to the same being kept open furthermore" shall be inserted.

5. In the third line of section 9 of the said Act, after the words "under this Act" the words "or in face of any objection made by the local body concerned" shall be inserted.

6. In the third line of section 11 of the said Act after the words "Subdivisional Magistrate" the words "or any local body" shall be inserted; and in the 2nd line of the proviso to section 11 of the said Act after the words "Subdivisional Magistrate" the words "or a local body" shall be inserted.

7. After section 11, the following section shall be added as section 11A :—

"11A. A local body such as municipality and district board may with the previous approval of the Provincial Government make rules regulating the hours and time during which any notified place of public amusement shall be kept open and shall remain closed."

STATEMENT OF OBJECTS AND REASONS.

The main purpose of this amending Bill is to give necessary power to local bodies to control and regulate the opening of any notified place of public amusements within their respective areas. As the law stands at present local bodies have got practically no power over the notified place of public amusement opened within their respective area. Sometimes it so happens that in spite of vehement protest the licensing authority grants licence to open any place of public amusement and the local body concerned finds itself simply helpless and unable to protect the interest of the ratepayers. Not very recently, sharp difference occurred between the District Magistrate of Howrah and the Commissioners of Howrah Municipality. The Commissioners of Howrah Municipality wanted to close certain carnival show but the District Magistrate would not listen to the objection of the municipality. In order to give effective power to local body to control opening and closing of place of public amusement and to regulate the hours of opening and closing of the same, some provisions like these proposed are absolutely necessary.

THE BENGAL COURT OF WARDS (AMENDMENT) BILL,

A

BILL

to further amend the Court of Wards Act, 1879.

WHEREAS it is expedient to further amend the Bengal Court of Wards Act, 1879, in the manner hereinafter appearing for certain purposes ;

It is enacted as follows :—

1. This Act may be called the Court of Wards (Amendment) Act, 1940.

2. At the end of section 3 of the Court of Wards Act, 1879, hereinafter to be called the said Act, the following shall be added, namely :—

“ ‘Proprietor’ means a person who owns or possesses any interest in land solely or partly, whether as proprietor, assignee of the land revenue, lessee of waste land, as mutwalli, or as *sevait* or as trustee or otherwise.”

3. For section 6 of the said Act, the following shall be substituted as section 6, namely :—

“ 6. (1) Any proprietor may apply to the Provincial Government to make an order directing that his property be placed under the charge and superintendence of the Court of Wards and upon receiving any such application, the Provincial Government may, if it considers it expedient in the public interest so to do, make an order accordingly.

(2) When it appears to the Provincial Government that any proprietor is—

- (h) by reason of being proprietors declared by the Provincial Government to be incapable of managing their property for some reason or other or incapable of managing or unfitted to manage his affairs, the Provincial Government may make an order directing that the property of such proprietor be placed under the charge or superintendence of the Court of Wards :

Provided that such order shall not be made unless such proprietor belongs to a family of political or social importance or the Provincial Government is satisfied that it is desirable, on grounds of public policy or general interest, to make such order.

The Bengal Court of Wards (Amendment) Bill, 1940.

(Clauses 4-9.)

(3) Every order made by the Provincial Government under sub-section (1) or sub-section (2) shall be final and shall not be called in question in any court of law.

(4) When any proprietor is a minor or a person adjudged by a competent court to be of unsound mind and incapable of managing his affairs, the Court of Wards may make an order assuming the superintendence of the propriety or the person and property of such proprietor.

(5) When in respect of any proprietor an order is made by the Provincial Government under sub-section (1) or under sub-section (2) of section 6 the Court of Wards shall assume the charge of the property of such proprietor and may in its discretion also assume the superintendence of his persons."

The superintendence assumed under this section shall extend only to the management of the share of the joint proprietor in such joint property and shall not as regards such share include the power to sell or mortgage the same or any part thereof or to grant a lease thereof for a period exceeding 20 years or to create any charge thereon or interest therein."

5. From sections 9, 10, 11, 13A, 14, 15, 20, 27, 29, 35, 60 and any other sections, the word "disqualified" whenever and wherever it occurs in these sections and any other sections of the said Act shall be omitted, and in 2nd line of the section 11 of the said Act after words "any joint proprietors" the word "coming" shall be inserted in place of word "disqualified" omitted, in 2nd line of section 13A of the said Act after the words "Ceases to be" the words "incapable to manage" shall be inserted in place of word "disqualified" omitted, in 2nd line of the third paragraph of section 29 of the said Act, after the words "or adjudged to be" the words "an incapable proprietor" shall be inserted in place of word "disqualified" omitted, in 7th line of sub-section (a) of section 14 of the said Act in place of the word "disqualified" omitted, the word "incapable" shall be inserted.

6. From 2nd and third lines of section 27 of the said Act after the words "the proprietor" the words "of an estate borne on the revenue roll of his district" shall be omitted.

7. From 1st line of section 33 of the said Act after words "a sole proprietor" the words "of an estate" shall be omitted.

8. In sub-section (1) of section 10A of the said Act, after the words "or property under" the words "section 6 or" shall be inserted and in third line of section 11 of the said Act after words "under section" the word "6 or" shall be inserted.

9. From 1st line of sections 31, 32 and 33, the words "of an estate" occurring in these sections after words "a sole proprietor" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

The main objects of this amending Bill are—

- (1) To extend facilities and protection to tenure-holder and other land-holders.
- (2) To substitute the clause or section which deems as "disqualified," any proprietor who applies for his property being taken over by the Court of Wards as "disqualified" and thereby to remove the sentimental objection of many to the use of this word in connection of any proprietor whose property is managed by Court of Wards. This has become necessary as some of these proprietors hold high and most responsible posts in public life and in the administration of the country.
- (3) To widen the scope of the Act so that the estates of proprietor other than owner of the estate may be brought under the charge of the Court of Wards. With the inauguration of the provincial autonomy, it is desirable that the State should extend his protecting hand to preserve the property of his subjects in appropriate cases.

9. After sub-clause (g) of sub-section (1) of section 62 of the said Act, the following sub-clause as (h) shall be inserted :—

"(h) Payment of all expenses incurred by the District Wakf Committees in performance of the duties imposed, in payment of the salaries, allowance of the secretaries and their staff and the exercise of the powers conferred by this Act."

10. In place of section 69, the following section as section 69 shall be substituted :—

"69. No suit or proceedings in any court or tribunal by or against a mutawalli of a wakf to which this Act applies and relating to the title to wakf property or to rights of the mutawalli shall be compromised without sanction of the Central Board."

STATEMENT OF OBJECTS AND REASONS.

The main purpose of this amending Bill is very simple one. It aims principally to remove one defect from the present Act, viz., the creation of District Wakf Committees for the better and more efficient management of wakf in each district. As provided in the present Act, there is no provision for formation of such committees. It is seen that it is not possible for a Central Board established at Calcutta to effectively control the management of wakf in all the districts of Bengal. So there is a great necessity of adding some provision for formation of District Wakf Boards with clear duties.

I have also proposed some changes in the constitution of the Central Board. This is necessary in view of the changed conditions. I have also proposed to add to the functions of the Central Board. I have also proposed a reduction in the rate of fee which is levied on the income of wakf estate.

The present heavy rate is causing hardships in case of most wakf estates. So it is necessary that the rate should be lowered if not be abolished altogether. It would be in the fitness of things if the State contribute some annual amount to the wakf fund created under the provision of the Bengal Wakf Act, 1934.

**THE AGRICULTURISTS LOANS (BENGAL AMENDMENT)
BILL, 1940.**

A

BILL

*to amend the Agriculturists Loans Act, 1884, in its application
to the Presidency of Bengal for certain purposes.*

WHEREAS it is expedient to amend the Agriculturists Loans Act, 1884, in its application to the Presidency of Bengal for the purpose hereinafter appearing ;

It is hereby enacted as follows :—

1. This Act may be called the **Agriculturists Loans (Bengal Amendment) Act, 1940.**

2. In sub-section (1) of section 4 of the Agriculturists Loans Act, 1884, hereinafter to be called the said Act after the words "(2) the relief of distress" the words "or indebtedness" shall be inserted.

3. After sub-section (2) of section 4 of the said Act, the following shall be added as sub-section (3), namely :—

(3) Every loan granted under the Act shall be made repayable by instalments within such period from the date of the actual advance or when the loan is advanced in instalments, from the date of the advance of the last instalment actually paid.

4. In the 4th line of section 6 of the said Act after words "and severally," the words "or severally" and in the 2nd line of section 6 of the said Act after words "or to any other" the words "person or" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The main purpose of this short and simple amending Bill is to remove some defects which have come to light and stand in the way of granting proper relief to the agriculturists in time of need. As the law stands at present, no loan can be granted under the provision of this Act to any individual agriculturist however deserving he may be and he must find some other persons to confine with him in order to be entitled to have the loan. This creates difficulties in many cases and it happens that needy agriculturists cannot be given any loan under the provision of this Act.

In order to empower Government to grant loan (of course in those areas where there is no other agency to give loan on easy terms) to destitute agriculturists to secure their holding for them, it is desirable that the scope of section 4 of the Act shall be made more liberal by adding words "or indebtedness." This necessary amendment has already been effected in some other province.

BILL

to amend the Usurious Loans Act, 1918, in its application to the Presidency of Bengal for certain purposes.

WHEREAS it is expedient to amend the Usurious Loans Act, 1918, in its application to the Presidency of Bengal, for the purposes hereinafter appearing ;

It is hereby enacted as follows :—

1. (1) This Act may be called the Usurious Loan (Bengal Amendment) Act, 1940.

(2) It extends to the whole province of Bengal.

(3) The provisions of this Act shall apply to all suits to which the Usurious Loans Act, 1918 (hereinafter to be referred to as the said Act), would apply and which are pending in or are instituted in or after the date of the commencement of this Act.

2. In section 3 of the said Act,—

(i) In sub-section (1) for the words beginning with “has reason to believe” and ending with “any of the following powers, namely, may,” the following words shall be substituted, namely :—

“has reason to believe that the transaction was, as between the parties thereto substantially unfair, the court shall exercise one or more of the following powers, namely :—”

(ii) The explanation to the same sub-section shall be renumbered as Explanation II and the following shall be inserted as Explanation I, namely :—

Explanation I.—If the interest is excessive, the court shall presume that the transaction was substantially unfair, but such presumption may be rebutted by proof of the special circumstances justifying the rate of interest.

(iii) To clause (b) of sub-section (2) the following proviso shall be added, viz. :—

“Provided that in case of loans to agriculturist if compound interest is charged the court shall presume that the interest is excessive.”

STATEMENT OF OBJECTS AND REASONS.

This is a simple amending Bill with a view to effect some modification in the Usurious Loans Act of 1918 in its application to the Presidency of Bengal. With the passing of the Bengal Money-lenders Bill of 1939 by the Bengal Legislative Assembly the proposed amendments have become necessary so that more wider powers may be given to court to give relief in desirable cases.

NOTIFICATION.

No. 1412L.C.—17th August 1940.—In pursuance of the provisions of rule 51 of the Bengal Legislative Council Procedure Rules, the following Bill which was introduced in the Bengal Legislative Council on the 2nd August, 1940, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

**THE BENGAL GOOD CONDUCT PRISONERS PROBATIONAL
AND TEMPORARY RELEASE BILL, 1940.**

A

BILL

to provide for the release of good conduct prisoners and temporary release of prisoners on condition to be imposed by the Provincial Government.

WHEREAS it is expedient to provide for the conditional release from prison of good conduct prisoners and temporary release of prisoners in certain cases before the completion of the term of imprisonment to which they have been sentenced; it is hereby enacted as follows :—

1. (i) This Act may be called the Good Prisoners Probational Release and Prisoners Temporary Release Act, 1940.

(ii) It extends to the whole of Bengal.

(iii) It shall come into force at once.

2. Notwithstanding anything contained in section 401 of the Code of Criminal Procedure, 1898, or in any other enactments in force, where a person is confined in a prison under a sentence of imprisonment and it appears to the Provincial Government from his antecedents or conduct in the prison that he is likely to abstain from crime and lead useful and peaceful life, if he is released from prison or where a person is confined in prison having been sentenced or imprisoned for not less than three years period, and it appears that periodical visits to his home will have a good psychological influence on the prisoner if he is released temporarily from prison, the Provincial Government may by licence permit him to be released on condition that he be placed under the supervision or authority of a servant of the Crown or a secular institution, or of a person or society professing the same religion as the prisoner, named in the licence and willing to take charge of him or may release a prisoner for temporary period for his visit to his home on such conditions as it think proper.

Explanation.—The expression, *i.e.*, sentence of imprisonment in this section shall include imprisonment in default of payment of fine and imprisonment for failure, to furnish security under Chapter VIII of the Code of Criminal Procedure, 1898 :

Provided that the Provincial Government may delegate this power to any of its responsible officers in writing.

3. A licence granted under the provisions of section 2 shall remain in force until the date on which the person released would, on execution of the order, *i.e.*, warrant authorising his imprisonment, have been discharged from prison had he not been released on licence, or until the licence is revoked, whichever is sooner, or until the period for which he was temporarily released expires.

4. The period during which a person is absent from prison under the provision of this Act on a licence which is in force shall be taken as a part of the period of imprisonment to which he was sentenced, for the purpose of computing the period of his sentence and for the purpose of determining the amount of remission of his sentence which he might earn under any rules relating to such remission.

The Bengal Good Conduct Prisoners Probational and Temporary Release Bill, 1940.

(Clauses 5—8.)

5. The form and conditions of a licence to be granted under section 2 shall be prescribed by the Provincial Government by general or special order and by the rules framed for that purpose.

6. (i) The Provincial Government may at any time revoke a licence granted under section 2, but generally no licence shall be revoked unless the person to whom a licence has been granted intentionally and wilfully breaks any of the conditions of such licence or on ground of public safety and security.

(ii) An order of revocation or cancellation passed under the provisions of sub-section (i) shall specify the date on which the licence shall cease to be operative and shall be served upon the person concerned in such a manner as prescribed by the Provincial Government by rules.

7. (1) If any person escapes from the supervision or authority of a servant of the Crown or secular institution, or a society or person in whose charge he has been placed under the provisions of section 6, or if any person who was temporarily released and whose period of temporary release has expired, fails without lawful excuse the burden of proving which shall be upon him, to return to the prison from which he was released, on or before the date specified in the order of revocation or of temporary release, such person shall, on conviction by magistrate, be punishable with imprisonment of a term which may extend to one year or with fine or with both.

(2) An offence punishable under the provisions of sub-section (i) shall be deemed to be a cognisable offence within the meaning of clause (f) of sub-section (i), section 4 of the Code of Criminal Procedure, 1898.

8. The Provincial Government may make rules consistent with this Act—

- (1) For the form and conditions of licences on which prisoner may be released.
- (2) For defining the powers and duties of Government officer, societies, persons under whose authority or supervision conditionally or temporarily released prisoners may be kept.
- (3) Generally for carrying out into effects all the purposes of the Act.

STATEMENT OF OBJECTS AND REASONS.

It is an admitted fact that the persons are sent to prison with a view to their reformation. The old theory of punishment for punishment's sake has long been discarded. It is a generally accepted view of the civilized world that prisoners should be given every opportunity, every possible encouragement to reform themselves while undergoing their terms of sentence in prison. This simple Bill has been framed with a view to empower the Provincial Government or any officer to whom the authority of the Provincial Government is delegated to release the good conduct person on licence to release the prisoners temporarily in order to give them opportunity to see their relatives at home. There are similar provisions in sections 21 to 27 of the Prisoners Act of 1900, but these provisions are confined to cases of penal servitude only and are only applicable in cases of European and Americans only. Hence there is a great need of an Act like that of the proposed Act in Bengal.

In section 1 of the said Act for the words beginning with "instruments of gaming include" and ending with "or facilitating gaming", the words "instrument of gaming include any article used as a subject, means or appurtenance of or for the purpose of carrying on or facilitating or in connection with gaming; and any books, lists, tickets, forms or other document or documents used or intended to be used as a register or record or evidence of gaming" shall be substituted.

4. In section 1 of the said Act for the definition "common gaming house" the following shall be substituted, namely :—

"Common gaming house" means any house, room, tent or enclosure or vehicle or vessel, or any space or place, whatsoever in which cards, dice, tables or other instrument or instruments are kept or used for gaming purposes—

(a) with a view to the profit or gain of any person owning, occupying or using, keeping such house, room, tent or enclosure or space, vehicle, vessel or place whether by way of charge for the use of such house, room, tent, enclosure, space, vehicle, vessel, place or instrument or otherwise howsoever ;

- (b) for a second offence with imprisonment which may extend to six months and in the absence of special reasons to the contrary to be mentioned in the judgment of the court, shall not be less than seven days either with or without fine which may extend to one thousand rupees ; and
- (c) for a third offence or subsequent offence with imprisonment which may extend to six months and, in the absence of special reasons to the contrary to be mentioned in the judgment of the court shall not be less than one month together with fine which may extend to one thousand rupees.”

8. At the end of section 4 of the said Act, the following shall be added as section 4A, namely :—

“ 4A. Whoever having been convicted of an offence punishable under section 4 shall again be convicted of any offence punishable under that section shall be liable for every such subsequent offence to double the amount of punishment to which he would have been liable for the first commission of an offence of the same description.”

9. For section 11A of the said Act, the following shall be substituted as section 11A, namely :—

“ 11A. Nothing in this Act shall apply to any game of mere skill, as distinguished from a game of chance or a game of chance and skill combined, unless it is carried on in a common gaming house.”

10. In section 13 of the said Act, in 2nd line, after the words “ this Act ” the words “ except under sections 3 and 4 ” shall be inserted.

11. For section 16 of the said Act, the following shall be substituted as section 16, namely :—

“ 16. The provisions of sections 7 and 11 shall apply to the city of Calcutta and to the suburbs of the town of Calcutta as the same may be from time to time defined by any notification published by the Provincial Government in pursuance of the Calcutta and Suburban Police Act, 1866, and the provisions of all sections of this Act shall apply to the other parts of Bengal.”

STATEMENT OF OBJECTS AND REASONS.

The sole purpose of this amending Bill is to check and suppress gambling in Bengal in all possible ways. The original Act was passed so long ago as 1867 since then no drastic modification or alteration was made in the Act in light of defects discovered in the working of this Act. Gambling has increased day by day and it is causing immense suffering to the victims of the same. It is desirable that the Act should be extended to whole of Bengal and that its provisions should be made more stringent and at the same time more wide so that unscrupulous people may not escape the punishment due to them owing to lacuna and loopholes discovered in the Act.

 - (iii) Mr. A. Hughes, I.C.S.,—Independent Member and Secretary to the Court; and

II. to refer to the said Court of Enquiry the following matters which appear to be connected with or relevant to the said dispute, namely:—

- (1) What has been the rise in the cost of living for the lower paid staff since the outbreak of war, in the various areas in which they are employed?
- (2) Having regard to the previous movements in wages and prices, does the rise since the outbreak of war establish a case for a war allowance for the lower paid staff?
- (3) If so, in what areas and subject to what conditions should an allowance be given?
- (4) How should the allowances, if any, be regulated, if in future the cost of living should rise or fall?

RESOLUTION.

The 7th August 1940.

No. L.-1714.—The All-India Railwaymen's Federation and certain other organisations of railway labour have presented demands for the grant of a dearness allowance to railway employees to meet the increased cost of living brought about by war conditions. The demand of the Federation is that there should be an increase of wages ranging from 10-20 per cent. to employees drawing less than Rs. 100 per mensem. The question was discussed by the Federation with the Railway Board at a meeting in April last. The view of the Railway Board that as prices stood then there was no justification for granting a dearness allowance was explained to the representatives of the Federation and they were also told that the Government of India in consultation with the Provincial Governments were actively considering what was the best means of providing relief in the event of any relief being considered necessary in the future owing to a further rise in the prices. The reason why in the opinion of Government there was no justification for the grant of a dearness allowance had also been previously explained at length in the Legislative Assembly by the Hon'ble Member for Railways in his budget speech. The All-India Railwaymen's Federation, however, adhered to the view that there was a case for the immediate grant of an allowance and they have submitted an application to the Government of India for the appointment of a Board of Conciliation under section 3 of the Trade Disputes Act, 1929, to settle the dispute.

2. The Government of India, having reviewed the matter carefully, are not convinced that the present circumstances warrant the grant of any dearness allowance. Having regard, however, to the importance of the question for those employees on low rates of pay and the difference of opinion that has arisen, they believe that it would be of assistance both to railway administrations and to railway workers to have an enquiry into the matter under the Trade Disputes Act. The

Government have carefully considered what machinery will be most appropriate for dealing with the question and have come to the conclusion that a Court of Enquiry will be more appropriate than a Board of Conciliation. The Government of India have therefore decided to appoint a Court of Enquiry under section 3 of the Trade Disputes Act, 1929, to enquire and report on the following terms of reference:—

- (1) What has been the rise in the cost of living for the lower paid staff since the outbreak of war, in the various areas in which they are employed?
- (2) Having regard to the previous movements in wages and prices, does the rise since the outbreak of war establish a case for a war allowance for the lower paid staff?
- (3) If so, in what areas and subject to what conditions should an allowance be given?
- (4) How should the allowances, if any, be regulated, if in future the cost of living should rise or fall?

3. The Court will consist of—

The Hon'ble Mr. Justice B. N. Rau, Kt.,
C.I.E., I.C.S. (Chairman).

Sir, Shafaat Ahmad Khan, Member.

Mr. A. Hughes, I.C.S., Member.

Mr. Hughes will also act as Secretary to the Court.

4. To enable the present enquiry to be conducted expeditiously, the Government of India have decided to confine it to the G. I. P. Railway. If as a result of the Court's Enquiry, the Government of India adopt any principles regulating the grant of an allowance to any classes of workers on the G. I. P. Railway, they will be prepared to apply these principles to any other railway servants in their employ to whom they may be equally applicable.

The Court will be appointed in August and will report to Government in the Labour Department.

ORDERED that the above Resolution shall be published in the *Gazette of India*, for information.

Official Papers.

Report on Public Instruction in Bengal for the year 1938-39.

CHAPTER I.

General.

Although the economic depression, serious floods and the consequent failure of crops cast dark shadows across the year 1938-39, the level of achievement reached in the previous year was maintained and a considerable amount of thoughtful preparation was made for the development of new schemes and improvements in the field of education.

2. The following are some of the important features of the year:—

- (i) The posting of District Organisers of Physical Education in all districts in connection with the Youth Welfare Movement and the establishment of Physical Training Camps for school teachers.

- (ii) Increased attention paid to the subject of adult education.
- (iii) The establishment of two more District School Boards in Tipperah and Faridpur in addition to the 12 already in existence. The establishment of a School Board for Howrah district from April 1939 was announced in Government Notification No. 6383 Edn., dated the 14th December 1938.
- (iv) Publication of the revised curriculum for primary schools covering a course of four years instead of five.
- (v) Partition of the Dacca Divisional Inspectorate into two Ranges with headquarters at Dacca and Bakarganj.
- (vi) Transfer of local educational control in the Chittagong Hill Tracts from the Inspector of Schools, Chittagong Division, to an Educational Board.
- (vii) Sanction of additional allotment for grants to non-Government secondary schools, high and junior madrasahs of the Reformed type and tols.
- (viii) Extension of the system of grants-in-aid to senior madrasahs (old type).
- (ix) Additional grants for scholarships to pupils belonging to the Scheduled Castes and educationally backward classes and appointment of a Special Officer to look after their interests.
- (x) Sanction by Government to the establishment of a new Ladies' College in Calcutta to be named after the Lady Brabourne.
- (xi) The creation of a post of an Inspector of Madrasahs by the District Board of Chittagong.
- (xii) The publication of a series of valuable reports by Dr. Jenkins, Special Officer, on girls' and women's education in Bengal, on the deprovincialisation of Government colleges, on new rates of pay for the subordinate educational services, on the scales of pay of gazetted educational officers and on the reorganisation of the Inspectorate.

CHAPTER II.

Administration and Control.

The authorities which exercise in varying degrees, administrative, academic or financial control over educational institutions in the Presidency are the Education Department of Government, the two Universities of Calcutta and Dacca, the Board of Intermediate and Secondary Education, Dacca, district boards, municipalities, district school boards constituted under the provisions of the Bengal Rural Primary Education Act of 1930 and various religious and philanthropic societies—both Indian and non-Indian. The control of general education rests ultimately with the Minister of Education who is an elected member of the Legislative Assembly.* Throughout the period under review the Hon'ble Mr. Abul Kasem Fazlul Huq, Chief Minister, was in charge of the Education portfolio. European education has also been transferred to popular control since the introduction of the Constitutional Reforms and the Hon'ble Minister for Education is *ex-officio* President of the Provincial Board of Anglo-Indian and European Education in Bengal.

2. The Education Department consists of the following services:—

- (i) Indian Educational Service (Men's Branch).
- (ii) Bengal Senior Educational Service (Men's and Women's Branches).
- (iii) Bengal Educational Service (Men's and Women's Branches).
- (iv) Bengal General Service—Education.
- (v) Subordinate Educational Services.

* Medical schools and colleges are under the control of the Local Self-Government Department and agricultural, technical and industrial (except engineering) institutions under the control of the Agriculture and Industries Department.

The control of education in the Chittagong Hill Tracts lies with the Revenue Department.

(c) *Indian Educational Service*.—Recruitment to the Indian Educational Service was stopped some years ago by the Secretary of State for India. Excluding the post of the Director of Public Instruction, Bengal, this service consisted of 19 posts during the year, of which 11 were held by permanent members of the Indian Educational Service. Of these 11, three retired from the service of Government during the year under review. Of the remaining 8 posts, 4 were "special" posts which could not be abolished so long as there were Indian Educational Service officers capable of holding them, 2 were held by members of the Bengal Educational Service on an officiating basis in the Bengal Senior Educational Service and 2 by members of the Bengal General Service on contract.

(ii) *Bengal Senior Educational Service*.—In addition to the 53 posts which were created in the Men's Branch of the Bengal Senior Educational Service from 1st April 1934, one post of Professor of Economics for Islamia College was created last year. Of these 54 posts, 32 were held by permanent members of the service, 5 by members of the Bengal Educational Service officiating in the Bengal Senior Educational Service and 1 was held in abeyance. Of the remaining 16 posts, 11 were held by members of the Indian Educational Service, 2 by officers on a contract basis on special rates of pay and the remaining 3 by direct recruits to the Bengal Senior Educational Service who were still unconfirmed. Of the 5 posts in the Women's Branch of the Bengal Senior Educational Service, 4 were held by permanent members of the service and the remaining one was filled on an officiating basis by a member of the Bengal General Service.

(iii) *Bengal Educational Service*.—The Men's Branch of the Bengal Educational Service contained 193 posts as in the preceding year, and the Women's Branch 24.

(iv) *Bengal General Service*.—Certain "special" posts and posts not within the classified lists were merged in the service called the Bengal General Service in terms of Government Notification No. 1665A, dated 14th February 1936. The strength of this service at the end of the year under report was 50.

Besides the above, there were certain part-time gazetted posts on fixed rates of pay or on fixed conveyance allowance or honorary during the year under review as detailed below:—

- (1) Professor of Geology, Presidency College.
- (2) Professor of Geology, Bengal Engineering College.
- (3) Lecturer in Accountancy, Bengal Engineering College.
- (4) Honorary Lecturer in Irrigation, Bengal Engineering College.
- (5) Honorary Lecturer on Railways, Bengal Engineering College.
- (6) Honorary Lecturer on Water Supply and Sewerage, Bengal Engineering College.

(v) *Subordinate Educational Service*.—The services below the Bengal Educational Service comprise different kinds of appointments, viz., teaching, inspecting, miscellaneous and clerical, on many differing time-scales of pay. The table below shows the strength of

the Subordinate Educational Service posts, teaching, inspecting miscellaneous and clerical, for the years 1937-38 and 1938-39:—

	1937-38.	1938-39.
Teaching	1,331 (including 77 posts held in abeyance or lying vacant).	1,350 (including 77 posts held in abeyance or lying vacant).

Miscellaneous	92 (including 3 posts held in abeyance).	91 (including 3 posts held in abeyance).
Clerical	403	404
Total	2,136	2,155

Besides the above, there were certain other temporary whole-time or part-time posts in existence on the 31st of March 1939 as detailed below:—

Whole-time posts.

(1) Lecturers	6
(2) Teachers of Government School of Art	2

Part-time posts.

3. **Direction.**—The Director of Public Instruction, Bengal, is the executive head of the Education Department. Mr. J. M. Bottomley was the Director from 1st April 1938 to 10th October 1938 and Dr. W. A. Jenkins from 11th October 1938 to 31st March 1939. The Director was assisted in his work by Khan Bahadur Fakhruddin Ahmed up to 4th July 1938 and by Khan Bahadur Maulvi Tasadduq Ahmed from 5th July 1938, to 31st March 1939, by Khan Bahadur Mr. Md. Maule Baksh, as Assistant Director of Public Instruction for Muhammadan Education, Bengal, by Khan Sahib Mr. Abdul Hakim as Special Officer for Primary Education, by Babu Rajkumar Das as Special Officer, Scheduled Caste Education in Bengal, and by Mr. J. Buchanan as Director of Physical Education, Bengal.

Dr. W. A. Jenkins served as Special Officer in connection with the University and Secondary Education from 14th October 1937 to 10th October 1938.

4. **Inspection.**—The following table indicates the strength of the departmental inspecting staff as it stood on March 31st 1939:—

	Pres- dency Division.	Burwan Division.	Dacca Range.	Bakar- ganj Range.	Chitta- gong Division.	Rajshahi Division.	Total.

In January 1939 Dacca Division was split up into two Ranges, viz., Dacca Range and Bakarganj Range, and each placed under a separate Inspector of Schools.

During the year under report the Board of Education, Chittagong Hill Tracts, came into existence and began to function and the duties of the Inspector of Schools, Chittagong Division, in the Hill Tracts were transferred to the Deputy Commissioner, Chittagong Hill Tracts.

One mournful event which took place during the year under report was the untimely death of Mr. P. Banerjee, the District Inspector of Schools, Hooghly. He died in harness. In him the department has lost a very useful, intelligent and capable officer.

5. **Extra-departmental agencies.**—The District and Subdivisional Officers continued to give ungrudging assistance and advice to the department. As Chief Executive Officer in the district, the District Magistrate has a very important voice in the distribution of grants-in-aid to schools and the constitution of their managing committees. The department is thankful to these officers for their generous co-operation. The acknowledgments of the department are also due to Chairmen and Vice-Chairmen of district boards, municipalities, newly formed district school boards and union boards for the interest they have taken in the improvement of primary and technical education in rural and urban areas. The various missionary societies—both Indian and non-Indian—and other organisations like the Society for the Improvement of Backward Classes, the Nari Sikhsa Samiti, Saroj Nalini Memorial Association and the Uttarpara Hitakari Sava also deserve special

mention for their valuable educational work, specially for girls, and for the education of the backward classes. The Railway authorities also deserve mention in this connection for helping the cause of education by maintaining both general and special schools, principally for the benefit of their employees' children.

CHAPTER III.

Primary Education.

General statistics.—The increase in the number of pupils in primary schools for boys and girls continued during the year in spite of a reduction in the number of schools due to their more judicious distribution and to a policy of amalgamation of contiguous but inefficient institutions. The following table gives comparative figures for all primary schools:—

		1937-38.	1938-39.
Number of schools	60,074	55,852
Number of pupils	25,85,915	26,27,833
Cost	Rs. 85,64,764	Rs. 86,10,553

Primary Education for Indian Boys.

(Primary education of Indian girls and Europeans is dealt with in other chapters.)

2. **Schools.**—The number of schools for Indian boys fell during the year from 43,348 to 41,712. The following figures show the position in various areas of the Presidency:—

Division.	1938-39.						1937-38.
	Number of schools managed by Government.	Number of schools managed by district boards.	Number of schools managed by municipal boards.	Number of schools receiving aid from public funds.	Number of schools not receiving aid from public funds.	Total.	Total number of schools returned in the previous year.

Total	79	6,547	306	31,078	3,665	41,712	43,348

3. Pupils.—The number of pupils in boys' primary schools increased from 2,073,388 (including 185,238 girls) in 1937-38 to 2,165,508 (including 231,933 girls) in 1938-39. If to these we add boys reading in the primary classes of secondary schools the total is 2,151,668 against 2,100,496 in the previous year.

The following table shows the proportion of boys in the different primary classes of schools in 1938-39 and in the previous year:—

	1937-38.	1938-39.
Class I	994,443	914,428
Class II	506,160	596,842
Class III	297,203	319,010
Class IV	170,648	179,873
Class V	132,042	141,515
Total	2,100,496	2,151,668

The stagnation and wastage in the primary stage are still appalling, but there are signs of improvement. The significant decrease of 80,000 pupils in Class I is more than counterbalanced by the increase of over 90,000 pupils in Class II, and shows that the "Centre of gravity" in these schools is rising. There are also small but welcome increases in the numbers of pupils in the higher classes.

During the year under report a committee was constituted to advise Government concerning the problem of primary education. The first problem to be solved is that of ensuring a supply of teachers who are not only trained for their work, but have the innate capacity to teach efficiently. The following are some of the recommendations of the committee:—

- (1) All newly appointed teachers should be matriculates and should be trained.
- (2) Primary school teaching should be made a profession with prospects of promotion to Inspectorships as well as Head-masterships.
- (3) An additional supply of 6,000 trained teachers per year is required and arrangements should be made accordingly. The training should cover everything that appertains to village life and welfare.
- (4) Where possible trained lady teachers should be appointed for primary schools.

The recommendations of the committee are now under the consideration of Government.

4. Relative progress of Hindus and Muhammadans.—Classified according to communities there were altogether 955,672 Hindu and 1,176,974 Muhammadan boys in the primary stage in 1938-39 against 933,106 and 1,147,410, respectively, in the previous year.

5. Expenditure.—The total cost of maintaining primary schools for Indian boys increased during the year from Rs. 68,46,038 to Rs. 70,03,713. Of this amount Rs. 44,86,464 or 64.1 per cent. was from

Public Funds and Rs. 25,17,249 or 35.9 per cent. from private sources: the percentages in the previous year were 59.5 and 40.5 respectively. The expenditure from Public Funds was made up as follows:—

Year.	Provincial revenues.	District funds.	Municipal funds.	Total.
	Ra.	Ra.	Ra.	Ra.
1937-38	23,57,296	8,03,441	9,09,242	40,69,979
1938-39	27,40,971	7,42,441	10,03,052	44,86,464

6. **Primary schools in Calcutta.**—The number of boys' primary schools in Calcutta rose during the year from 527 to 550 and pupils attending them from 43,452 to 45,443. Of the schools 140 were free primary schools managed by the Corporation of Calcutta. Free and compulsory primary education had been introduced in Ward No. IX of the city, and the Corporation had under consideration an extension of the system to two more wards of the city, Nos. XIII and XXII.

7. **Night and continuation schools.**—Night schools are held in the evening for about a couple of hours daily, and are attended mostly by adults, who cannot attend day schools on account of their occupations. They usually teach the lower primary course. In the year under report there were 1,152 night schools in the Presidency which taught 27,262 pupils.

There are also in Calcutta and Presidency Division night continuation schools of two sorts. One teaches the three R's up to the Primary Standard while in the other are taught some of the major subjects of a middle school course together with a technical subject, usually tailoring, carpentry hat-making, book-binding or type-writing. On the 31st March 1939 there were altogether 337 continuation schools in Bengal which taught 10,747 pupils.

8. **Examinations.**—In the year under report 45,918 boys appeared in the Primary and Maktab Final Examination, and 35,125 passed.

9. **Double-shift system.**—The double-shift system exists in 5 Bins' type schools in the district of Bogra, but it has not been found very satisfactory.

10. **School post offices.**—The number of Primary School teachers who worked as post masters during the year under review was 272 against 268 in the previous year. The remuneration given for this postal work varied from Rs. 5 to Rs. 16 a month.

11. **Primary education in district school board areas.**—During the year 1938-39, two new school boards were established under the Bengal (Rural) Primary Education Act, 1930, in the districts of Tipperah and Faridpur besides the twelve existing School Boards of Mymensingh, Dacca, Chittagong, Noakhali, Pabna, Bogra, Rangpur, Dinajpur, Jalpaiguri, Nadia, Murshidabad and Birbhum, which continued to function during the year.

Besides Mymensingh where the Education Cess continued to be realised, the cess was also imposed and realised in the districts of Dacca and Tipperah where necessary steps were taken for the introduction of

free primary education. The method of operation in Mymensingh, Dacca and Tipperah is given below:—

The lowest class (*i.e.*, Class I, the beginners' class in the new 1938 curriculum) is taught separately from the three other higher classes from 10 a.m. to 12-30 p.m. All teachers come to school at 10 a.m. and are engaged in the work of this class, the pupils of which are divided into as many groups as there are teachers in the school according to the standard of their attainment. The class is dismissed for the day at 12-30 p.m. The teachers then enjoy a recess for half an hour. At 1 p.m. the work of Classes II, III and IV begins and continues till 4 p.m. after which extra-curricular activities for these classes are taken up.

Some of the advantages of this method are—

- (1) The majority of the pupils being in the lowest class, the difficulties of accommodation have been considerably reduced.
- (2) Better and more effective teaching of the beginners has been made possible. This is perhaps the most noticeable result and is in striking contrast with former conditions in which most attention was paid to the teaching of the higher classes.
- (3) Economy in the number of teachers.
- (4) As all the children are not confined in the school simultaneously and particularly as the bigger children attend school in the afternoon, the procedure finds favour with parents.

In order to encourage local contribution and supplement the receipts from the Education Cess, an additional Government grant of Rs. 5 lakhs was distributed to the districts of Mymensingh, Dacca and Tipperah, the three districts in which the cess was imposed.

12. Free primary education in municipalities.—Primary education for boys is already free and compulsory in the Chittagong Municipality. The largest achievement in this sphere during the year was the sanction by Government to a scheme for the introduction of free and compulsory primary education for girls of school-going age in the Chittagong Municipality. Sixteen girls' primary schools are to be improved in the course of two years so that compulsion can be introduced from 1940-41. Pending the introduction of the Primary Education Act of 1930 any extension of Biss' scheme to rural areas has been suspended. But a departure has been made in the district of Midnapur in view of a donation received by the district board for the establishment of a free primary school at Uttar Gobindanagar.

13. Teachers and their training.—The teaching of young children is a skilled art, and the training of teachers is one of the most vital problems that confronts the department, for unless trained teachers are available the reorganisation of primary schools will not produce effective results. Steps are being taken for the establishment of training centres (attached to selected high schools) for teachers of primary schools in cess-paying districts in the near future.

The total number of guru and muallim training schools which train teachers of primary schools was 84 at the end of the year under review and the number of students in them was 2,379 against 2,358 in the

previous year. Of these schools 76 were managed by Government, 1 by the Corporation of Calcutta and the rest by private management. With the introduction of the Bengal Rural Primary Education Act of 1930 there has been an increasing demand for admission to these guru training schools.

CHAPTER IV.

Secondary Education.

General.—During the year under review signs of steady improvement in numbers in the sphere of secondary education were noticed. The following figures illustrate the position for the years 1937-38 and 1938-39 in respect of all secondary schools for boys and girls:—

	1937-38.	1938-39.
High English Schools	1,314	1,355
Middle English schools	1,968	2,038
Middle vernacular schools	44	38
Number of pupils	554,416	575,298
Cost of maintenance	Rs. 1,75,29,900	Rs. 1,82,52,674

The figures indicate an increase both in the total number of schools and pupils. As in previous years the numerical decline occurs only in middle vernacular schools.

Secondary Education for Indian Boys.

(The secondary education of Indian girls and of Europeans is dealt with in other chapters.)

2. **Schools and pupils.**—The total number of secondary schools for Indian boys rose during the year from 3,102 to 3,181. High English schools increased from 1,202 to 1,236 and middle English schools from 1,860 to 1,911, while middle vernacular schools fell from 40 to 34. Pupils reading in high schools rose from 317,119 to 322,771 or by 5,652 and those in middle English schools from 190,849 to 202,916 or by 12,067; but the number in middle vernacular schools fell from 3,187 to 2,982 or by 205. The figures for pupils in 1938-39 include 816 girls reading in high schools, 5,266 girls in middle English schools and 260 girls in middle vernacular schools.

3. **Expenditure.**—The total cost of maintaining secondary schools for Indian boys rose during the year under review from Rs. 1,43,79,835 to Rs. 1,48,98,662. Of the total expenditure Rs. 23,39,440 or 15·7 per cent. came from public funds and Rs. 1,25,59,222 or 84·3 per cent. from private sources, as compared with Rs. 22,07,246 or 15·3 per cent. and Rs. 1,21,72,589 or 84·7 per cent. respectively in the previous year. High English schools cost during the period Rs. 1,17,56,222, middle English schools Rs. 31,06,548 and middle vernacular schools Rs. 36,892;

the corresponding amounts in the previous year were Rs. 1,12,76,624, Rs. 30,61,727 and Rs. 44,484 respectively. The expenditure on middle vernacular schools decreased with the decline in their number.

4. **Manual instruction.**—About sixty high and middle schools continued their arrangements for imparting manual instruction to their pupils. Carpentry, weaving, spinning and tailoring were some of the main subjects taught. They are useful as they foster the growth of the creative power latent in the children and help to break the monotony of normal class-room work.

5. **Agricultural education.**—In accordance with the programme of work outlined in the scheme for the introduction of agricultural education in non-Government secondary schools, the monthly allowance of Rs. 10 each payable to the teachers trained in agriculture was renewed in favour of 52 teachers according to the recommendation of the Director of Agriculture, Bengal. The schools which suffered loss on the working of their farms or gardens also received grants up to a maximum of Rs. 100 in the case of a farm and Rs. 20 in the case of a garden. Twenty-one middle English schools opened continuation classes and nine teachers (in three batches) were deputed for training at the Dacca Farm. The schools in which the schemes have been introduced are working fairly well.

6. **School Final Classes (Science Side).**—The Science Course Classes attached to 7 high schools in the Presidency had an enrolment of 169 pupils on 31st March 1939. Out of 75 students who were sent up for the School Final Examination 56 were successful.

Under the new syllabus of the Calcutta University, Elementary Science has been made a compulsory subject of study in the high schools and many schools have made necessary arrangements for teaching it.

7. **Results of Matriculation Examination.**—The number of boys who appeared at the Matriculation Examination of the Calcutta University and the High School Examination of the Dacca Board of Intermediate and Secondary Education was 37,812. Of these 22,525 came out successful. The corresponding numbers in 1938 were 26,204 and 20,582 respectively.

8. **Curriculum.**—The new Matriculation syllabus of the Calcutta University has been introduced in high schools. By this, besides the vernacular being adopted as the medium of instruction except in English, History and Geography have been made compulsory subjects of study. The scheme for introducing vernacular as the medium of instruction in schools under the Board of Intermediate and Secondary Education, Dacca, has been approved by Government and will be given effect to shortly.

9. **Grant-in-aid system.**—The general principles governing the award of grants to secondary schools were the same as in the preceding year, but on account of the widespread economic depression, the rules had to be relaxed in favour of certain schools. Additional allotments were placed at the disposal of the Inspectors of Schools for grants to non-Government secondary schools.

10. **Teachers.**—There were 28,110 male teachers in secondary schools on 31st March 1939. Of them 5,852 were trained against

22,258 untrained. The salaries of teachers serving in the majority of private schools continued to be inadequate and hence they were often compelled to resort to private tuition or other occupations to supplement their income.

11. **Training of teachers.**—The two Government training colleges at Calcutta and Dacca which train English teachers of secondary schools had an enrolment of 182 students on the 31st March 1939. All the students read the B. T. course. The cost of upkeep of the two colleges amounted during the year under report to Rs. 92,345 as compared with Rs. 97,047 in 1937-38.

There are also arrangements for the teaching of the B. T. course in St. Xavier's College, Calcutta. This department had an enrolment of 14 students on 31st March 1939.

During the session 1938-39 certain students of the Teachers' Training College, Dacca, who took up educational measurements, carried on the following investigations under the guidance of Professor H. C. Banerji and Mr. Solman Chowdhury, Lecturer of the College:—

- (1) Group Tests of Intelligence for Bengali pupils (Classes V-X).
- (2) A Study of the Relation between Speed and Accuracy in the Four Fundamentals.
- (3) A Memory Test.
- (4) Measurements of Achievements in the Four Fundamental Operations of Arithmetic.
- (5) A Study of the Alternative Methods of Multiplication.
- (6) Experiments in curriculum-making.

Out of 314 students who appeared at the B. T. Examination in Bengal 249 came out successful.

The facilities for training have been widened by the University of Calcutta which has started short training courses for teachers in specific subjects, thus supplementing the work of the Government training colleges.

A system has lately been introduced permitting the graduate teachers of secondary schools to appear at the B. T. Examination as private candidates under certain conditions. Some high schools have been selected where graduate teachers working under the supervision of some other trained teachers of the school will be able to take the B. T. Examination of the Calcutta University as non-collegiate students. A sum of Rs. 100 has been sanctioned for each approved school for purchasing books of reference and dealing with methods of teaching. The problem of the dearth of trained teachers in non-Government secondary schools may to some extent be solved by the adoption and steady maintenance of this system.

On the 31st March 1939 there were 4 normal schools in Bengal. These schools are for those intending to become vernacular teachers in secondary schools. The normal schools had 349 pupils on 31st March 1939 and the cost of upkeep of these schools amounted during the year under report to Rs. 1,00,773, nearly the whole of which was paid from provincial revenues. Out of 221 candidates who sat for the examination 192 came out successful.

12. **General.**—The new regulations of the Calcutta University should lead to a general improvement in the quality of training given to the students in the secondary schools. It is feared however that the inadequate financial resources of the schools will prove a great obstacle to an efficient development of the school work according to the new scheme.

The provision of more trained and better paid teachers and more satisfactory equipment of the schools are urgent problems, and the sooner they can be solved the better.

CHAPTER V.

University and College Education.

Calcutta University.—Mr. Syamaprasad Mookerjee, M.A., B.L., Barrister-at-Law, etc., remained as Vice-Chancellor of Calcutta University up till 7th August 1938 when he was succeeded by the Hon'ble Khan Bahadur M. Azizul Huque, C.I.E., B.L., M.L.A., Speaker of the Bengal Legislative Assembly. During the year the following new courses of study were introduced and Regulations framed for them:—

- (i) Teachers' Training Certificate Examination—General, Science and Geography.
- (ii) Degree Course in Metallurgy.
- (iii) Degree Course in Architecture.

The University is also contemplating the introduction of a Degree Course in Technology.

The receipt of a block grant of Rs. 4,85,000 from Government during the year enabled the University to give effect to most of the recommendations, either in full or in a modified form, of the University Organisation Committee appointed by the Senate and approved by Government.

The following table shows the number of students in the University of Calcutta during the last 2 years:—

	1937-38.	1938-39.

2. **Dacca University.**—Dr. R. C. Majumdar, M.A., was Vice-Chancellor of Dacca University during the year. The schemes for the establishment of a Faculty of Agriculture and a Faculty of Medicine made considerable progress in the year under review. The number of students in the University rose from 1,316 to 1,471; of this number 873

(including 73 women students) were reading for Arts degrees, 331 for Science degrees, while 104 were in the Law Department, 143 in the Commerce Department and 20 were engaged in research.

3. **Board of Intermediate and Secondary Education, Dacca.**—The Dacca Board has completed the 18th year of its life. Mr. J. N. Roy, Assistant Inspector of Students' Residences, Dacca, continued to act as Secretary to the Board in addition to his own duties. The cost of maintaining the Board amounted during the year to Rs. 39,688. Excluding the Islamic Intermediate Colleges at Dacca, Chittagong and Serajganj, the number of Intermediate Colleges remained unchanged at 5. Two of these colleges, viz., Dacca Intermediate College and Eden Intermediate College for Girls, were maintained by Government, and the Jagannath Intermediate College was aided.

4. **Colleges.**—The total number of Arts Colleges in Bengal rose during the year from 50 to 51, the increase being due to the inclusion of the Salesian College, which has moved from Shillong to Sonada (Darjeeling). Of the colleges 44 were for men and 7 for women. The enrolment of these colleges increased from 27,978 to 30,687, but the cost of their maintenance fell from Rs. 40,42,303 to Rs. 40,29,072. Of the 44 men's colleges, 10 (including the Islamic Intermediate Colleges) were maintained by Government, 22 received aid from Government and 12 were unaided. The following tables give figures for the enrolment and the cost of upkeep of Arts colleges for men for the last two years:—

During the year under review a sum of Rs. 2,37,000 was distributed as grants to non-Government arts colleges. On the recommendation of the University of Calcutta a sum of Rs. 80,000 was also distributed for the improvement of libraries, laboratories and gymnasia.

5. **Government colleges.**—The number of students reading in Government arts colleges for men rose from 3,842 to 4,199. The cost of upkeep of these colleges fell from Rs. 15,54,322 to Rs. 14,77,495; of this sum Rs. 10,08,468 was contributed from provincial revenues. In the aided colleges the number of students rose from 12,285 to 13,814 and the cost of maintenance from Rs. 14,03,698 to Rs. 14,02,184; of this Rs. 2,40,876 was contributed from provincial revenues.

In the unaided colleges the total number of students rose from 10,590 to 11,168 and the cost of upkeep from Rs. 9,16,354 to Rs. 9,62,214.

CHAPTER VI.

Professional and Technical Education.

The number of students reading in the three institutions fell from 1,987 to 1,891; of these 1,525 were Hindus and 326 were Muhammadans. The upkeep of the University Law College, Calcutta, and the Ripon Law College

cost Rs. 1,85,189 as compared with Rs. 1,84,281 in the previous year. (The expenditure incurred for the maintenance of the Law Department of the Dacca University which has not been shown separately in the University Returns is included in the General Tables under the head "Universities".) Out of 656 candidates who appeared at the Final B. L. Examination from the three institutions 475 came out successful.

2. Medical colleges and schools.—Higher medical instruction is provided in three institutions, viz., Calcutta Medical College, the Carmichael Medical College, Belgachia, and the School of Tropical Medicine and Hygiene, Calcutta. The three institutions enrolled 1,517 students (including 39 women) on 31st March 1939, compared with 1,521 students (including 28 women) on the corresponding date in the previous year. Of the total number 65 were Europeans and Anglo-Indians, 1,360 were Hindus and 73 were Muhammadans. The cost of maintaining the three institutions rose during the year under review from Rs. 8,64,413 to Rs. 10,46,771. In the Final Examination the three institutions presented altogether 554 students of whom 242 were successful.

Of these students, 9 were Anglo-Indians and Europeans, 270 were Hindus, 48 were Muhammadans and the rest came from other communities. The average annual cost per student was Rs. 1,057 of which Rs. 808 was borne by Government. The results of the college in the various examinations held during the year under review are shown below:—

Examination.	Candidates.	Passed.

The authorities of the Calcutta University have framed Regulations for a Degree course in Architecture and the Principal, Bengal Engineering College, has been requested to draw up a scheme for the teaching of this subject. The scheme for opening at this college a three years' course leading to a B. Sc. degree in Metallurgy has been administratively approved by Government.

5. Ahsanullah School of Engineering, Dacca.—In the Ahsanullah School of Engineering, Dacca, the roll strength rose during the period from 439 to 447 (145 in the Overseer Classes, 231 in sub-overseer classes and 71 in the Artisan Classes). Of these students 292 were Hindus, 150 were Muhammadans and 5 of other communities. Thirty one students passed the Final Examination out of the 35 who sat for it.

8. Commercial education.—Facilities for advanced commercial education were provided, as before, in the two Universities of Calcutta and Dacca and the Commerce Department of the Vidyasagar College, Calcutta. Teaching in I. Com. is imparted by Jagannath Intermediate College, Dacca. Five-hundred and thirty four candidates sat for the B. Com. Examination in the two Universities, and 300 obtained the degree. In the I.A. Examination of the Dacca Board with Commerce as a special subject 146 candidates appeared, of whom 57 were successful.

and from affiliated institutions and as private candidates is given below:—

Final Examination.

		Number appeared.	Number passed.
Government Commercial Institute	..	128	104

Special Examination.

Government Commercial Institute	..	149	76
Affiliated institutions	..	368	180
Private	..	21	8

The syllabus of studies in the Day course has been thoroughly recast and brought up to date, and Economics has been included as an independent subject of study. The Day course is steadily gaining in recognition and during the year the Boards of intermediate Education at Dacca and Allahabad recognised the Final Examination of the Government Commercial Institute as equivalent to their Intermediate Examination for the purpose of admission into Degree Classes in Arts and Commerce at the Dacca and Allahabad Universities.

9. Weaving schools.—The weaving schools in Bengal continued, as before, to be controlled by the Director of Industries, Bengal. Weaving was taught in a few secondary schools, but for the most part the training was given in special weaving schools (some of which were peripatetic), and through demonstration parties. The chief of these weaving schools is the Government Weaving Institute, Serampore. The Institute attained the status of a college of textile technology and with a view to making its name answer more appropriately to its functions, it was decided to rename it the Bengal Textile Institute. The higher course was spread over 3 years and the Artisan Course over one year. The Institute had 181 students under training on 31st March 1939 against 196 in the previous year. Twenty-eight students of the higher course passed the Final Diploma Examination. Sixty six artisan students including 8 girls passed the examination at the completion of the course. Ninety nine students passed the City and Guilds Examination in various subjects. The cost of maintenance of the institute rose during the year from Rs. 46,152 to Rs. 53,445 of which Rs. 52,425 was contributed from provincial revenues.

10. Music schools.—The number of music schools in the Presidency was 8 of which 7 received aid from public funds. In a number of girls' schools music is taught as special subject.

11. Agricultural schools.—There were 6 agricultural schools and 2 sericultural schools in the Presidency during the year under report. Of these schools 3 were managed by Government and 4 were aided. These schools had an enrolment of 138 pupils against 87 in the previous year. With regard to the teaching of agriculture in secondary schools some account has been given in Chapter IV of this report.

An institution known as Basanta Kumar Agricultural Institute was established at Rajshahi in 1936 through the munificence of the late Kumar Basanta Kumar Roy of Dighapatia for the purpose of training students in agriculture and derivative industries.

12. Other technical centres.—The following senior technical schools which afford facilities for vocational education may be specially mentioned in this report:—

- (i) The Calcutta Technical School provides for the theoretical training, with laboratory practice, of apprentices in various Engineering and other concerns in and around Calcutta, thus enabling a student to receive a sound theoretical training. The roll strength increased from 294 to 341. The cost of upkeep of the school amounted to Rs. 69,091 towards which provincial revenues contributed Rs. 34,400. In the annual entrance examination 99 candidates came out successful out of 128 registered.
- (ii) The Kanchrapara Technical School had an enrolment of 60 apprentices on 31st March 1939 against 50 in the previous year. The cost of running the school amounted to Rs. 41,044 of which Rs. 37,814 was provided from provincial revenues. Forty-two candidates appeared in different subjects at the Board of Apprenticeship Training Examination held in December 1938 and of these 37 were successful.
- (iii) The Bengal-Nagpur Technical School, Kharagpur, had 76 students in the year against 72 in the previous year. Of these 76 students 39 were Europeans and Anglo-Indians and 37 Indians. In the Annual Technical Schools Examinations held by the Board of Apprenticeship Training there were 80 candidates for examination in 8 different subjects and 40 passed.

CHAPTER VII.

Education of Indian Girls and Women.

Institutions and pupils.—During the year ending 31st March 1939 the total number of educational institutions of all types and grades meant for Indian girls fell from 17,156 to 14,973 and that of pupils attending them from 560,101 to 503,424. The decrease was chiefly in the primary schools and was due to the policy of concentration and to the encouragement of co-education in the primary stage. Girls reading in girls' schools together with those under instruction in boys' schools numbered 758,188 against 736,692; of these 323,224 were Hindus, 424,041 were Moslems and the rest were of other communities.

2. Controlling agencies.—The women inspecting staff of the department consisted of 2 Inspectresses and 12 Assistant Inspectresses of Schools, distributed equally between East and West Bengal.

3. Collegiate education.—During the year the number of arts colleges for women remained stationary at 7 (including the Women's Section of Vidyasagar College and Asutosh College, Calcutta, each of which is counted as a separate unit); two colleges—Bethune College in Calcutta and Eden Intermediate College, Dacca—are directly managed by Government. The number of students in these colleges

rose from 1,251 to 1,506. Besides these women's colleges there were 819 students in men's colleges and in university classes. The subjoined table shows the enrolment and the cost of upkeep of arts colleges for women :—

*The expenditure incurred for the maintenance of Women's Department of the Asutosh College has not been separately shown in the returns of the college.

Women students are coming in increased numbers to colleges and the demand for higher education among girls is so great that Government have sanctioned the scheme for the establishment of a new college for girls in Calcutta from July 1939 named "The Lady Brabourne College, Calcutta." The work for the extension of accommodation of the Bethune College in the Christ Church buildings is in progress. Arrangements have also been made in Bethune College for teaching Arabic, Persian and Urdu with a view to having this college affiliated in these subjects from the next session. Two State scholarships for Indian Women have been created for advanced studies in the United Kingdom.

Altogether 898 students sat for the Intermediate Examinations 364 for the Bachelor's Degree Examinations and 42 M.A. and M.Sc. Examinations during the year under review, and 559, 247 and 37 were successful.

4. **Secondary schools.**—(i) *High schools.*—The number of high English schools for Indian girls rose in the year under report from 67 to 74. Of these schools 6 are managed by Government, 60 are aided and the rest unaided. The total number of girls reading in high schools increased from 19,656 to 20,571. In the Matriculation Examination held in 1939 1,877 girls out of 3,451 were successful. There is a genuine and growing desire for higher education among women and several boys high schools have opened girls' sections with the permission of the Calcutta University. Private girl candidates are appearing in increasing numbers at the different examinations of the Calcutta University.

The new Matriculation course of the Calcutta University to be introduced from 1940 includes certain special subjects for girls like Cookery, Child Psychology, Domestic Science, Music and Painting.

(ii) The number of middle English schools for Indian girls rose from 104 to 123. Girls reading in middle English schools also rose from 16,012 to 18,896. The number of middle vernacular schools for girls, however, remained stationary at 4; these schools taught 705 girls against 668 in the previous year.

High schools for girls cost Rs. 12,41,202 and middle schools Rs. 4,60,792 during the year; of these amounts Rs. 4,39,848 and Rs. 1,80,361 respectively came from public funds.

5. **Primary schools.**—At the close of the year under review the Presidency had 14,126 primary schools for Indian girls as compared with 16,712 in the previous year and the number of girls reading in primary schools fell from 684,262 to 680,622. One of the most important events during the year is the sanction by Government to a scheme for the introduction of free and compulsory primary education for girls of school-going age in the Chittagong Municipality, where primary education for boys is already free and compulsory. Chittagong is the only municipality in the province which has taken steps for making girls' primary education free and compulsory. For the education of peasant girls in remote places, there are 22 peasant girls' primary schools all of which are located in the Presidency Division. Private agencies such as the Society for the Improvement of Backward Classes and Missionary Societies have done most valuable work for the spread of education among Indian girls by maintaining numerous girls' primary schools in the province. Primary schools for Indian girls cost Rs. 15,34,637 during the year and of this amount Rs. 10,80,421 was contributed by public funds.

6. **Special schools.**—On the 31st March 1939 the Presidency had 75 technical, industrial and other special schools for Indian girls, which were attended by 5,532 pupils; the corresponding numbers in the preceding year were 67 and 4,713 respectively. In special schools, girls are taught such arts and crafts as will enable them to earn a living, the training being supplemented by some amount of general knowledge. The technical subjects that are usually taught are needle-work of various kinds, lace-making, embroidery, weaving, spinning and tailoring. The Kalimpong School has acquired a name for itself by its fine lace-making, beautiful embroidery, leather work and useful handicrafts.

7. **Needle-work.**—The quality of needle-work is reported to have improved immensely in schools, and peripatetic needle-work teachers are in great demand in mufassal schools. The Lady Carmichael Needle-work Diploma is a great stimulus making for improvement.

8. **Handwork Exhibition.**—The second annual Handwork Exhibition was held in the premises of the United Missionary Training College, Calcutta. Her Excellency the Lady Brabourne was graciously pleased to perform the opening ceremony on 3rd February 1939. After the Exhibition was declared open, Her Excellency inspected the Exhibition and spoke highly of the handwork done by students under training.

9. **Training of teachers.**—There is no Government training college for the training of women graduates and the needs of the province are very inadequately met by the Training Departments at Scottish Church College and Loreto House, Calcutta. The combined capacity of these

is 49. Three women teachers were also trained at the Teachers' Training College, Dacca.

Training schools which afford facilities to women teachers employed in primary schools and the lower classes of secondary schools work up to two standards—senior and junior. There are 12 of these training schools for women, three of which are maintained by Government, and the number of pupils in them was 374 as compared with 342 pupils in the preceding year. The output of training schools is infinitesimal when compared with the need for trained teachers. A refresher course for 25 teachers has been started as an experimental measure in 1939-40 to be attached to the Hindu Female Training School. A number of centres will be opened in the near future, if this proves successful.

The following table shows the number of trained women teachers in high, middle and primary schools:—

Women teachers.				
			Total number of teachers	Number of trained teachers.
Primary schools	5,109	847
Middle schools	618	309
High schools	773	299

The Advisory Board of Women's Education, Bengal, continued its good work for the improvement of female education.

CHAPTER VIII.

Education of Anglo-Indians and Europeans.

Controlling agency.—During the year under review Dr. H. Thomas continued to work as Inspector of European Schools, Bengal.

2. Institutions.—European schools in Bengal are mainly concentrated in important centres like (1) Calcutta, Hooghly and Howrah, (2) Darjeeling, Kurseong and Kalimpong, (3) Asansol, (4) Chittagong, (5) Dacca, and along the different Railway systems. The number of institutions for the education of Anglo-Indians and Europeans fell in the year under review from 68 to 67, the decrease of one school being due to the abolition of the School of Physical Education run by the Young Women's Christian Association, Calcutta. Of these 67 institutions 63 were for general education and 4 for special instruction. The 63 institutions which provide general education include 24 secondary, 20 higher grade, 18 primary, and 1 ungraded schools. The 4 special schools mentioned above are (1) the Dow Hill Training College, Kurseong, (2) the Commercial Classes attached to the Young Women's Christian Association, Calcutta, (3) the Children's House, Kurseong, and (4) the Fendall Home, Calcutta. Three of these institutions, viz., Victoria Boys' School and Dow Hill Girls' School, Kurseong, for general education and Dow Hill Training College,

Kurseong, for the training of school mistresses, are directly managed by Government, the rest are managed by various religious and philanthropic societies and Railway authorities.

3. **Pupils.**—The following table shows the distribution of the European schools of the Presidency according to management together with their roll strength:—

	1937-38.		1938-39.	
	Number of schools.	Number of pupils.	Number of schools.	Number of pupils.
Government	3	330	3	310
Church of England	9	2,046	9	2,044
Church of Rome	30	7,165	30	7,391
Non-conformist	4	878	4	907
Jewish	3	390	3	397
Armenian	1	93	1	98
Seventh Day Adventist	1	57	1	62
Undenominational	17	1,617	16	1,596
Total	68	12,582	67	12,808

The total number of pupils in schools for Anglo-Indians and Europeans thus rose during the year under report by 223. Of the total number of pupils 6,808 were boys and 5,997 were girls. The total number of non-European pupils reading in European schools numbered 3,117, against 3,044 in the previous year; of them 1,165 were Jews, Armenians, Indian Christians and others.

4. **Expenditure.**—The total cost of upkeep of the schools for Anglo-Indians and Europeans amounted during the year under review to Rs. 38,19,615 (including boarding charges of Rs. 10,64,670) as compared with Rs. 36,72,763 in the previous year. The amount was derived from the following sources:—

	1937-38.		1938-39.	
	Rs.		Rs.	
Provincial revenues	0,49,141	..	0,60,895
Municipal grants	32,124	..	28,641
Fees	10,99,107	..	17,04,047
Other sources	7,92,391	..	11,20,032
Total	36,72,763	..	38,19,615

It will be noticed that expenditure increased under all the heads except "Municipal grants".

5. **Scholarships.**—The total amount expended for the award of scholarships to pupils in European schools during the year 1938-39 was Rs. 32,725 as compared with Rs. 26,704 in the previous year. This figure represents the amount actually drawn by the pupils, but excludes the scholarships which were awarded in other provinces but paid in Bengal. Altogether 292 scholarships were awarded from provincial revenues against 190 of last year.

6. **Teachers.**—There were 862 teachers employed in European schools on 31st March 1939 as compared with 856 in the previous year. Of the 862 teachers 193 were graduates, 535 (including 127 graduates) were trained and 327 (including 66 graduates) were untrained. Inducement in the shape of increased salary grant is being given for the employment of a larger number of trained and better qualified teachers in schools with a view to increasing their efficiency.

7. **Training of teachers.**—No teacher was sent to the Chelmsford College, Ghoragali, Punjab, for training during 1938-39. Two scholarships were awarded for the training of men teachers at St. Xavier's College, Calcutta.

The Dow Hill Training College, Kurseong, which affords training facilities to European and Anglo-Indian women teachers, enrolled 14 students on the 31st March 1939 as compared with 16 students in the previous year. At the annual examination of the second year class of the college held in November 1938, 6 senior students presented themselves and all were successful.

Domestic Science has now been made compulsory in all European girls' schools in Bengal, but there is no suitable college in Bengal where teachers can be trained in that subject. Arrangements are therefore being made to award suitable scholarships to enable prospective teachers to take their training at the Lady Irwin College, Delhi, for the full course of three years.

8. **Examination.**—The following table shows the results of the various examinations held in 1937-38 and 1938-39:—

	1937-38.				1938-39.

9. Education of subnormal children.—The Children's House, Kurseong, which adopts special methods of training to mentally and physically defective European and Anglo-Indian children in this Presidency had 26 pupils on the 31st March 1939 as against 28 pupils in the previous year. Stipends amounting to Rs. 2,220 were awarded by the department during the year under review towards the maintenance and education of children living in the House. The institution is inspected by a Board of Visitors appointed by Government for the purpose.

10. Rescue and rest home for girls.—The Fendall Home, Calcutta, is a home for destitute European and Anglo-Indian girls who are out of work and in need of rest. Rescue cases are taken in as well. On the 31st March there were 33 girls in residence as compared with 40 girls in the previous year. The Home received a grant of Rs. 960 from Government as compared with Rs. 900 of last year. The total expenditure incurred by the institution amounted to Rs. 14,520 during the year under review.

11. Trust funds.—(i) *Sussex Trust.*—The income of the fund was Rs. 33,559-8-4 during the year 1938-39 and the expenditure for the same period was Rs. 27,201-9-10. Six overseas scholars and 30 local scholars profited by the scholarships awarded.

(ii) *Doveton Trust.*—The total amount of receipts (including the opening balance on the 1st April 1938 and the interest on Government securities accrued during the year) derived from the Doveton Trust Fund was Rs. 10,673-5-11 and the total expenditure during the same period was Rs. 9,110-5. Altogether 46 scholarships were awarded during the year under report.

12. European School Code.—The Code of Regulations (1929) for European Schools has been revised and printed during the year.

13. Provincial Board of Anglo-Indian and European Education.—The Provincial Board of Anglo-Indian and European Education held its regular four meetings during the year under review. Among the important matters discussed were the following:—

- (1) facilities for the improvement of the qualifications of men teachers in respect of Physical Training,
- (2) provision of stipends at the Lady Irwin College, New Delhi, for the training of prospective Domestic Science teachers,
- (3) opening of an inter-provincial register of teachers seeking employment in European schools throughout India,
- (4) proposals regarding the conditions of service of teachers in the European schools in Bengal,
- (5) proposal for instituting an All-India Examination of a prevocational nature,
- (6) relaxation of the rules relating to the compulsory test in an Indian language in the entrance examinations to the Bengal Civil Services,
- (7) proposal to close Dow Hill Training College, Kurseong, and to provide alternative arrangements for the training of teachers, etc.

CHAPTER IX.

Education of Muhammadans and other Special Classes.

Education of Muhammadans: Statistics.—In the year under review the total number of Moslem students reading in all grades of educational institutions for Indians rose from 1,777,880 to 1,829,332. Of the total number 1,405,283 were boys and 424,049 were girls, as compared with 1,284,085 boys and 323,224 girls of the Hindu community returned on 31st March 1939. The proportion of Moslem students to the total number of pupils under instruction at the end of the year was 52·7 per cent., the same as in the previous year. The following table gives figures for the two years 1937-38 and 1938-39 in different grades of institutions:—

		1937-38.		1938-39.	
		Number of Muham- madan students.	Percentage.	Number of Muham- madan students.	Percentage.
Arts colleges	4,941	16·2	6,042	17·4
Professional colleges	635	10·4	729	11·7
High stage	39,049	23·0	40,733	23·1
Middle stage	39,442	25·6	41,031	20·6
Primary stage	15,59,588	55·7	16,80,804	55·8
Special schools	96,339	72·8	115,610	73·1

2. **Special institutions for Muhammadans.**—(a) Apart from the ordinary institutions which are open to students of all communities, there are a number of institutions of all grades which offer special facilities for Moslem students. Higher education is offered to Moslem students by Islamia College—a first grade college in Calcutta—the Arabic Department of the Calcutta Madrasah, and three Islamic Intermediate Colleges at Dacca, Chittagong and Serajganj. These Islamic Intermediate Colleges are really institutions with Intermediate Classes attached to high madrasahs and are intended to lead to the course of Islamic Studies at the University of Dacca. The work and examination of these Islamic Intermediate Colleges are controlled by the Board of Intermediate and Secondary Education, Dacca. During the year the College section of the Chittagong Madrasah has been put on a permanent basis, and the scheme of raising the Hooghly Madrasah to the status of an Islamic Intermediate College from July 1939 has been sanctioned by Government. The number of students in the three Islamic Intermediate Colleges rose from 288 to 296 in the year under review. Out of 163 students who appeared at the Islamic Intermediate Examination of 1939, 111 came out successful. One of the three Halls of the Dacca University, the Salimullah Moslem Hall, is also set apart for Moslem students.

(b) There are two types of madrasahs in the province—the Reformed type and the old type. Madrasahs of the Reformed type correspond to secondary schools, junior madrasahs to middle English schools and high madrasahs to high English schools. The department

controls the examination of junior madrasahs, while the Board of Intermediate and Secondary Education, Dacca, regulates the curricula and examinations of high madrasahs. The following table gives figures relating to both types of madrasahs:—

		Number of madrasahs.	Number of pupils.	Cost of maintenance.	Cost from public funds.
				Rs.	Rs.
(a) High madrasahs	Now type	42	8,590	3,79,941	1,09,311
(b) Junior madrasahs		597	64,788	10,11,067	3,25,061
(c) Senior madrasahs	Old type	80	10,984	3,16,792	1,29,831
(d) Junior madrasahs		86	5,270	45,854	5,147
Total		805	89,632	17,53,644	6,59,850

The old type senior madrasahs are still popular with the orthodox section of the Moslem community. The most important is the Arabic Department of the Calcutta Madrasah. The Government aid to these madrasahs has given an impetus to the growth of such institutions. There is a feeling that the scheme requires overhauling to suit the present requirements of the community.

The examinations of the old type madrasahs are controlled by the Board of Central Madrasah Examination in Calcutta.

(c) During the year ending 31st March 1939 the maktabas or secularised primary schools for Moslems fell from 24,388 to 18,959, of which 12,538 were for boys and 6,421 for girls. The number of pupils reading in maktabas fell from 993,300 to 774,639 of whom 527,900 were boys and 246,739 girls. There was a considerable falling off in the number of maktabas and the number of pupils attending these schools. The decrease is due to the fact that a large number of maktabas were converted into free primary schools owing to the policy of centralisation for the introduction of the Bengal Rural Primary Education Act of 1930. The total cost of maintaining these maktabas amounted in the year under report to Rs. 16,62,979 of which Rs. 9,83,964 was met from public funds. These very considerable reductions in number of the maktabas and pupils are the results of the deliberate policy of Government to abolish gradually the distinction between primary school and maktab. The revised curriculum for primary schools has, besides unifying several subjects of study and reducing the length of the course from 5 to 4 years, made provision for religious instruction, and the need for maktabas as separate institutions will end when this curriculum comes into force.

(d) Quoran schools are unsecularised maktabas which teach the recitation of the Holy Quoran and a book or two of the rituals of Islam through the medium of Urdu. The number of Quoran schools fell during the year from 143 to 70. The secularisation of Quoran schools and their inclusion among recognised maktabas account for the gradual decline in their number.

(e) The number of muallim training schools, which are intended to provide maktab teachers, remained unchanged during the period at 6; all are managed by Government.

3. **Education of Muhammadan girls.**—During the year under review the number of Muhammadan girls reading in all classes of recognised institutions fell from 417,055 to 410,132. Of the total number, 86 were in the arts and professional colleges, 492 were in the high stage, 745 were in the middle stage, 403,715 were in the primary stage and 5,094 were in special schools; the corresponding figures in the previous year were 55, 414, 631, 412,178 and 3,777 respectively. The scheme for the establishment of a new college for Moslem girls in Calcutta was sanctioned by Government in the year under report.

4. **Special facilities.**—To encourage Moslem education in the province Government have provided many facilities, such as reservation of places in Government and aided schools, grants of special scholarships, stipends and of free-studentships.

5. **Chiefs and nobles.**—There is no institution in Bengal which is meant specially for educating the sons of chiefs and nobles. But there are special arrangements for education of the boys of the Nizam family in the Nawab Bahadur's Institution, Murshidabad, where a separate hostel has been reserved for them. The Nizam boys live in this special hostel under the direct supervision of the head master of the school. The number of Nizam boys in residence in the hostel was 26 in the year, and the maintenance of the hostel cost Government Rs. 4,926.

6. **Education of the children of backward classes.**—The extension of the franchise and the reservation of a number of seats for the backward classes (now called the scheduled castes in the Government of India Act) in the Provincial Legislature created great enthusiasm amongst them for higher education. In order to look after the education of the boys and girls of the scheduled caste communities Government have created the post of a Special Officer for scheduled castes education. A non-recurring grant of Rs. 5 lakhs was sanctioned during the year for the spread of education among the backward classes and a committee was appointed to investigate the problem of improving the education of scheduled castes in the province. One State scholarship for the students of the scheduled castes for study abroad has been created by Government. Apart from the recurring provision of Rs. 29,160 which has been sanctioned for scholarships and stipends for students belonging to the scheduled castes, a lump provision of Rs. 19,200 has in addition been allowed for affording them further facilities for education. The number of boys and girls belonging to educationally backward classes under instruction from various types of schools and colleges in Bengal (as indicated below) will give some idea of what progress has been achieved by them in education during the period under report:—

				Boys.	Girls.	Total.
<i>Class of institution.</i>						
Arts colleges	1,017	12	1,029
Professional colleges	132	2	134
Secondary and primary schools	378,068	75,434	453,502
Special schools	8,984	394	9,378
Unrecognised schools	6,689	1,828	8,517
Total	394,890	77,670	472,560

The corresponding figures on the 31st March 1938 were 367,269, 74,766 and 442,035 respectively. The following paragraphs indicate the educational progress that was noticeable among the children of the educationally backward classes in each division in the Presidency:—

(i) *Calcutta*.—During the year under report there were 7 primary schools with 325 pupils under the management of different Christian missions for the education of the children of educationally backward classes. Besides, there were one technical school and six night schools under the "Working Men's Institute, Calcutta." The Harijan Utthan Society managed 1 industrial and 24 primary schools.

(ii) *Presidency Division (outside Calcutta)*.—The Namasudras, Paundras and Rajbansis form the bulk of the scheduled castes population in this division. There were 92,084 boys and 16,919 girls of the backward classes against 91,778 boys and 15,546 girls in the previous year. The number of schools chiefly intended for the education of backward classes during the year under review was 5 high English, 48 middle English and 802 primary schools. The primary schools at Tararat, Digba and Dhaniramechak (district 24-Pargannas) were maintained out of the Sussex Trust Fund. The Santhal Primary School at Monigram in the district of Murshidabad did good work in spreading education amongst the aboriginal tribes.

(iii) *Burdwan Division*.—The education of Sonthals in the districts of Midnapore, Bankura and Birbhum was mainly in the hands of the mission bodies. The funds allotted for their education were administered by the Board of Sonthal Education in Bankura and Midnapore and the District School Board in Birbhum. The Sonthal High School at Bhimpore (Midnapore) under the management of the American Baptist Mission enrolled 171 pupils against 148 in the previous year. The Middle Vernacular School for Girls at Bhimpore had 130 pupils including 68 boys on its rolls on 31st March 1939. The Methodist Mission at Bankura managed one middle vernacular school for boys, 1 guru training school, 1 industrial school and 92 primary schools including one for girls. There were altogether 252 Sonthal primary schools in the division on the 31st March 1939 enrolling 8,221 pupils. There were two peripatetic weaving schools in the district of Birbhum chiefly meant for the Sonthals. The total expenditure on Sonthal education during the year under report amounted to Rs. 53,238 of which Rs. 37,541 came from provincial revenues. The Suri Municipality in the district of Birbhum maintained one free primary school under Biss' scheme, specially meant for sweepers' children. It had 47 pupils including 3 girls on its rolls on 31st March 1939.

(iv) *Dacca Division*.—The number of pupils belonging to the educationally backward classes rose from 116,660 to 119,894 during the year under review. There were 8 high schools, 33 middle schools and a large number of primary schools chiefly meant for Namasudras. In the Dacca Range there were 4 middle English schools and 73 primary schools intended for aboriginal pupils. Besides, there were 104 primary schools mainly attended by pupils of other backward classes. The number of primary schools intended for Magh settlers in the colonisation area of the Bakarganj district remained stationary at 12.

(v) *Chittagong Division*.—The number of pupils of backward classes receiving instructions in various classes of schools increased from 28,385 to 35,895 during the year under review. The whole of the

district of Chittagong Hill Tracts is a backward area inhabited by 15 hill tribes. There were in the Hill Tracts 1 high, 8 middle, 145 primary schools besides 30 Keyang schools. The five Burmese primary schools in Cox's Bazar subdivision which were deprovincialised last year and placed under the management of the District School Board, Chittagong, had 234 pupils on the rolls on 31st March 1939 against 245 in the previous year. Besides there were 1 aided middle English school at Ramu and 2 aided primary schools intended chiefly for the education of the Magh pupils in the Cox's Bazar Municipality. In addition to these schools there were 34 Keyang schools which impart free education of a religious character to the Burmese pupils.

(v) *Rajshahi Division.*—The total number of pupils of the backward classes rose from 87,724 to 97,938. The Board of Sonthal Education in the district of Malda still continues, while two other Boards at Dinajpur and Rangpur were abolished with the establishment of the District School Boards in those districts and the grants which had hitherto been placed at the disposal of Sonthal Boards of Education were placed at the disposal of District School Boards to be utilised, as usual, in making special grants to the schools intended for the Sonthals. There were 2 middle English schools in Dinajpur specially meant for Sonthals. Schools chiefly intended for the education of the children of aboriginal races other than Sonthals in the districts of Jalpaiguri and Darjeeling numbered 36 during the period, viz., 3 middle English and 33 primary schools. They were subsidised from district funds and some of them received grants from provincial revenues as well.

7. **Education of criminals.**—The industrial school maintained by the Salvation Army at Nilphamari for the education of the children of the Kurwal Nuts had 29 boys and 30 girls on the 31st March 1939 against 36 boys and 32 girls respectively in the previous year. Instruction is imparted in Farming, Weaving and Knitting besides the ordinary subjects of primary school curriculum. The total expenditure for the upkeep of the school amounted to Rs. 11,000 which came from provincial revenues. There is a school for criminal classes at Kaktenguir in Kishoreganj subdivision of the Mymensingh district with an enrolment of 22 pupils.

The Borstal Institution at Bankura which is meant for the education of juvenile offenders of the ages from 15 to 21 had 234 pupils on the rolls on 31st March 1939 against 236 in the previous year. The total expenditure for the maintenance of this institution amounted to Rs. 47,273 which was met entirely from provincial revenues.

The Reformatory and Industrial Schools at Alipore had 271 inmates on 31st March 1939 against 280 in the previous year. The curriculum is up to the upper primary standard, and vocational training is given to every boy in one or other of the trades—weaving, blacksmithy, tinsmithy, carpentry, tailoring and gardening. The upkeep of the schools cost Rs. 58,635 met entirely from provincial revenues.

Boys released from Alipore and Hazaribagh Reformatory Schools were watched over and provided with suitable work by the inspecting staff who also distributed to the released pupils allowances received

from the Superintendents of the Reformatory Schools. There is also an Aftercare Society to watch over the work of the released pupils.

8. Education of defectives.—The Deaf and Dumb School, Calcutta, which teaches up to the Final Primary Course and in addition painting, clay-modelling, tailoring, woodwork, metal-plating, etc., had 241 pupils including 68 girls against 237 pupils including 66 girls in the previous year. One candidate secured a primary final scholarship during the year under review.

The School for the Blind at Behala (district 24-Parganas) had arrangements for teaching handicrafts in addition to the elementary three R's. There were 4 schools for defectives with 122 pupils in the Presidency Division.

As in the year before there were 3 aided deaf and dumb schools, one in each of the district headquarters of Dacca, Mymensingh and Bakarganj with 74 pupils including 16 girls. The Deaf and Dumb School at Rajshahi had 14 pupils against 10 pupils in the previous year. The Chittagong Deaf and Dumb School had 20 pupils including 8 girls on the 31st March 1939 against 21 pupils including 8 girls in the previous year. The Children's House, Kurseong, which adopts special methods of training to mentally and physically defective European and Anglo-Indian children had 26 pupils on 31st March 1939.

9. Education of factory and colliery children.—The colliery primary schools in the Asansol subdivision of the Burdwan district chiefly meant for miners' children, numbered 10 against 12 in the previous year. They enrolled 346 pupils against 356 pupils in the previous year. Mill authorities in some cases in the districts of Hooghly and Howrah maintained or subsidised primary schools meant for the children of millhands. In the district of Hooghly the number of such schools was 12 with 866 pupils against 11 with 626 pupils in the previous year. In the mill and factory areas of Budge-Budge, Ichapore, Titaghur and Kankinara, there were primary schools for the children of mill and factory workers. In the Tittaghur Factory Primary School there are classes for the Telegu, Hindi and Urdu-speaking boys. The Ichapur Rifle Factory maintains a primary school for the children of its workers.

10. Tea garden schools.—These schools are intended for the children of the labourers working in the tea estates of Jalpaiguri and Darjeeling and teach the primary course. There were altogether 163 tea garden schools with 4,395 pupils against 164 schools with 3,853 pupils in 1937-38. The total cost of maintenance of these schools was Rs. 30,596 towards which public funds contributed Rs. 12,163.

11. Education of Jains.—There were altogether 671 Jain pupils reading in different grades of educational institutions in the Presidency on 31st March 1939. Of the total number of pupils 600 belonged to primary and secondary schools and 71 to colleges.

12. Cantonment schools.—There were 3 primary schools in the cantonment areas, one at Jalapahar and the other two at Lohong with 163 pupils on the rolls against 3 schools with 155 pupils in the previous year. The total cost of maintenance amounted to Rs. 3,000 of which Rs. 1,079 came from Government and Rs. 1,607 from cantonment funds. In the cantonment areas of Barrackpur, district 24-Parganas, there were 10 primary and secondary schools under the control of the cantonment authorities. The cost of upkeep of these schools amounted to Rs. 27,181 during the year.

CHAPTER X.

Unrecognised Schools.

The number of unrecognised institutions on 31st March 1939 was 1,738 attended by 85,178 pupils against 1,260 schools with 65,029 pupils in the previous year. Various types of indigenous schools, newly started primary schools and maktaba, undeveloped secondary schools, tols, Quoran schools and Kyungs or Buddhist monastic schools are included in the category of the unrecognised schools. These schools owe their existence in some cases to the enterprise of their founder teachers; but in many cases their origin can be traced to party factions. The standard of teaching and financial condition of most of these schools are far from satisfactory.

CHAPTER XI.

Residence of Students and their Physical and Moral Training.

Hostels.—During the year 1938-39 the number of boarders residing in the hostels and boarding houses attached to educational institutions in the Presidency rose from 35,139 to 36,154. Of the total number of boarders returned on 31st March 1939 30,812 resided in hostels for Indians and 5,342 lived in boarding houses for Anglo-Indians and Europeans. Of the inmates of Indian hostels 27,073 were males and 3,739 were females. Of the Anglo-Indian and European boarders 3,001 were boys and 2,341 were girls.

The Brajamohan College, Barisal, received a capital grant of Rs. 22,163 for repairs of the hostel in the year under review. Feni College and Hetampur College also received Rs. 1,000 each for the improvement of their hostels.

As the number of resident Muslim students exceeded the accommodation available in the Salimullah Muslim Hall of the Dacca University, temporary arrangements were made for the residence of the excess number. The University applied for financial assistance for the construction of an additional Muslim Hall. A sum of Rs. 1,00,000 has been provided for the purpose in the next year's budget.

2. **Messes.**—Messes have continued to be popular with students on account of their cheapness, and absence of strict supervision. The messes (including non-collegiate hostels) administered by the Students' Residence Committee of the Calcutta University had 1,705 inmates during the year ending 31st March 1939. Those (including non-collegiate hostels) under the management of the Board of Intermediate and Secondary Education, Dacca, through the Assistant Inspector of Students' Residences accommodated 690 boarders on the same date.

3. **Physical education.**—The year under report has seen the progress of physical education in many directions. A scheme of youth

welfare, which was under contemplation, took its shape during the year under review and a sum of Rs. 2,50,000 was provided by Government of which Rs. 1,12,972 was actually spent for the purpose during the year. Each district has a District Youth Welfare Council and a trained officer in the form of a District Organiser of Physical Education. The main objects of these Councils are—

- (a) to provide opportunities for healthy living to the adults, youths and children of the district,
- (b) to inspire them with the spirit of social service, and
- (c) to co-ordinate the work of all the agencies working towards these ends.

The organisers in the districts give expert advice and endeavour to arouse the interest of the public in healthy living, and act as Secretaries to the Youth Welfare Council. They also conduct short training courses for teachers of high schools, madrasahs and primary schools. Government sanctioned a sum of Rs. 13,000 for that purpose and about 1,100 teachers were trained during the year.

The Physical Training College, which had carried on as an experimental measure since July 1932, was permanently established as the Bengal College of Physical Education in the year under report with an increased staff. A new feature in the physical education programme was the demonstration tours by the students of the College of Physical Education. They gave demonstration of games and gymnastics at Dacca, Faridpur, Mymensingh, Comilla, Chittagong, Midnapore and Asansol.

A Refresher Course for Physical Instructors took place during the year and was held for a month. It was followed by a physical demonstration at which His Excellency the late Lord Brahmourne presided. The demonstration was a great success.

The Inter-School Sports Association made very good progress during the year under review. For the first time it organised an athletic training camp with about 300 schoolboys, who came from all parts of the province.

During the year under review the following amounts were sanctioned by Government for the objects noted below in connection with the improvement of physical education:—

	Rs.
(1) Training of teachers of high schools, middle schools, madrasahs and primary schools	13,000
(2) Grants to inter-school sports associations	10,000
(3) Grants to clubs	20,000
(4) Grants to schools for the purchase of apparatus, acquirement of playing-fields, etc.	23,500
(5) Grants to colleges for the employment of trained physical instructors	2,880
(6) Refresher Course for trained Physical Instructors	6,400
(7) Peripatetic Lecturers	10,080

The Young Women's Christian Association was paid, as previously, a Government grant of Rs. 200 a month for the maintenance of the

service of Physical Directress, who has given valuable help to girls' schools in the matter of organising games and sports.

4. **Boy scouts.**—During the Scout Year 1938 there were in the Presidency altogether 10,306 scouts, 6,428 cubs, 632 rovers, 341 pack officers, 500 troop officers and 152 local association officers. The annual Government grant of Rs. 6,000 was paid to the Boy Scout Association. On the recommendation of the Provincial Organising Secretary, Bengal Boy Scout Association, a sum of Rs. 4,000 was also distributed to Government and non-Government schools for the development of scout movement in these schools.

5. **Girl guides.**—The girl guide movement is reported to have been introduced in most of the important high and middle schools. These girl guides are doing useful work.

6. **Medical inspection.**—The work of medical inspection of the boys in Government and Government-aided schools in Calcutta was conducted by three part-time medical officers. The Students' Welfare Committee of the Calcutta University was also doing extensive work among students in Calcutta. District boards and municipalities at times sent health officers for the medical inspection of schoolboys under their respective jurisdictions. These bodies also sent out sanitary inspectors and vaccinators to inoculate and give advice to teachers and students during epidemics.

7. **Hygiene.**—Hygiene continues to be a compulsory subject for Classes III to VIII. Officers of the Health Departments, both of Government and of some district boards, have been very helpful in delivering lectures to schoolboys on sanitation with the help of lantern slides.

8. **Religious and moral instruction.**—Religious instruction is chiefly imparted in demonstrational schools such as maktaba, madrasa, tols and mission schools.

In other schools an attempt is made to give instruction through lessons contained in the text-books, and occasional discourses: in some schools there is arrangement for a common prayer just before the commencement of the school work.

9. **National schools.**—The influence of these schools is diminishing and they are now an almost negligible factor in education.

CHAPTER XII.

Conferences and Committees.

The Government of Bengal during the year appointed a committee under the chairmanship of Dr. W. A. Jenkins to advise Government concerning the problems of adult and primary education in Bengal. At the preliminary meeting which was held on August 22nd, 1938, it was agreed that although there were many points of contact between adult and primary education it would be wiser for the committee to deal with these two questions separately. The committee framed a questionnaire for primary education and circulated it to various

authorities for remarks and submitted their recommendations to Government for consideration. The committee's work on adult education was not completed during the year.

The committee of enquiry which was appointed in 1936-37 to examine the possibilities of conducting the Bengal Sanskrit Association on a grant-in-aid basis and to recommend measures for the better working of the Association submitted their final report in July 1938. The matter is now under the consideration of Government.

The Moslem Education Committee which was constituted in 1931 to advise Government on the policy to be adopted for the advancement of Moslem education in Bengal submitted its report in 1935. Some of the recommendations of the committee have been given effect during the year under report.

An informal conference was held at Writers' Buildings, Calcutta, under the presidency of the Director of Public Instruction, Bengal, to consider the future development of the Islamia College, Calcutta. It was decided to work out a scheme for the transfer of the college to a more suitable site outside Calcutta.

Conferences of the higher inspecting officers of the Presidency and Burdwan Divisions were held in Calcutta and Chinsurah to discuss ways and means for the improvement of primary and secondary education and the reorganisation of education in Bengal. Conferences of inspecting officers were generally held at district headquarters under the chairmanship of District Inspectors of Schools of the districts concerned. The following were some of the subjects discussed in these conferences:—

- (1) Reorganisation and redistribution of primary schools and night continuation schools.
- (2) Organisation of teachers' conferences.
- (3) Methods of inspection calculated to improve the quality of teaching, etc.
- (4) Regular payment of stipends to primary school and maktab teachers.
- (5) Lines of co-operation with officers of other departments on the rural development scheme.
- (6) Introduction of free primary education.
- (7) Stoppage of wastage in the lower forms of primary schools.

The Conferences of Assistant Inspectresses of Schools and Head Mistresses of Government Training Schools and selected High Schools were held in Calcutta and Dacca. They were very helpful to those who attended them as they inspired them with new ideals and imbued them with fresh enthusiasm.

Sub-Inspectors of Schools throughout the province held informal meetings for the improvement of primary education.

A conference was held in the Writers' Buildings, Calcutta, in June 1938, in connection with the scheme for the establishment of training centres for primary school teachers.

During the year under review a committee was appointed by Government to investigate the problem of improving the education of scheduled castes in the province.

An Education Day and Exhibition was organised at Asansol in the district of Burdwan. The year also witnessed the organisation of a very useful Educational Exhibition under the management of the Suri Agricultural and Industrial Exhibition.

The Bengal Women's Education League held its thirteenth annual session in Calcutta from 8th to 11th February 1939. Among the resolutions passed by the conference was one that the Bengal Women's Education League should explore ways and means of establishing closer contacts between town and village schools by—

- (a) forming some kind of fellowship whereby town and village schools may get into touch with one another through correspondence, visits, and in other ways, with a view to the advancement of the villages;
- (b) encouraging town teachers to establish house-to-house visiting in the vicinity of their schools, with a view to help illiterate children at their doors.

The All-Bengal Primary Teachers' Conference was held in September 1938 in Calcutta. The Hon'ble Chief Minister opened the conference and the Hon'ble Mr. Justice C. C. Biswas presided over it.

The All-Bengal Teachers' Association held its 18th session at Hetampur. The resolutions passed at the meeting dealt among other things with the following important subjects, *e.g.*, restoration of cut in the grants-in-aid to schools, reconstitution of the Provincial Text-Book Committee on democratic principles with elected representatives from educational bodies, deprovincialisation of Government high schools and betterment of the financial position of non-Government high English schools.

CHAPTER XIII.

Text-Book Committee.

During the year under review, the Provincial Text-Book Committee was reconstituted for a period of ten months from 1st September 1938 pending the appointment of a whole-time Reader and Secretary and the introduction of a new set of rules for the working of the committee.

A new primary curriculum was drawn up and published by Government in their Notification No. 683 T.—Edn., dated the 10th June 1938, in order to do away with all distinctions between primary schools and maktabs. The special feature of the curriculum is that it provides for religious instruction for pupils of different communities.

In accordance with the programme sanctioned by Government text-books on certain subjects for secondary schools were called for, for consideration by the committee during the year under report. One thousand eight hundred and seventy-eight books on various subjects were received and a sum of Rs. 21,591 was realised as fees from the authors and publishers. The remuneration paid to reviewers of books amounted to Rs. 14,992. The different sub-committees recommended 931 books to the Director of Public Instruction, Bengal, for final approval for various classes of secondary schools.

CHAPTER XIV.

Education in the Legislative Assembly and the Council.

During the year 1938-39 many educational questions were tabled for discussion in both the chambers of the legislature. There was no serious attempt to affect any drastic reductions in the Education Budget, although a few motions were brought forward proposing small cuts in respect of some items of the budget provision. The March session of the Assembly afforded, as usual, opportunities to members to discuss, among other things, questions relating to the inadequacy of grants to high English schools, the distribution of grants and scholarships, the grant of Rs. 5 lakhs for the education of scheduled castes in Bengal, the introduction of vocational training in secondary schools, the necessity of a capital grant of Rs. 3 lakhs for the spread of education among educationally-backward classes other than the scheduled castes and of appointing a special officer for the purpose, the opening of agricultural classes in primary and secondary schools, the necessity of establishing a training school for the Urdu and Hindi-speaking teachers who are employed in maktabas and primary schools in Calcutta and the introduction of compulsory free primary education without taxation on the agriculturists. At the meeting of the Bengal Legislative Council held on 11th August 1938 the following resolution was moved by Mr. Nur Ahmed:—"I beg to move that this Council is of opinion that a sum of twenty-five lakhs of rupees, within a course of two and a half years, be set apart in addition to present annual allotment sanctioned for Moslem education in all its branches." The following may be mentioned as illustrative of the type of subject matter of the questions asked: educational regeneration of the Buddhist community, representation of scheduled castes in the Dacca University Court, suspension of collection of education cess, dual control of educational institutions by the Executive and Education Department of Government, financial position of secondary schools in Mymensingh. It was evident that the members continued to take a lively interest in the policy and administration of the Education Department.

Dacca, the 31st July 1940.

First Forecast of the Cotton Crops of Bengal, 1940-41.

(Note.—On an average of the five years ending 1938-39, the area under cotton in the territories in Bengal to which this forecast relates has represented some 0·2 per cent. and that in the Bengal States some 0·1 per cent. of the total area under cotton in India.)

There are two crops—early and late. The early crop is chiefly grown in the Chittagong

Hill Tracts and in the Tripura State and to a small extent in other districts. The late crop is grown in Bankura and Midnapore.

Character of the season.—In Bankura the weather was not favourable at the time of sowing; elsewhere conditions were fairly satisfactory on the whole.

Area sown.—The area sown is reported to be 107,078 acres this year as against 92,405 acres (revised) in the corresponding forecast of last year. The large increase in area is due to revision of estimate in the Chittagong Hill Tracts.

6. Section 91A of the said Act inserted by section 16 of the Bengal Cess (Amendment) Act, 1910 shall be omitted.

Ben. Act
IV of 1910.

STATEMENT OF OBJECTS AND REASONS.

There is no particular method prescribed in the Cess Act, 1880 for assessing coal-mines, but section 72 of the Act provides that all mines are to be assessed on the average of the net profits of the mine for the last three years for which accounts have been made up. The manner in which the net profits are to be determined has been the cause of constant friction between the colliery owners and the revenue authorities. It is now proposed to make the assessment on annual net raisings of coal-mines which will be calculated at 95 *per centum* on the average of the annual output from such colliery for the last three years.

It is also proposed to provide that the whole cess due in respect of the colliery shall be paid by the occupier. As royalty-receivers are liable to pay cess on the royalty received and as the entire cess will be paid by the occupier, it is proposed to give power to the latter to deduct from the royalty to be paid by him, the royalty-receiver's share of the cess. Similar provision for deduction of the share of the cess payable by a superior right is also made in respect of each of a series of royalty-receivers, where in existence.

It is further proposed to repeal section 91A of the Act which is now unnecessary inasmuch as collection is no longer made on commission basis.
